THE ODELL
TYPE WRITER.

\$20 will buy the ODELL TYPE
WRITER with 75 characters;
warranted to do as good work as any
machine made.
It combines simplicity with durability,
speed and ease of operation. Wears
longer without cost of repairs than any
other machine. Has no ink ribbon to
bother the operator. It is neat, sub-
stantial, nickel-plated, perfect, and
adapted to all kinds of type writing.
Like a printing press, it produces
sharp, clean, legible manuscripts. Two
or ten copies can be made at one writ-
ing. Any intelligent person can be-
come an operator in two days.
Reliable agents and salesmen wanted.
For pamphlet giving endorsements,
etc., address:
ODELL TYPE WRITER CO.,
358-364 Dearborn St., Chicago, Ill.
July 23 1 y

New Spring
MILLINERY.

My elegant stock of
New and HANDSOME Spring
MILLINERY
is now ready and I invite my friends to call
and inspect it.

I have as usual the
Very Newest Styles

in every department and it is always my
aim to please my patrons. My prices are
very reasonable and my work is of the best.
The services of Miss Loden, a lady of many years
experience in the millinery business, have been
secured again this season, who will
take great pleasure in waiting on you.
Very Respectfully,

MRS. E. W. STRICKLAND.

Commissioner's Sale.

By virtue of an order from the Superior
Court of said county granted on the April
term 1888 in the case of Margaret T. Mur-
phy vs. Mary Murphy, Merchants, and Her-
bert Joseph Murphy, the same being for the
partition by sale of the property hereinafter
described, the undersigned Commissioner
appointed by said order and being by said
Court so directed to do, will on the first
Tuesday in June 1888 at the court house
doors in said county, within the legal hours
of sale at public outcry to the highest bidder
for cash, sell the following property, to-wit:
A certain house in Dalton, Ga., the lot being
one hundred feet square and being a part of
land lot No. 319 in the 12th district and 1st
section of Lanier county, Georgia, which
was conveyed to Wm. S. Roberts as Presi-
dent of the Augusta and Dahlongega Gold
Mining Company on the 14th day of May
1881 to the children of Mrs. Amanda Mur-
phy. Deed recorded in book " " page 55
and said property more particularly de-
scribed. Said sale to be made for the
purpose of making good the proceeds of
thereof between the said plaintiff and de-
fendants who are named in common, each
owning an undivided third interest in
said property. May the 6th, 1888.

Wm. J. WRIGHT,
O. J. LILLY,
JOSEPH ALLEN,
Commissioners.

Available to Women,
Bottle of Bitters to Women is Broom's
Iron Bitters. Backache, vanishes, headache
disappears, and the glow of health, readily
comes to the pallid cheek when this won-
derful remedy is taken. For sickly children
or overworked men it has no equal. No one
should be without this gem of the family.
Broom's Iron Bitters is sold by all dealers.

A Big Demand for Ladies
Hats in Davis' District.

Ed. Nugget:—
We highly appreciate your pa-
per but the issue of a recent date
has been the instigation of incur-
ing some extra expense to the
most of your patrons in this com-
munity. Almost every family in
the district takes the Nugget and
when the local appeared, as to how
the clerks would approach a fe-
male customer wearing a long
tailed bonnet they at once decided
to lay them off and supply them
with self cost district not less than
one hundred dollars.]
We can boast of one of the most
flourishing S. S. at Oak Grove
church in the county. Bro. Tom
Clements is our Superintendent
assisted by Bro. J. E. Dowdy.
His membership numbers about fifty,
and has been organized about
five weeks. Music is furnished by
a splendid singing class. Rev. T.
Dowdy, the pastor of the church
can attend only once a month—every
4th Sunday—as he has other
churches in charge. Sub.
The Colored People's Picnic.

Ed. Nugget:—
Please allow me a short space in
your valuable paper to say a few
words about our picnic which oc-
curred at Wimpy's mill last
Saturday, during which time Rev.
Mr. Davis, of Atlanta, and others
of our town made short talks.
Mr. Davis said: It is nice to be
here today with you all. I say it
is the best thing in the world for
little children to go to Sunday
School. I want God to bless us
today as we are free. If we had
never seen a sunny day we
never would have known what a
cloudy day was, but if we want to
be a good people we must stick right
and go to Sunday School. If you
want to be a dog don't go to Sun-
day School. Ask Enla Jefferson
where the Sunday School started.
[Answered by two or three, under
an oak tree in England.] By who?
I don't remember just now. I can
say more but let some one else say
something.

Wm. Riley among other things
said: I am proud to be with you
here today. It has been a long
time since I have been with this
crowd enjoying the pleasures of an
occasion like this. Here stands
three, Eugene, Albert and Jack
that were boys when we met here
before. Others are gone and some
have died. But I was a slave. My
mother gave me to a lady at the
Besser House. Said take care of
my child. Never have seen her
any more from that day. She is
gone. I will meet her again in a
house not made by hands but eter-
nal in the heavens.

The writer asked a question on
the subject of the lesson Golden
Text, which was repeated by the
Sunday School: "He shall reward
every man according to his
works."—Mat. 16-27.

Soon afterwards the table was
fixed and everybody enjoyed them-
selves. After dinner the young
people spent some time in fishing
and jumping the rope. Every-
thing went off nicely and all en-
joyed themselves.
E. J. JEFFERSON.

Attention Democrats!

SAVANNAH, GA., APRIL 16th, 1898.
Dear Sir:—
The Democratic State Executive
Committee has called two conven-
tions, one to meet June 29th, 1898,
to nominate candidates for Gov-
ernor, Secretary of State, Com-
ptroller General, Commissioner of
Agriculture, State School Com-
missioner, Attorney General,
Prison Commissioner, and State
Treasurer; the other to meet July
20th, 1898, to nominate candidates
for a Chief Justice of the Supreme
Court, an Associate Justice for
full term of six years, and another
Associate Justice for the unex-
pired term of Justice Atkinson,
viz: two years. There are, under
the call of the Executive Com-
mittee, to be two distinct prima-
ries; one June 6th for Governor
and one State officers not
judicial; the other June 23rd, for
Supreme Court Justices only.
At each primary, the voters will
cast their ballots directly for the
candidates of their choice for the
various officers to be filled, and
the County Democratic Executive
Committee are to appoint the
delegates to the two State Con-
ventions, respectively, from among
the friends of the successful can-
didates.

Your attention is called to the
fact that the three places to be
filled in the Supreme Court, are
separate and distinct officers, as
above indicated, and the ballots
for these places should be prepared
accordingly.

J. G. DUBOIS,
Chairman Democratic State Ex-
ecutive Committee.

On Monday, June 6th, a Prima-
ry Election will be held for can-
didates for Governor and Statehouse
officers. Also for candidates for
Congress for the 9th Congress-
ional District, and it is earnestly de-
sired that every democrat turn out
and cast their votes for the can-
didate of their choice.

The members of the democratic
executive committee for each Ma-
lita District will, with the assis-
tance of two other members of the
party, open the polls at their re-
spective voting precincts and man-
age said primary election in the
same manner as other elections are
held, but without reference to
registration. Allowing
all democrats who are otherwise
qualified to vote, to express their
preference for the candidate of
their choice, and also allowing
qualified voters from other politi-
cal parties the privilege of doing
likewise, provided they pledge
themselves to support the nomi-
nee of the democratic party.

The committee from each Ma-
lita District will report at Dahlongega
on Tuesday the 7th of June by
12 o'clock m., with the returns of
their respective districts, when the
same will be consolidated, and de-
legates representing the wishes of
the majority of the voters of the
county will be appointed.

JOSEPH ALLEN,
Chm'n Ex. Com. Lampkin Co.

Nervous prostration is a term
commonly used to indicate a weak-
ened and debilitated state of the
nervous system and a vitiated condition
of the blood. Its symptoms are un-
usual nervousness, great irritability,
and incapacity for physical or men-
tal labor, and it is caused by errors
in diet or hygiene. Dr. J. H. McLean's
Strengthening Cordial and
Blood Purifier is recognized every-
where, even by the medical profes-
sion, as a superior remedy to coun-
teract weakness of this character. Price
50c and \$1.00 a bottle at Moore &
McGuire.

The Signal asks us to tell what
Bernier and Atkinson have done to
cause us to oppose Col. Candler so
bitterly? We are opposed to Col.
Candler because he has already
misrepresented us in Congress and
would more than likely do so
again. These fellows that vote
vest pocket tickets won't do to risk
much. The Georgia Legislature
asked congress to establish an
office at Dahlongega and the
old play boy put Gainesville in
the place of Dahlongega when he
went to present it. Mr. Bernier
and Atkinson have clean records
either of whom would make a bet-
ter Governor than the Colonel for
he has held an office so long that he
thinks they cannot run the state
government without him. The
old man has become childish and
it would be better for the state to
let him retire on a salary. Now in
reference to Col. Price saying to
the Signal editor "some weeks
ago" that "it would be best for us
all to support the Colonel," is not
what the Colonel told us he said.
The Signal had never raised its
voice for Candler until Col. Price
told its editor "to do what he
could for Candler" long before the
appearance of Candler's celebra-
ted letter. The production of this
celebrated document thrown
out in time of peace convinced Col.
Price that Col. Candler had made
a big mistake and wasn't the prop-
er man for Governor, therefore he
will not vote for Mr. Candler in
the primary. It looks to us now
that the Signal should follow the
example of its advisor in this mat-
ter and stay away from the polls
too.

As a rule we scarcely ever pay
any attention to anonymous writ-
ters for there is not much in a fel-
low who gets behind breastworks to
do his talking. But the letter pur-
porting to have been written by a
populist in last weeks Signal is so
plain that the writer can't conceal
himself and had just as well put
his name to it. Yes he claims to
be a populist but the author of the
article is nothing politically speak-
ing. He changes nearly every oth-
er day. Is a democrat one day,
populist the next if sober, and fun-
sionist if drunk. This is the kind
of an object that is criticising the
politics of the editor of the Nug-
get because we cannot be led up to
the polls and made to support
certain men for office. The anon-
ymous writer endeavors to make it
appear that we committed an un-
pardonable sin because we voted
for a republican when a populist.

When we belonged to a party we
never voted outside of it. While
a democrat we stuck square up to
the party, even when members of
the democratic ex. com. of our
county and leading citizens voted
for republicans we would always
cast our ballot for a democrat.
When we went into the populist
party we worked and voted for it,
and was thrown out the town mar-
shals place because we did so. This
made no change in our efforts. We
went on and kept in ranks with the
populists as long as they could find
a man in the party suitable for
president. And when they failed
and made an effort to borrow a
leader from another party we thought
it was time to step down and out.
We threw away our political mule
and expect, as we said in the
beginning of the publication of the
NUGGET, "vote for who we please
and let others do the same." But
nevertheless, when we see a cor-
rupt politician stick up his head
we will be sure to fire at it.

Don't Neglect Your Liver.
Liver troubles quickly result in serious
complications and the man who neglects his
liver has little reason for health. A bottle
of Broom's Iron Bitters taken now and then
will keep the liver in perfect order. If the
disease has developed, Broom's Iron Bitters
will cure it permanently. Strength and
vitality will always follow its use.
Broom's Iron Bitters is sold by all dealers.

Naval Vessels.

Since the outbreak of hostilities
between the United States and
Spain a great many questions have
been asked about the various kinds
of vessels in the navy. The follow-
ing is a short description of the
kinds of naval vessels:

The distinction between the
various types of naval vessels is
often misunderstood. A torpedo-
boat is used to destroy war vessels,
particularly battleships, and tor-
pedo-boat destroyers, as their name
implies, are intended for the de-
struction of torpedo-boats. Tor-
pedo-boats are small vessels, fitted
with powerful engines that drive
them through the water at a high
rate of speed. They are lightly
constructed, and carry small arms
in addition to their torpedoes.
The "destroyers" are larger than
the torpedo-boats, and have very
powerful engines, so as to be able
to overtake their elusive prey,
which they destroy with the heavy
guns they carry. The usual time
for the attack of the battleship by
the torpedo is at night. The boat
is painted a color that is almost un-
distinguishable in water, and as
she rushes onward, almost all that
can be seen of her is a streak of
foam. She approaches a war-ship
head on, so as to present as small
a mark as possible, and takes a
zig-zag course. When within
about 600 yards, she lets go her
torpedo and gets away as fast as
she can. In the day time, the tor-
pedo-boat runs along in hiding
behind a battle-ship, which she
keeps between her and the enemy
until she comes near enough to
strike. She then darts out and
makes her attack. Her only
chance of escape is in her quick-
ness, for if she is hit, the chances
are that she will go down. At
night time the big vessels keep
their search-lights busy scouring
the water to discover the torpedo
boats which may at any moment
be approached to attack them. A
battle-ship is a fighting ship used
for bombarding forts, and for
doing heavy work. A gunboat is
a small battle-ship, which, on ac-
count of its light draught, is able
to slip in close, after a battle-ship
has destroyed a fort, and finish the
work, or protect the other vessels
of the fleet while marines are being
landed. Cruisers are commerce
destroyers, or, in other words,
legalized pirates. They have
lighter guns than battle-ships, and
are very speedy, so as to overtake
the trade ships of the enemy.

A persistent pain in the back is
indicative of disorder in the kidneys.
Diseases in these organs are so rapid
and deadly in their progress they
should not be neglected for a single
instant. Dr. J. H. McLean's Liver
and Kidney Balm has an established
reputation among medical men for
curing these diseases. It has in
many cases brought about relief and
cure after the attending physician
has exhausted his resources. Price
\$1.00 a bottle at Moore & McGuire.

The oath of the volunteer who
enlists in the army sounds very
nicely. It is a solemn one. It is
as follows: "I do solemnly swear
that I will bear true faith to the
United States of America and that
I will serve them honestly and
faithfully against all their enemies
whosoever, and that I will obey the
orders of the president of the
United States and the orders of the
officers appointed over me accord-
ing to the rules and articles of
war."

Diseases of the Blood and Nerve.
No one need suffer with neuralgia. This
disease is quickly and permanently cured
by Broom's Iron Bitters. Every disease of
the blood, nerve and stomach, chronic
or otherwise, succumbs to Broom's Iron
Bitters. Known and used for nearly a
quarter of a century, it stands to-day fore-
most among our most valued remedies.
Broom's Iron Bitters is sold by all dealers.

GETTING READY

Every expectant mother has
a trying ordeal to face. If she does not

get ready for it,
there is no telling
what may happen.
Child-birth is full
of uncertainties if
Nature is not given proper
assistance.

Mother's Friend

is the best help you can use at this time.
It is a liniment, and when regularly ap-
plied several months before baby comes,
it makes the advent easy and nearly pain-
less. It relieves and prevents "morn-
ing sickness," relaxes the overstrained
muscles, relieves the distended feel-
ing, shortens labor, makes recovery rapid and
certain without any dangerous after-effects.
Mother's Friend is good for only one
purpose, viz: to relieve motherhood of
danger and pain.
Get a bottle per bottle at all drug stores, or
sent by express on receipt of price.
Face Book, containing valuable infor-
mation for women, will be sent to any address
upon application to
THE BRADFIELD REGULATOR CO.,

Calander Free.

THE ATLANTA (GA.) JOURNAL
Daily and Weekly.
Daily \$5 a Year—Weekly 50 Cents
a Year.

The Weekly Journal is a large paper, con-
taining ten pages of seven columns each.
It is filled with the LATEST NEWS, of
the day, both domestic and foreign. Own-
ing its own telegraphic wires, which
are used for no other purpose but to bring
the latest news to its editorial rooms. The
Journal is prepared to get all the news up to
the latest moment.
In addition to the news, it contains more
special features than any other southern
weekly. Among other things it has a week-
ly letter or sermon from Rev. Sam Jones, a
contribution from Hon. John Temple
Graves, letters of travel, biographies of dis-
tinguished men, and many other attractive
features.
The Weekly Journal is beautifully illus-
trated by its own artist. In fact neither en-
gaged nor money is spared to make it the
GREAT SOUTHERN WEEKLY.

Calendar Free.
And the price is only FIFTY CENTS A
YEAR. To every subscriber sending fifty
cents for a year's subscription and a two-
cent postage stamp extra (to pay postage) a
beautiful lithographed calendar for 1898 will
be sent free.
Address THE JOURNAL, Atlanta, Ga.

Rich Mineral Lands
For Sale.

Situated in the heart of the mineral belts
close to the celebrated Lead property in
White county, consisting of 750 acres, pro-
spected with tunnels and shafts. Are yield-
ing from four to fifteen tons of per-ton, veins
averaging from 6 to 12 inches thick. Creek
running through 500 acres sufficient water
to run all machinery for crushing, etc. on
said property. Also mineral lots in Lump-
kin county No. 610, 651, 652, 653, 654,
12th and 1st, containing 40 acres, more or
less. Those wishing to examine any of
said property with the view of purchasing
should address,
W. H. McLean,
Dahlongega, Ga.

An Old Idea.
Every day strengthens the belief of emi-
nent physicians that impure blood is the
cause of the majority of our diseases.
Twenty years ago this theory was used
as a basis for the formula of Broom's Iron
Bitters. The many remarkable cures effected
by this famous old household remedy are
sufficient to prove that the theory is correct.
Broom's Iron Bitters is sold by all dealers.

The Constitution thinks the July reunion will cause 50,000 people to visit Atlanta.

Next Monday is the democratic primary election. Go out and vote for who you please.

The revenue officers located at Gainesville captured two large stills in White county last week.

Remember that next Monday is the primary election for Governor, statehouse officers and congressmen. Instructions will be found on our first page.

An effort was made to get J. F. Moore to make the race for the legislature by his friends, but he politely declined saying that he didn't have that kind of a feather in his cap.

Elsewhere will be found the announcement of S. M. Grizzle who is a candidate for the legislature. Mr. Grizzle is the present tax receiver and is well known to every voter in the county, is a popular man and will make a good race.

If an editor of a country newspaper who undertakes to give the news was to try to pray for his enemies he would never have time to do anything else. Therefore we get out the paper and leave the other part of the program off. It is useless to waste breath praying for people that don't pray for themselves.

Col. M. H. Hardin, candidate for Secretary of State against Philip Cook, spent Monday night and a portion of Tuesday in Dahlonega getting acquainted with a few who he did not know. He is an old rat in the state barn. He has been in one of her corn cribs for more than a quarter of a century until he has become tired of the diet and now wants to be changed into another. Think about it. Been eating pie from the State of Georgia for more than twenty-five years until he is perfectly fat and is still not satisfied. Yes, all these long twenty-five years Col. Hardin has been secretary of the House of Representatives. At what salary? Seventy dollars per day during each sitting of the legislature. It used to be even more than \$70 per day but it is reduced now to this amount. Of course he hired his own clerks. It looks like he might be willing to step down and out.

Every member of the grand jury at the fall term of Lumpkin Superior Court, 1897, will remember how mysteriously the true bill against Scott Stringer charged with selling wine or bitters to Frank Huff, a miner, disappeared. We were the secretary of that body and Mr. Stringer was also a member at that term. Mr. Stringer, of course was not in the room during the investigation but came to us afterwards and said that he knew that a bill had been returned for the witness had told him what he had sworn. The bill was never seen any more after the Solicitor was in the room "looking over the papers to see what we had to do." Solicitor Thompson after a conversation on the public square with Mr. Stringer came to the writer and asked why we couldn't reconsider the matter as it didn't amount to much. This was not done, however, and we never heard any more about it until Friday night of last week. While in conversation with a relative of Mr. Stringer he told us that he could not vote for Mr. Thompson for one reason, if not more, and that was that he had been reliably informed that Scott Stringer had said that he had to give the Solicitor \$30 and use his influence for him in his election to get him to quash the case against him for selling the boy wine. This is better proof than ever why Solicitors and Judges should not be elected by the people, and we think it a very risky business to send Mr. Thompson to congress taking these things into consideration.

CANDLER IS BEATEN.

A Sensational Change in the Campaign.

Will the Candler Delegates Now Go For Howell or duBignon.

(From the Griffin News.)
Atlanta May 26.—Close observers might have noticed for some time past the perturbation in the columns of the Constitution caused by the critical condition of its candidate's campaign. Through the brag and bluster that always constitute its methods of carrying its point, and in spite of total suppression of all news from the different sections where the other candidates have been gaining ground that it was fondly hoped was firm for Candler, could be seen very good indications that it felt that it was waging a losing fight, or at least a very desperate one. Its enthusiasm is gone, and is that of all other friends of Candler, and the press extracts with which it once filled its columns are becoming few and far between as its allies also become discouraged and silent.

So the other day when Mr. Frank Weldon, who occupies the position of political distortionist of the Constitution so ably filled by the lamented Robert B. Cramer, now engaged in weaving war romances, was asked by Judge Sam Atkinson if he would publish a truthful account of Judge Spencer Atkinson's speech at Darien that day he was obliged to answer that the space of his paper was too crowded for that kind of matter, but that he would do the best he could. From the account that was seen in other papers, it seems that Spencer made a great hit in Darien, but not a line appeared about it in the Constitution, although there was room for another characteristic misrepresentation of Mr. Weldon about the very conversation he held with Judge Sam Atkinson.

But the way the Constitution is managed during a political campaign is an old story that is becoming well known to all its readers. Its efforts to keep on top, however, have just created a new development in this campaign, according to what one of the shrewdest politicians in the state, himself recently suspected of gubernatorial aspirations, was telling today to open the eyes of a prominent supporter of Mr. Candler in Southwest Georgia—and it succeeded. It is simply that the Candler managers have abandoned hope of his success and are quarreling over who shall be heir to his strength, which will be considerably though not enough to nominate him.

Of course, all the counties will at first vote according to instructions, but it is figured that this will never cause a nomination, so two distinct factions have formed, one seeking to further the interests of Capt. Evan P. Howell and the other that of Hon. Fleming G. duBignon. The Constitution having brought Mr. Candler out, claims the right to throw the strength of his counties as second choice to the father of the editor of that paper; but this is disputed by Mr. duBignon who is also seeking to mass all his South Georgia strength in the convention, haying his friends named wherever possible as the delegates of Atkinson and Berner as well as Candler.

Three peddlers visited Chestate district last week. Two of them got drunk while at Ben Swain's and one of them cursed the lady of the house. Mrs. Swain secured the proper papers from Squire Stancel and had him arrested. Before the time for the trial arrived Mrs. Swain agreed to let the case be settled by the man paying all the cost and presenting her with a dress pattern, an undershirt and two hand towels, making it cost the peddler \$7.25, provided he secured the wearing apparel honest.

Brief War Notes Taken From Each Paper Daily.

FRIDAY.
Capt. Clarke and officers of the Oregon came ashore at Key West and told of their long cruise and its incidents.

Two officers of Garcia's army had a conference with Secretary Alger and Gen. Miles yesterday. Cuban army is small.

The queen regent has been advised to leave Spain but she refuses. A revolution will follow the defeat of Cervera's fleet.

The insurgents are pillaging houses and massacring Spaniards in the Philippines.

Public opinion at Madrid is that an honorable peace is desired, as Spain has nothing to gain by a prolongation of hostilities.

SATURDAY.
Georgia's quota of volunteers under the last call is 1905.

Many of our soldiers stationed at Tampa, Fla., are getting sick. The climate and hot sun does not agree with them.

We have received a letter from S. T. Hulsey, who went from Lumpkin county and joined the regulars some time ago. He is at Tampa, Fla., doing nothing just at this time except fighting snafes and listening for the enemy.

Col. W. W. Gordon, of Savannah has been appointed a brigadier-general.

A Spanish steamer scouting about Key West is being chased by the Bancroft.

The report that the Baltimore had been blown up is not true.

Amendments to the war revenue bill were offered looking to the annexation of Hawaii.

SUNDAY.
Ex Senator Butler of South Carolina has been made a major general and ex-Governor Oates of Alabama a brigadier general.

The auxiliary cruiser New York is ordered to Cramps shipyards to have her armament increased.

The Spanish reserve squadron has left Cadiz.

The cruiser Harvard left Schley's squadron at the entrance of the channel to Santiago harbor.

A dispatch from Dewey reports the situation unchanged at Manila.

Americans have established close communication with the insurgents, who co-operate with the American in war movements.

News came from Madrid that Aguinaldo, the rebel chief, after securing arms from Dewey, has declared for Spain.

MONDAY.
A Madrid dispatch reports a battle between Cervera and Sampson. The Americans were defeated losing two ships and one disabled. The story is not credited.

The cruiser Columbia and the Foscolia, a British steamer were in collision off New York Saturday night. The Columbia had a hole torn in her starboard side and the British vessel went down. No lives were lost.

Three soldiers died at Chickamauga yesterday. The camp is now well supplied with water by pipes.

The three suspects who tried to blow up a battery at Key West succeeded in escaping.

A fair estimate of the cost of the war for the next twelve months brings the amount up to about \$360,000,000, or \$1,000,000 a day.

TUESDAY.
Military invasion of Cuba has begun, unless orders of the war department have miscarried.

The Americans have captured the Spanish gunboat Leyte, at Iloilo, while trying to run the blockade.

The British steamer Restormel was captured by the cruiser St. Paul and carried to Key West.

She was sent laden for Cervera's fleet at Santiago.

Gen. Miles and staff left Washington last night on a special train for Tampa.

Each shot of the long-range gun on the big Spanish warships costs in the neighborhood of \$800.

We now have seventy-seven ships in Cuban waters hunting for the seven vessels of Cervera.

The United States war ships are still anchored in the bay at Manila

and Americans are said to be dying every day from small pox and dysentery. Dewey is working hard to gain over the rebels to the aid of the Americans in active union.

The fleet at Cervera is bottled up by the Americans at Santiago de Cuba. The temperature is 110 in the shade.

The first call for volunteers is now complete. 121,500 men have been mustered in and the other 3,500 are ready.

WEDNESDAY.
A report from Cape Haytien tell of Schley's entrance into Santiago harbor and engaging the Spanish fleet and land batteries in fierce battle. No details are given, nor is the report confirmed.

The Laet expedition was safely landed in Cuba. It carried 7,000 rifles, 2,000,000 cartridges and 75 miles to Gen. Garcia.

Spanish bark Maria Dolores of Bilbao was captured by American cruisers off Porto Rico.

Brazil and Japan have issued decrees of neutrality.

Gen. Miles has arrived at Jacksonville where he was met by Gen. Lee.

Col. Cortijo, in Havana, says he is pleased with the treatment shown him by Americans, but says the government put him in a cage.

THURSDAY.
Port au Prince, Hayti, June 1. According to the latest advices from Santiago, when the Spanish cruiser Cristobal Colan emerged from the harbor yesterday to the entrance of the channel, she was welcomed by such a furious fire, as soon as the American squadron sighted her, that she was compelled to return into the bay. She intended to force her way out.

A special from Santiago confirming yesterday's bombardment says great events are expected hourly there. The American warships are in front of the harbor. The insurgents are gathering on the hills. The Spanish are taking extraordinary precautions to guard the harbor entrance.

We understand that an effort is being made to have the Gainesville daily mail changed via. Wahoo.

Our old friend Jonathan Williams who was injured by an ox last week is still unable to be out.

Mr. Whorton and Mr. Codd, who are interested in the Calhoun, arrived in the county this week.

And John F. Betz, of Philadelphia, owner of valuable mining property near Auraria, was in Dahlonega yesterday.

To the voters of Lumpkin county: Having been solicited by many friends, I hereby announce myself a candidate for the legislature, and if elected promise the people to make them a faithful and efficient member, asking the support of the voters.

S. M. GRIZZLE.

A person never knows how to appreciate a good husband or wife until they lose one. Take for instance Uncle Allen Myers and his wife Aunt Cinda, two old colored people that live happily together in our town, who have been married each two or three times, and when they speak to each other now it is "hon" and "shog," notwithstanding they are both over sixty years of age.

A NEW TRIUMPH.

The Dreaded Consumption Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist, Will Send to Sufferers, Three Free Bottles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Slocum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest disease, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away; and to make its great merits known, will send three free bottles of his newly discovered remedies to any afflicted reader of the NUGGET.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it not only his professional, but his religious duty—a duty to which he owes to suffering humanity—to donate his infallible cure.

He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has on file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world.

Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Slocum, M. C., 98 Pine street, New York, giving express and postoffice address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the NUGGET, Jan. 28.

G. H. McGuire, JEWELER, Dahlonega, Ga.

Having permanently located in Dahlonega I am now ready to do all kinds of work in my line at prices to suit the times. Bring along your clocks, watches and sewing machines. All work guaranteed for twelve months. Shop next door to A. F. Norton's old stand. G. H. MCGUIRE.

TEACHERS EXAMINATION.
The annual examination of applicants for license to teach will be held on Friday, June 17th, next. All persons residing in Lumpkin county who wish to stand said examination will meet me in Dahlonega, Ga., on the above named date. A part of the questions will be taken from Page's Theory and Practice of Teaching, Hall's Psychology and the Manual of Methods. Teachers can get The Manual of Methods by calling on me.

May 25, 1898. J. J. SEABOLT, C. S. C.

HACK LINE.

HAVING recently purchased the entire daily hack line from Dahlonega to Gainesville enables me to be more prompt in carrying express packages and passengers than heretofore on fast time at same old prices. None but safe and sober drivers will be put in charge of the mail and passengers. Prompt attention given to all business entrusted to my care.

JOHN HATHFIELD.

ANNOUNCEMENTS.

FOR THE LEGISLATURE
We are authorized to announce the name of J. V. Harrison as a candidate to represent Lumpkin county in the House of the next legislature.

I respectfully announce myself a candidate to represent Lumpkin county in the next legislature of this state and will appreciate the votes of my friends and if elected will do all I can for the county's best interests.

I am respectfully,
F. M. WILLIAMS.

FOR CLERK.
I respectfully announce myself as a candidate for clerk of the superior court of Lumpkin county and ask the support of all voters regardless of their race or politics and promise if elected to serve them to the best of my ability.

G. C. WALLACE.

FOR TAX RECEIVER.
We are authorized to announce the name of J. A. Anderson for tax receiver of Lumpkin county at the ensuing election in October.

FOR SHERIFF.
To the voters of Lumpkin: I announce myself as a candidate for Sheriff of Lumpkin county and respectfully ask the voters to give me their support. If elected I will faithfully perform the duties of such office to the best of my ability.

Respectfully,
J. M. DAVIS.

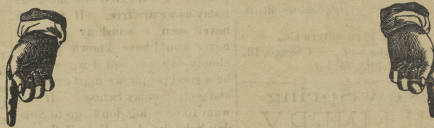

FOR COUNTY TREASURER.
To the voters of Lumpkin County: I take this method of announcing my candidacy for re-election to the office of county treasurer and hope to receive a hearty support from you. Thanking you for past favors and hoping for a continuance of the same, I am yours respectfully,

E. F. JACKSON.

FOR TAX COLLECTOR.
To the voters of Lumpkin County: I announce myself as a candidate for re-election to the office of tax collector. Thanking you for past favors and hoping my efforts to serve you for the past year will meet your approval, and if so I feel sure I will have your support in the coming election.

Yours Truly,
J. F. SARGENT.

We are requested to announce the name of George W. Walker, Jr., as a candidate for tax collector of Lumpkin county who promises to discharge the duties of such office to the best of his ability and to the satisfaction of all if elected.

THE NUGGET.

DAHLONEGA, GA., JUNE 3, 1898.

Fly traps at The Commissary.
If you don't want your name in the paper you will have to quit fighting.

James Elliott, who is mining up in White county came in last Monday and swelled the contents of the editors contribution basket for a friend.

Mr. Boone, of Gainesville who used to book keep for the Hall Mide. Co., was in our city last week shaking hands with many of his old friends.

Remember that a cross mark on the margin of your paper means that your subscription for the same has expired and if you wish to continue reading it you must renew.

J. B. Brown, an old Confederate soldier, told us this week that he had no new boys at his house to name, but that a boy calf appeared on his farm recently and he called it Dewey.

We understand that some of the citizens of Porter Springs district have already become tired of the stock law and are speaking of making an effort to be cut off into Crumby's district.

Some post office changes within the past few days. The office at Garland, Lumpkin county, and Price in Hall have been discontinued, and Wier office in Dawson county has been moved to Benet's store in Lumpkin.

During last week half a dozen women down about the Briar Patch met and fought with rocks and sticks like men. Later on four more met at the mouth of Cane Creek and had a battle and the female fights for the week ended by the two having a twist in Dahlonega, mention of which we made in our last issue.

Country ministers with big appetites will have to learn to eat less, as we heard a member of the church say the other day that they were going to call a new preacher next year on account of their present one eating so much and drinking four cups of coffee. War times and high prices will bring about economy.

Charlie Fitts, the wide awake nurseryman of Nimbleriff district, is preparing to make some big improvements on his property up at that neighborhood recently purchased by him from Capt. Hall, in the way of erecting a comfortable dwelling, barn, etc. It is said that more improvements are being made in that district than any other locality in the county.

J. W. and F. R. Adams, of Delaware, Ohio, accompanied by R. C. Thompson, a newspaper man from the same city, were in Dahlonega this week in company with Senator Castleberry of Dawson county. The two Mr. Adams have their eyes on two mining lots near Barrettville in that county belonging to Castleberry, Strickland and McGee. While here they inspected some of our mining operations.

Sheriff Brooksher arrested Bill Caloway up in Nimbleriff district last Saturday, who is charged with removing mattresses from Porter Springs some four years ago without Col. Farrows knowledge or consent. He made bond for his appearance at the next term of Lumpkin Superior Court. Not many years ago Bill was sent from this county to the chain gang, and the man seems to be in a streak of bad luck.

We heard a gentleman say the other day that he doubted whether a single child in Yachola district would be sent to school if the board did not recind its action in reference to the adoption of new school books, as they were not able to purchase them now while the prices of everything is advancing. One of the new members told us the other day that he was willing to hear from the patrons when they meet and organize.

Fresh candies just received at The Commissary.

Rust is appearing on the wheat in some places in this county and may injure it some.

Ladies can keep cool in Meaders & Sons summer corsets. Worth 32 cents.

Mr. Luther Hightower, of Dahlonega, was married up in White county to Miss Gma Quinn last Sunday. Success to the happy couple.

During the storm last Monday Mrs. Cicero Stargel had a cow killed by lightning up in Crumby's district. Other cattle were in the pasture at the time but were not injured.

W. W. Crisson has leased the underground work at the Lock Hart Mine. He has been engaged in pumping the water out of the deep shaft for several days and will probably be able to drain it during the week. Then he will go down and commence taking out ore and start up the mill.

Clyde Meaders, who was fined by the mayor last week for recklessness riding on the streets informed us Sunday that he had appealed to the council but have heard nothing more. Guess it will go by the board like some of the other cases. There has only been eight cases disposed of this year some of which are still unsettled.

John Marr, of Porter Springs, was in town Tuesday. John says that the boys are mistaken about him saying "that it was a higher power than Spain," when he heard the report of the dynamite last week exploded by old man Postell's boys when he arrived from North Carolina. Neither did he leave home but only got out into the yard.

Billy Riley always has the earliest beans of any one in this section. He had his first mess last Sunday. Billy is an upright industrious and honest darkey—one who always attends to his own business and lets others alone is why he nearly always makes a success at anything he undertakes. We wish we had more colored men like Billy.

On the fourth Sunday in last month a certain young man in the upper portion of the county dropped his pistol in the middle of the road as he was going to meeting at Porter Springs church and never missed it until he got to the place of worship. Howard Ash came along and found it and as it was in the stock law section he charged the owner fifty cents for the discovery.

After next Wednesday night there will be a large number of new school teachers turned out to go into different portions of the State to teach the "young ideas how to shoot." Fifty-one of the students stood the examination, and when one passes he has no further examination to stand before the county school commissioner like other teachers. This is the advantage gained by attending the N. G. A. College.

Did you ever think about how much it costs Uncle Sam to destroy an illicit distillery and capture one man in Lumpkin county? We will take up the case of Dave Jarrard who was arrested up in Chestate district and show you. There was Collector Birdstrom from Gainesville, who was accompanied by Deputy Marshal Grizzle of Dahlonega, accompanied by three other men, five head of horses and three vehicles. One of the men was used as a guard and the two other escorts were marked as witnesses, making it pay every one in the crowd something. Now guess what it cost to destroy this little one-horse distillery where there was not a drop of anything to drink for those that indulged except a few "backings." Fifty-eight dollars and five cents. The items of expenses are as follows: Deputy Marshal \$8.00, Deputy Collector (three days) \$21.00, three witnesses \$6.45, Commissioner \$8.00, reporter \$10.00, guard \$9.00. Total \$55.05.

The commencement of the N. G. A. College begins tomorrow.

J. H. Jenkins, of Dahlonega is now engaged in superintending a mine at Chulafine, Ala.

Commencement visitors have already commenced arriving and a good crowd and a big time is expected.

Last week, after the death of Cicero Stargel, fourteen hands of the neighborhood met and worked out Mrs. Stargels corn.

The ordinary requests us to state that merchant Ben Anderson will issue marriage license during his absence from town at any time.

Miss Sarah Cochran, of Gainesville, has been the guest of Miss May Reese for several days and will remain until after the commencement.

Col. Charters went up to Clarksville last Friday, where we suppose he went to see how the candidates up there for the legislature stood on the Solicitors race.

On Thursday evening of last week Mr. Ed Bray, of Hall county, was married to Miss Ella, daughter of Mr. Green Abercrombie near Auraria by Esquire Frank Bruce. May they live a long and prosperous lives.

We regret to learn that Wm. Armstrong had one of his hands badly mangled by a log while doing some work for Mr. Wood up in Crumby's district last Friday. His hand was caught between two logs bending his fingers backward straining the leaders and causing much pain.

Farmer Bryant of Rock Creek, Fannin county, was over last Saturday with a load of last years Irish potatoes which were readily retailed out at 80 cents per bushel. They were fine without a single sprout on them, which is something unusual at this season of the year. He is a good farmer and understands his business. Besides he doesn't dabble in liquor and is a progressive man by not doing so.

The members of the colored Sunday School enjoyed a pic nic last Saturday down at Wimpys mill, being the first they have had in this community in fifteen or twenty years. A colored minister of Atlanta by the name of Davis was the orator of the occasion. The divine then conducted a very interesting meeting at their Baptist church until Wednesday night which was largely attended.

The Spring session of the N. G. A. College comes to a close this week and the exercises of the commencement will wind up next Wednesday evening at a late hour, and before another issue of the Nugget appears many pleasant and happy faces will be gone from our midst. Many of the students leave with the intention of returning again while others have gone through with their studies and will start out on a new voyage of life now and are not likely to meet with us again at Dahlonega, all of whom have our best wishes for their welfare in life. The present session has been one of great interest and each and every instructor has faithfully performed the duties of such to the satisfaction of all, causing both trustees and patrons to feel proud of them.

A. Q. Adams, of Martins Ford was bound over last Saturday by Com. Baker for carrying on the business of working in an illicit distillery. The old still in which he was concerned has already created much trouble and will cause much more before the "ball is over." Some five or six different persons have been arrested and bound over within the past month who were in some way concerned in it. It is claimed that Adams reported the other four or five and the boys decided that they would have him beat some of the burdens and make an affidavit against him in open court. Thus causing his visit to town yesterday in company with the Deputy Marshal. These settlement stills generally end this way. Better let stilling alone.

Ben Anderson has been touching up the front of his store this week with the painters brush.

Two farmers from Davis' district visited Dahlonega Saturday riding in a buggy drawn by horned horses.

We understand that Miss Mattie Harris will assist Mr. John Chapman in teaching a school down at Silver City.

Miss Maqd Horton, of Atlanta, is up on a visit and to spend several days with Miss Mattie Moore before she returns home.

There will be several moist eyes next week when the commencement ends and some of the fair ones and their sweethearts have to separate.

Last week some parties in Nimbleriff district drew the water from the dam at Crayfords mills and captured 105 pounds of fish, ten eels being in the lot.

Col. Prios, since receiving injuries from a fall some time ago while on his way from Gainesville, is unable to be out any scarcely and has severe attacks every night caused by the fall.

Mr. M. Kingsbury, who is mining near Auraria, was up with us awhile last Friday looking as pleasant and happy as if he was doing well. A man's appearance always tells on him in his business.

Alonso Benson, who it was reported in the Signal that he and his wife had separated, requests us to say that it is a mistake. He says that they have never even had as much as a cross word since their marriage.

Tax Receiver Grizzle informs us that he will commence on his books next Thursday, and requests us to say that any one can return his property up to the second Monday in June. All his blanks were exhausted before he finished his last round and he failed to get a supply in time for the closing out day.

A Sunday School was organized last Sabbath up at Concord with John A. Grizzle as superintendent. One was recently organized at a church in Davis' district by T. H. Worley. Sunday Schools are beneficial to the young and we are glad to hear of the move that is being made in the county in this direction. Let the good work go on.

Dahlonega was visited by a heavy wind storm last Monday which alarmed a number of people, for there was much wind and but little rain. We have heard of no damage except the destruction of a few fruit trees. Virge Moose got scared and made for a tunnel down at the Ivy mine and Gub Thomas hid behind the Findley Hill. In the afternoon before the storm candles were melted, by the sun down at the Crescent gold mine.

The town ordinances passed at different times seem to be hard to find when the mayor goes to try a man. There is no record of the ordinance in reference to fast driving on the streets of our town except in a newspaper kept in the ordinary's office. Neither can any thing be found on the secretary's book in reference to the cycle ordinance, which shows the marshal has no foundation to work from. The council should pass such ordinances that are necessary and put them on record in a book to themselves where they can be found when needed.

For some time the blockaders in the upper portion of the county have had a little rest, but during the past few days the officers have broken into their arrangements to some extent. Last Monday Collector Birdstrom and Deputy Marshal Grizzle went up into Chestate and brought back D. M. Jarrard and a large capper. The distillery was alone at the time of the officers visit but Jarrard was caught running away from the concern. He was tried and bound over by Com. Baker. Ben O'Kelley, of Hall, who was arrested on Saturday by Marshal Grizzle charged with operating an illicit distillery some time ago, was also bound over.

G. McGuire after being sick several days is up on foot again.

Capt. Hall and lady spent several days in Gainesville this week. We will now have a daily mail to Porter Springs for three months.

The primary election will prevent quite a number of people from attending our commencement exercises.

We notice that the pay of the public school teachers due in July will be cut half on account of the fund being short. They will not get the remaining half until taxes are collected in the fall.

L. W. Cochran, of Randa, who was in Dahlonega last Tuesday informs us that Walt Waters had his blacksmith and wood shop destroyed by fire on Sunday morning while before day, supposed to be accidental. Walt is a hard working man and we regret to hear of his loss.

The members of the Methodist Church met last Wednesday evening and elected F. L. Reese as a delegate and Harry Gurley alternate to represent the church at the District meeting at Cleveland, which embraces the 5th Sunday in July. The names of the members were called over to see if any of them had backslidden but no charges were preferred and the matter will likely be turned over to H. C. Wheelchel, H. D. Gurley, Sr., M. G. Boyd and J. E. Moore, Stewards, so that they may revise the list as was the action taken last year.

We regret to learn of the sudden departure of old Mrs. Rachel Medford, which occurred last Saturday night at the residence of Tom Duckett in Porter Springs district. During the afternoon the old lady was over at J. B. Duckets enjoying her usual health, complaining none whatever. She went from there to Tom Duckets, a son of J. B. Duckett. After supper per they chatted till early bed time when they all retired for the night. Soon afterwards Mr. Duckett woke up and heard Mrs. Medford say, "Give me my medicine, I'm smothering!" Tom dressed as quickly as possible and ran over a short distance for his father, but before he returned the old lady had breathed her last.

John Green, a member of the colored Baptist church got happy last Sunday night and said that he felt like he could fly away, during the meeting. Monday morning he went off and the next time heard of he was out at Adline Elrods, a white woman, down sick. On Tuesday night when Brock, a colored boy of the woman came to ring the church bell for the sick negro, said if John's children wanted to see him any more they had better get a wagon and bring him away. It is said that John has been visiting this place for several months, and the good Lord seeing that the church would do nothing with him decided that He would take the matter in hand Himself. Later—John is up on foot again who told us Wednesday that he came near passing away.

Last Sunday evening was the regular monthly meeting of the Temperance Union which was held at the Methodist Church and as usual was largely attended. Whether this society is accomplishing much good or not we cannot say as there seems to be as much business in the Superior Court as ever caused from the use of liquor, and just as many violations of the town ordinances in this respect as were when we had no temperance organization, if they were looked after. There are too many, both sexes, that use "spring tonic" or "health restorer" that only visit this society that have no other interest in the cause than to go to see and be seen. If all would leave off their "tonic" and join in for the good of the cause more good would result. And if the town officials and judge would pin down a little tighter it would make more sober men than all your temperance meetings combined.

College News.

To day the last lesson of this collegiate year will be recited. The students and professors hail the approach of commencement but at the same time a kind of sadness, steals over them, as they think of the parting hour. Some of the students will graduate and others will go into business, so the present happy band will nevermore clamor to the sound of the same bell.

Mr. H. V. Hawkins who left college early in the spring has joined the army and started to Cuba.

The champion debate invitations were received and each member of the societies has sent one to his best girl.

Mr. W. R. Stewart who was in school here only one month ago is now a candidate in his county for the legislature. We would feel proud if a fellow student should enter the halls of the General Assembly so soon after leaving college.

The medals have come and all of them are beautiful. The winner of any of them will surely feel proud.

The correspondent feels safe in saying a majority of the students will be pleased if they are permitted to meet the present corps of teachers in their respective departments next year.

On the general history examination Mr. T. C. McKibben proved himself to be a young Mark Twain.

Mr. J. B. Twitty, a member of "A" class, has been elected as teacher of one of the largest and best schools in Hall county. No doubt the selection will prove to be a good one.

In preparing the commencement program it appears that the correspondent was a fraction too fast in stating who would be valedictorian. Prof. Stewart says, "The faculty has not decided who will be valedictorian but the space is given to the one who makes the highest mark in the class." Miss Mattie Rogers has made the highest mark and she will doubtless be valedictorian.

The boys down at the Hand mine will have fun in order to drive away the thoughts of the war and hard times, but the last sport they had is the best they have on record. Not long since a girl down that way cast a pleasant smile at one of their number—a married man—who is very easy charmed by the female sex. He is a bashful kind of a fellow who allowed his companions to carry many loving words to her who had gained his affections at first sight. The boys were enjoying it. They would pretend to carry his news to the girl and bring words of love back. All this was going on and the girl didn't know no more about it than the man in the moon. He could think of nothing else during the day but his loved one and at night he would dream about her. At last a proposition was made for them to run away together. The boys brought the news that she was ready and would meet him one night last week at a certain hour on the bank of the Hand canal from which place they were to depart. The married man bundled up his little budget of extra clothes, gave a parting hand to his companions at the shanty and after thanking them for their kindness bade the boys farewell and started to the place where his loved one was to meet him. Long before reaching the lonely spot he could see the beautiful and lovely form of the one whose company he was soon to enjoy standing in the moonlight alone waiting for him. A prettier picture to him could not be painted. He approached her with wide spread arms and when in reach closed down on the woman who was fastened as tight as a young chicken in the talons of a hawk and while in the act of stealing his first kiss discovered that it was Emanuel Garret who the boys had dressed up in womens clothes. His companions rose up close by and commenced laughing which ended the anticipated march for another elime.

FORAGE CROPS THE HOPE OF FARMERS

Best Means of Supplementing Food Supplies.

NESBITT GIVES POINTERS

Agricultural Commissioner on the Course to Pursue in View of the High Wheat Prices and With the Prospect of a Continuance of Such Market Conditions.

DEPARTMENT OF AGRICULTURE, ATLANTA, June 1, 1898.

With wheat quoted at an almost unprecedented figure and prices of other food crops advancing, and with the prospect of such market conditions being sustained for at least some months to come, prudent farmers are now cast about for practical means of supplementing their food supplies. There is no section of the world in which a greater variety of

FORAGE CROPS

may be grown than in the south, and as a measure of safety it would be well for Georgia farmers to put in some of these crops as our surroundings and opportunities render possible. First and foremost comes

FORAGE CORN AS A FODDER CROP FOR SILAGE.

As to the best methods of managing this crop there are somewhat conflicting opinions, but those which result from a misapprehension rather than from any real difference in the proper plans for planting, cultivating, etc. It depends upon the purpose for which the crop is intended, as to which method should be adopted. If the crop is intended for fodder, that is, to be cut and cured, the object is to secure a large yield of small and medium sized stalks, having an abundance of leaves and little grain. The plants may, therefore, be planted in narrow rows and crowded in the drill. In cutting this crop the surplus moisture is dried out and we have a nutritious forage, which, supplemented with grain, makes a good and complete ration. But in planting corn for the silo, the object is to secure a good yield of well-developed stalks, each one bearing at least one well grown ear upon it. The plants must not be crowded too closely together. The rows should be at least 3 to 4 feet apart, and the plants should stand from 16 to 20 inches in the row. If the plants stand closer than this the stalks do not have room to mature sufficiently and the consequence is watery stalks, and the ears which form are not well filled with grain. Silage made from such corn as this is apt to be very unsatisfactory—sour and unwholesome. From this explanation we see that fodder corn should be crowded as close as the strength of the land will admit, while a corn crop intended for the silo should have sufficient distance to produce a heavy yield of stalks and ears sufficiently matured to be cured into good, sweet silage.

THE PEAS CROP.

Field peas give us another crop for forage, of which too much cannot be said. Among the many advantages of this crop is the fact that it can be sown from May until July, and also that it can be utilized as a three-fold food, for man, for beast and for the land. No matter in what way we decide to use it it will return with interest whatever amount we have invested in it.

MILLET.

Millet also may be seeded at any time from May to August, and though it requires richer land and more thorough preparation than corn or peas, it is a good investment where forage promises to be short. One bushel of German millet, sown on an acre of land, well prepared and the seed harrowed in, will make a heavy yield, and when cured at the proper time, that is before the seeds mature, will make a most acceptable addition to our forage supply.

Ayer's Pills THE BEST Family Medicine

CURE Sick Headache, CONSTIPATION, Dyspepsia, Liver Troubles, Hay Fever, Puffy Vegetables.

The delicate sugar-coating of Ayer's Pills dissolves immediately on reaching the stomach, and permits the full strength of each ingredient to be speedily assimilated. As a cathartic, either for travelers or as a family medicine, Ayer's Pills are the best in the world.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Every Dose Effective

LUMPKIN SHERIFF'S SALES.

Georgia, Lumpkin County. Will be sold before the court house door in Dahlonega, Lumpkin county, Ga., on the first Tuesday in June, 1898, within the legal hours of sale, to the highest bidder for cash, the following property, to wit:

The mineral interest in land lots numbers four, hundred and thirty-four (434) and four hundred and thirty-five (435) in the Fifteenth District and first section of Lumpkin county, Georgia. Said lots containing in each forty acres more or less. Said property levied on as the property of Eugene Mayne to satisfy an execution issued from the Superior Court of said county in favor of J. W. H. Underwood against said Eugene Mayne.

Also at the same time and place and upon the same terms I will sell town lots and tenements thereon in the town of Dahlonega, Lumpkin county Georgia, being lots numbers ninety-six (96) and ninety-seven (97) in the plan of said town, containing one-fourth of an acre more or less, which is located in the hotel building known as the Besser House, and also town lots in the plan of said town, state and county aforesaid, being lots numbers one hundred and eleven (111) and one hundred and fifteen (115) containing one-fourth of an acre more or less, which is located in a small building house. Said last named lots being connected with said Besser House and used as garden for same. Levied by virtue of a mortgage execution from the Superior Court of said county of Lumpkin in favor of H. T. Gurley against Charles A. Besser. Tenant in possession given written notice of levy.

Also at the same time and place and upon the same terms I will sell five acres more or less, of land lot in the 5th district and first section of said county of Lumpkin, being the place whereon is located the dwelling house, store house, barn and other improvements of the defendant H. Satterfield and being the place whereon he formerly resided but now occupied by Lewis Cochran. Levied on by virtue of a mortgage execution from the Superior Court of said county of Lumpkin in favor of J. J. & J. E. Maddox against H. Satterfield. Written notice of levy given to tenant in possession.

J. M. BROOKSHIE, Sheriff.

A STRANGE CASE.

How an Enemy was Foiled.

The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that visited in my arms, hands and legs. I had to rub and beat those parts until they were sore, to overcome in a measure the dead feeling that had taken possession of them. In addition, I had strange weakness in my back and around my eyes, together with an indescribable 'numb' feeling in my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there is no relief. Once it fastens upon a person, they say, it continues its insidious progress until it reaches a vital point and the sufferer dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit, when I saw an advertisement for Dr. Miles' Restorative Nervine, and bought a bottle and began using it. Marvellous as it can be utilized as a three-fold food, for man, for beast and for the land. No matter in what way we decide to use it it will return with interest whatever amount we have invested in it.

Dr. Miles' Restorative Nervine is sold by druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5.00, by mail. It is free from opiates or dangerous drugs.

WHITE-THROATED THREE RAMBLER ROSES

Will make a magnificent hedge, beautiful shade for the piazza, or a charming "whit" for the garden. One plant will produce 1,000 flowers. 1.00 per plant.

VICK'S SEEDS NEVER FAIL.

112 large paper envelopes of seeds with expert illustrations. \$1.00 per envelope.

and Newsdealers in your locality.
Write to us for special terms.

THE ODELL
TYPE WRITER.

\$20 will buy the ODELL TYPE
WRITER with 78 characters;
warranted to do as good work as any
machine made.

It combines simplicity with durabil-
ity, speed and ease of operation. Wears
longer without cost of repairs than any
other machine. Has no ink ribbon to
bother the operator. It is neat, sub-
stantial, nickel-plated, perfect, and
adapted to all kinds of type writing.
Like a printing press, it produces
sharp, clean, legible manuscripts. Two
or ten copies can be made at one writ-
ing. Any intelligent person can be-
come an operator in two days.

Reliable agents and salesmen want-
ed.

For pamphlet giving endorsements,
etc., address

ODELL TYPE WRITER CO.,

New Spring
MILLINERY.

My elegant stock of
New and HANDSOME Spring
MILLINERY

is now ready and I invite my friends to call
and inspect it.

I have as usual the

Very Newest Styles

in every department and it is always my
aim to please my patrons. My prices are
very reasonable and as low as any. The ser-
vice of Miss Boden, a lady of many years
experience in the millinery business, has
been secured again this season, who will
take great pleasure in waiting on you.

Very Respectfully,

MRS. E. W. STRICKLAND.

HACK LINE.

HAVING recently purchased

the entire daily hack line from

Dahlongega to Gainesville enables me

to be more prompt in carrying ex-
press packages and passengers than
heretofore on fast time at same old
prices. None but safe and sober
drivers will be put in charge of the
mail and passengers. Prompt at-
tention given to all business entrus-
ted to my care.

may 13 JOHN HATFIELD.

G. H. McGuire,
JEWELER,

Dahlongega, Ga.

Having permanently located in Dal-
longega I am now ready to do all kinds
of work in my line at prices to suit the
times. Bring along your clocks,
watches and sewing machines. All
work guaranteed for twelve months.
Shop next door to A. F. Norton's old
stand.

April 23 G. H. MCGUIRE.

Diseases of the Blood and Nerves.

No one need suffer with neuralgia. This
disease is purely and permanently cured
by Brown's Iron Bitters. Every disorder
of the blood, nerves and stomach, chronic
dyspepsia, succumb to Brown's Iron
Bitters. Known and used for nearly a
quarter of a century, it stands today fore-
most among the most valued remedies.

Brown's Iron Bitters is sold by all dealers.

The Signal Man Buys His Jack
Asses in Gainesville.

In a recent issue of the NUGGET
we stated that our citizens should
not buy goods on a credit from
home merchants and then take
their money off to Gainesville and
spend it, at the same time saying
that we didn't want any of Gaines-
ville's merchants cheap goods or
cheap ads. In this article not a
word was said about the Signal or
even any intimation, but the shoe
seemed to pinch and caused our
contemporary to squeal last week.
We had been told by the senior ed-
itor of that paper some time ago
that the former editor of the NUG-
get had ruined the prices of the
Gainesville ads. We certainly be-
lieved that some one had for we re-
ceived some propositions in which
there was not a living and we let
them go by the board. This is
why we said that we didn't want
any of their cheap ads. This an-
nouncement has caused one of the
Signal's staff—the other the populist,
democrat or fusionist writer—to
fly off of the handle and produce
an article much longer than Mr.
McKinley's in the declaration of
war with Spain, in which he
says that we have done the Signal
an injustice, when we never even
mentioned its name. In this won-
derful document the writer says
we purchased goods from a Gaines-
ville store during the existence of
the alliance here and intimates that
we don't practice what we preach.
Then it says that the NUGGET con-
tains but two ads. of Dahlongega
merchants, and winds up by stat-
ing that "it is a very wise man
when he will pay \$50 for a Jack Ass
when he could get one from the
other fellow for \$40."

No Gainesville merchant ever
let us have a dollars worth of goods
for the alliance. We were em-
ployed to order them through the
state exchange in Atlanta and did
so. It is true that we only have two
standing ads. for Dahlongega mer-
chants, but this is two more than
the Signal has. And we are proud
to say that there is not a merchant
in Dahlongega but what has given
us local ads. and patronage in the
way of job work, etc., sufficient to
keep us on top without causing us
to have to look to some other town
for our support, and we make the
announcement with pride and will
stick to our home people as long
as there is a pea in the dish.

He says that we have thirteen
stores when there is only nine and
we are not surprised at the Signal
man purchasing his Jack Asses in
Gainesville, for those owning
any of the innocent animals here
have more sympathy for them than
let them fall into the hands of
the author of that article for if one
raised here was turned over to him
it would soon die of embarrass-
ment caused by the conduct of its
new owner.

A great iron mill corporation of
San Francisco announces that it
will go out of business because it
cannot compete with the mills of
the eastern section of the country.
The probabilities are that the
mills of the South are making the
eastern mills hustle to hold their
business, with the result that the
westerners have been left in the
competition. Meantime the south-
ern mills are growing and pros-
pering—Ex.

A persistent pain in the back is
indicative of disorder in the kidneys.
Diseases in these organs are so rapid
and deadly in their progress they
should not be neglected for a single
instant. Dr. J. H. McLean's Liver
and Kidney Balm has an established
reputation among medical men for
curing these diseases. It has in
many cases brought about relief and
cure after the attending physician
has exhausted his resources. Price
\$1.00 a bottle at Moore & McGuire.

The Advantage.

Our navy advantage, will grow
more marked as the war progres-
ses. If Spain has ships repairing
and fitting out, so we have. The
Newark and the Princeton, for ex-
ample, are two on which we can
now rely, and later in the year
will come the Chicago, Atlanta
and Philadelphia. If the war
could be prolonged by Spain to
next winter, she would have more
armored ships, but we, too, should
then have the use of our Keokuk
and Kentucky, which are far more
powerful than anything in the
Spanish navy. The Alabama has
been launched, a powerful battle-
ship and will be completed in
two months. She is a sister-
ship to the Wisconsin, under con-
struction at the Union Works at
San Francisco and the Illinois,
being built at Newport News.
Spain cannot keep pace with us
in naval construction and must see
that she can not win in this fight—
Marietta Journal.

A young man who has been
married about a year gets off this
lament: "Man that is married to
woman is of many days and full of
trouble. In the morning he draws
his salary and in the evening be-
hold it is gone. It goeth, but he
knows not wherefore or for what.
He spendeth his shakles in the pur-
chase of fine linen to cover the
bosom of his family, yet he is seen
at the gates of the city with one
galled. He goeth as an ox or an
ass and draweth the chariot of his
offspring. He riseth up in the
chilly garments of the night and
seeketh the somnolent paragon.
Wide is the road and broad is
the way that leadeth to the gate
of matrimony, and many there be
that goeth in thereat."

Without indulging in what Eu-
ropeans are apt to consider a na-
tional propensity—to brag—it may
be confidently said that Great
Britain and the United States nu-
merated in arms would easily be
more than a match for any combina-
tion of powers likely to be formed
against them. Perhaps after all
the strongest argument that can be
urged in favor of such an alliance
would be that it would constitute
of itself the best possible guaran-
tee for the preservation of the
peace of the world.—Marietta Journal.

An Uncertain Disease.
There is no disease more uncertain in its
nature than dyspepsia. Physicians say
that the symptoms of no two cases agree. It is
therefore most difficult to make a correct
diagnosis. No matter how severe, or under
what diagnosis dyspepsia attacks you, Brown's
Iron Bitters will cure it. Invaluable in all
diseases of the stomach, blood and nerves.
Brown's Iron Bitters is sold by all dealers.

The saddest news of the war
is contained in the hints that come
now and then from the interior of
Cuba as to the fate of the recon-
centrados. These wretched non-
combatants, for whom neither the
Spaniards nor the insurgents
have shown any consideration, are
now out off from all immediate
succor by the hard necessities of
war and are dying of starvation by
thousands. The fate imposed upon
these wretched people is one of the
most horrible crimes of the cen-
tury.

No humane person will expect a
horse to work against a sore shoul-
der, nor to rest quietly under galling
harness or saddle. When these
troubles attend the proper method
is to remove the cause of the sore
and apply Dr. J. H. McLean's Vol-
canic Oil Liniment. It is a superior
remedy for galls and sores, chafes
and burns on animal flesh. Price
25c and \$1.00 a bottle at Moore &
McGuire.

If you wish to keep posted on
home affairs take the NUGGET.

Brief War Notes Taken From
Each Paper Daily.

FRIDAY.

A gentleman, who has been to
Atlanta within the past few days
says that large numbers of sick sol-
diers are being brought back from
Florida to the hospital in Atlanta
on nearly every train. Forty were
brought in on one car the other
night. Congress was very much
warmed over the suffering in Cu-
ba but by its acts will bring about
more suffering and distress in
America than ever occurred in Cu-
ba.

Spain is weakening. She has
only \$20,000,000 to meet \$260,-
000,000 outstanding notes.

About 400 shots were exchanged
at Santiago—300 by the Spaniards
and the rest by Americans the
other day.

For two weeks the American
flag has been floating over the soil
of Cuba on a little island called
Pittrau Key, two miles from the
west mouth of Cardenal harbor.
The little gun boat Leyden ran in
one day to look at it whereupon
the few inhabitants left out.

It is figured that New York
daily newspapers are spending in
the aggregate about \$200,000 per
week for war news at present.
The expenses of the World and
Journal are estimated at \$30,000
apiece.

SATURDAY.

Schley has ascertained the loca-
tion and strength of the forts and
land batteries commanding the San-
tiago channel.

The American fleet renewed the
attack at Santiago Friday morning
sending a cruiser into the channel.
It was destroyed by Spanish torpe-
does and the crew captured by
Spaniards, so it is reported.

It is reported that the Spanish
fleet from Cadiz is expected to re-
reinforce Cervera today or tomorrow
or engage Schley's squadron in the
open sea.

Cruiser St. Paul arrives at New
York and Capt. Sigbee tells of
his trip to Santiago.

Troops embark on transports at
Mobile, but their destination is not
given.

Revolutionists attacked Monte
Cristo in San Domingo, but were
repulsed by government troops.

There is a sentiment of peace at
Madrid, which is spreading rapidly.

Gen. Oates has been assigned to
Mobile to command a brigade.

SUNDAY.

A telegram from New York says
the ambulance ship Solace, came to
port today, having on board fifty-
four wounded and sick, some of
whom had been transferred from
the American warships in Cuban
waters and others taken from the
hospitals at Key West.

Commodore Sampson sends his
official report of sinking the Mer-
rimac in the Santiago channel.

The daring of Lieutenant Hob-
son and the other volunteers on
the Merrimac is commended by
officials, and promotion awaits them.

Peace signs are multiply ing and
a notable change in the Spanish
press has taken place.

It is reported that the Spanish
fleet has been destroyed and a land
attack made on Santiago.

The Cadiz fleet has not yet gone
to sea.

Lieut. Carranza, who challenged
Leo and Sigbee to a duel has
written a letter which shows he is
the head of a party Spanish spies.
The letter was secured by a detec-
tive.

The war revenue bill passed the
senate by a vote of 48 to 28. A tax
of 10 cents a pound is placed on
tea.

Three Spanish warships engage
four American war vessels Satur-
day. Cape Haytien advises de-
clare that the United States vessels
retired from the combat.

Lieutenant Hobson has done his
work well, and the Spanish fleet is
now being held a helpless captive
in Santiago de Cuba harbor. The
narrow channel leading into the
harbor was completely blocked
early Friday morning when the
United States Merrimac was sunk
across its entrance. It is now im-
possible for the Spanish to get out,
and it is equally impossible for any
vessel to get into the harbor. Sev-
eral of the Spanish vessels are no
longer any use to Spain.

Cleveland Paragraphs.

May 30.

The weather is hot and was dry
up to last Monday when we had a
refreshing rain accompanied by
considerable wind. Everything is
looking brighter. Candidates are
few but loud.

Some sickness but none danger-
ously ill just at this time. Old
Mr. Merrett who lived out in the
country, and had been afflicted for
quite awhile, died last Monday
night at the advanced age of 74
years. A large number of neigh-
bors and friends of the deceased
attended the burial service which
took place at Cleveland cemetery,
conducted by Rev. Mr. Power.

A brother of Judge Kimsey, re-
siding at Judge Reeves', this coun-
ty, has been very sick but is now
much better.

Col. W. A. Charters, our next
Solicitor General, was in town last
Friday evening.

Col. J. W. H. Underwood seems
to be creating quite a favorable
impression among the voters of
White county by his quiet and es-
sary manner of electioneering. His
friends are confident of his elec-
tion if nominated.

Mr. Nunn, the pastor of the
Cleveland Circuit, visited his
mother this week at Cedartown.

The pastor of the Lonsdale
Mission has a horse that is old
enough to be good. He is 22 years
old. But Bob Atkins has one 32,
ten years older, if not ten better.
Guess he's ten dollars cheaper, but
neither of them are on the market.
They don't have to sell.

GEORGIAN.

Nervous prostration is a term
commonly used to indicate a weak-
ed and debilitated state of the ner-
vous system and a vitiated condition
of the blood. Its symptoms are un-
usual nervousness, great irritability,
and incapacity for physical or men-
tal labor, and it is caused by errors
in diet or hygiene. Dr. J. H. Mc-
Lean's Strengthening Cordial and
Blood Purifier is recognized every-
where, even by the medical profes-
sion, as a superior remedy to coun-
teract weakness of this character.
Price 50c and \$1.00 a bottle at
Moore & McGuire.

Mail advices received from
Australia contain a brief account
of the cannibal outrage in New
Guinea. A number of native
prisoners held at Mombare escaped
and fled to the bush tribes in that
neighborhood. The fugitives
gathered a strong force and re-
turned to Mombare. They attacked
a peaceful village below the
police camp, whose people they
suspected of treachery, and carried
off all the women. They captured
and killed 18 men, 10 of whom
they ate.

A Wonderful Discovery.
The last quarter of a century records
many wonderful discoveries in medicine,
but none that have accomplished more for
humanity than that sterling old household
remedy, Brown's Iron Bitters. It cures
the very elements of good health,
and neither man, woman or child can take
without deriving the greatest benefit.
Brown's Iron Bitters is sold by all dealers.

GETTING READY

Every expectant mother has
a trying ordeal to face. If she does not

get ready for it,
there is no telling
what may happen.
Child-birth is full
of uncertainties if
Nature is not given proper assistance.

Mother's Friend

is the best help you can use at this time.
It is a liniment, and when regularly ap-
plied several months before baby comes,
it makes the advent easy and nearly pain-
less. It relieves and prevents "morning
sickness," relaxes the overstrained mus-
cles, relieves the distended feeling, short-
ens labor, makes the recovery rapid and cer-
tain without any dangerous after-effects.
Mother's Friend is good for only one
purpose, viz.: to relieve motherhood of
dodge and pain.

One dollar per bottle at all drug stores, or
sent by express on receipt of price.
Faint boxes, containing valuable informa-
tion for women, will be sent on any address
upon application to
THE BRADFORD REGULATOR CO.,

THE ATLANTA (GA.) JOURNAL

Daily and Weekly.

Daily \$5 a Year—Weekly 50 Cents

a Year.

The Weekly Journal is a large paper, con-
taining ten pages of seven columns each.
It is filled with the LATEST NEWS, of the
day, both domestic and foreign. Own-
ing its own leased telegraphic wires, which
are used for no other purpose but to bring
the latest news to its editorial rooms. The
Journal is prepared to get all the news up to
the latest moment.

In addition to the news, it contains more
special features than any other southern
weekly. Among other things it has a week-
ly letter or sermon from Rev. Sam. Jones, a
contribution from Hon. John Temple
Draves, letters of travel, biographies of dis-
tinguished men, and many other attractive
features.

The Weekly Journal is beautifully illus-
trated by its own artists. It contains nei-
ther any nor money is spared to make it the
GREAT SOUTHERN WEEKLY.

Calendar Free.

And the price is only FIFTY CENTS A

Rich Mineral Lands

For Sale.

Situated in the heart of the mineral belts
close to the celebrated Lead property in
White county, consisting of 750 acres, pro-
spected with tunnels and shafts. Are yield-
ing from four to fifteen dwts. per ton, veins
averaging from 6 to 18 inches thick. Creek
running through 500 acres sufficient water
to run all machinery. Good crumbing ore
on all lands. Also mineral lots in Lump-
kin county Nos. 610, 631, 612,
12th and 1st, containing 40 acres, more or
less. Those wishing to examine any of
said property with the view of purchasing
should address,
Dahlongega, Ga.

An Old Idea.

Every day strengthens the belief of emi-
nent physicians that impure blood is the
cause of the majority of our diseases.
Twenty-five years ago the old household
remedy, Brown's Iron Bitters, was used
as a basis for the formula of Brown's Iron
Bitters. The many remarkable cures effected
by this famous old household remedy are
sufficient to prove that the theory is correct.
Brown's Iron Bitters is sold by all dealers.

THE NUGGET.

DAHLONEGA, GA., JUNE 10, 1898.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

THE ELECTION.

Candler For Governor and
Tate For Congress.

The democratic primary election for Governor, statehouse officers and Congressmen has come and gone and some are feeling proud while others are sorry. But we should all be willing to submit to the will of the people and be content when the decision is made at the ballot box. There was not much interest taken as would have been had it been a general election as none were allowed to vote except those that were willing to stick to the ticket that was nominated. This left the republicans and populists out. An election was held in every district in the county except Frog Town, Jones Creek and Crumby's. Col. Candler carried the county for Governor by 46 votes, and Col. Tate received a majority of 88. The vote is as follows: Candler 239, Atkinson 193 and Berner 42. Tate 287, Thompson 204. The statehouse officers having no opposition stand in this county as follows: For Secretary of State Cook 365, Hardin 55. For Commissioner of Agriculture Nesbitt 135, Stevens 295. For Prison Commissioner Turner 234, Renfro 84.

Below we give the vote of Governor and congressmen by districts:

| District | Candler | Atkinson | Berner | Tate | Thompson |
|----------------|---------|----------|--------|------|----------|
| Dahlonega | 95 | 103 | 23 | 111 | 120 |
| Auraria | 71 | 2 | 1 | 54 | 19 |
| Davis | 4 | 5 | 1 | 1 | 1 |
| Yahola | 9 | 17 | 12 | 19 | 19 |
| Wahoo | 1 | 11 | 1 | 8 | 4 |
| Martin's Ford | 12 | 1 | 1 | 1 | 1 |
| Mill Creek | 1 | 1 | 1 | 18 | 2 |
| Nimblewill | 1 | 3 | 2 | 5 | 1 |
| Hightower | 11 | 4 | 1 | 10 | 7 |
| Cane Creek | 2 | 25 | 2 | 28 | 2 |
| Porter Springs | 4 | 2 | 3 | 6 | 3 |
| Shoal Creek | 17 | 1 | 7 | 12 | 12 |
| Chestate | 14 | 8 | 15 | 7 | 7 |
| Total | 239 | 193 | 42 | 287 | 204 |

IN THE OTHER COUNTIES.

Tuesdays mail brings the news that Candler carried 97 counties out of 137 and has made a remarkable race, Phil Cook wins for Secretary and O. B. Stevens will look after the agricultural department of the state. Carter Tate will represent the Ninth Congressional District, being the choice of every county in the district except his opponents home county—Hall.

The vote for Governor and state house officers, that is those having opposition, stands as follows: Candler 260, Berner 54, Atkinson 34, Cook 254, Hardin 72, Stevens 190, Nesbitt 106, Turner 206, Renfro 58.

The Democratic Executive Committee of Lumpkin county, after consolidating the returns has Tuesday elected Col. R. H. Baker and Col. M. G. Boyd as delegates to the gubernatorial convention, and H. D. Gurley and J. T. Miller were selected to represent this county in the Congressional convention. They also passed resolutions calling the democrats of Lumpkin county to convene in Dahlonega on the 23rd day of June in mass meeting to select delegates to the judicial convention. There is only one Supreme court Judge to elect and the body decided that this would be a better way and less trouble than to hold primaries.

A new democratic executive committee will be selected at the mass meeting of the democratic party on the 22nd of June. And at the same time it will be determined whether they will hold primaries in Lumpkin county for a member of the legislature.

The Atlanta Looking Glass after a hard struggle of six years has gone dead.

Brief War Notes Taken From Each Paper Daily.

(Continued from 1st page.)

TUESDAY.
A report from Cape Haytien gives an account of a battle between four American and three Spanish war ships off Mole St. Nicholas, the Americans withdrawing from the combat.

Steps are to be taken at once to effect an exchange of prisoners, so that the Merrimack's crew may return to receive the nation's reward.

The health of troops at Chickamauga is good, though there are 150 patients under treatment.

Capt. Chas. Gridley of the cruiser Olympia, Dewey's flagship died at Kobe, Japan while en route home.

The British government is to take steps to drive Spanish spies from Canada.

A telegram from Manila says that the Spanish outposts have been driven in all along the line with great slaughter. It is said that over a thousand have been killed by the insurgents.

All the members of the Merrimack expedition are safe. Only 2 men slightly wounded.

Twenty American yessels bombard Santiago forts, but no detail of destruction given.

The insurgents at Manila have captured nearly 2,000 Spanish troops and are within four miles of Manila.

It is reported that a Spanish torpedo boat destroyer has been destroyed by Sampson's ships off Santiago.

A force of troops landed near Santiago under cover of Sampson's fleet. Heavy commanding was heard for several hours.

The Spanish government has offered a large reward for the capture of Aquinaldo, dead or alive. He is pressing forward toward Manila, which, it is thought, will be taken by June 12. Dewey aids the rebels with arms and the Petrel.

Admiral Sampson is arranging for the exchange of Hobson and his men.

WEDNESDAY.

Sampson's fleet bombarded forts and fortifications at Santiago Monday, doing great damage. Spanish cruiser Reina Mercedes was struck and several men were killed. There was loss of life in the fortifications.

The battle of Manila is told of by several participants, who were on the Olympia. The fight was furious on both sides. The Spanish loss in money reached \$10,000,000, while 400 men were killed and 600 were wounded.

Gen. Merritt complains that he has no transports to send troops to Manila.

The bill removing all political disabilities has been approved.

The Monterey and the collier Brutus are under way to Manila.

The invasion of Cuba has begun and troops are embarking at Tampa. Sampson has prepared to way.

THURSDAY.

Advices from Hong Kong say it is said there that the Spanish garrison at Manila, rather than be massacred by the insurgents, preferred to yield to the Americans as prisoners of war.

Consol Wildman does not credit the report that Manila has been actually occupied yet, but he thinks that it will be by or before next Saturday.

Twenty seven thousand soldiers are now on route to Cuba. General Shafter leads regulars and volunteers to the front. War now begins in earnest.

Capt. General Augusta declares that he cannot hold out and that the Philippines are lost to Spain.

Five American war ships open fire on the fortifications at Canina, and Spaniards reply quickly. Work was carefully directed. Natives fled and Commander has issued orders to burn the town.

Another alleged Spanish spy has been caught in Tampa, Fla., and brought to Atlanta.

Don't Neglect Your Liver.

Liver troubles quickly result in serious complications, and the man who neglects his liver has little regard for health. A bottle of Brown's Iron Bitters taken now and then will keep the liver in perfect order. If the disease has developed, Brown's Iron Bitters will cure it permanently. Strength and vitality will always follow its use. Brown's Iron Bitters is sold by all dealers.

Local Items.

An infant of Rachel Walker died last Monday.

Mrs. Wm. Postell is lying very low at her daughters down at the Hand mill.

Capt. Hall will likely commence repairing the Besser Hotel purchased by him, at an early day.

Dr. Cartledge, who has been located in Atlanta for many months, was up to see the "old folks at home" this week.

Our friend T. S. Littlefield, a former merchant of Dahlonega, was up from Gainesville this week accompanied by his wife.

Ben Austin, a good old man residing in Wahoo district, died one day last week aged about 75. He was a darkey that had many white friends throughout the county.

Capt. Asbury of Pleasant Retreat was in Dahlonega Tuesday and stated that the election was very quiet in White county. Candler and Tate carried the day up there and Col. J. W. H. Underwood was nominated for the Senate for this district by the democrats, and T. W. Pain for their representative. It is not known yet who the populists will put out.

We understand that Col. Farrow and his wife were up at Porter Springs last week for the purpose of opening out this well-known summer resort for the season. The Colonel returned to Gainesville while Mrs. Farrow remained over to see that visitors are well cared for who wish to spend the season at the Queen of the Mountains. It is reported in Dahlonega that the telephone line to that place will be constructed via, Cleveland since Dahlonega failed to go into the enterprise.

Venerable, son of Cader Stencil, of Frog Town district, accidentally shot himself one day last week while out hunting. When the gun went off the lead passed through his right hand and a portion of the shot entered his face, neck and breast. Dr. Pendergrass, of Porter Springs, was sent for who succeeded in finding all of the shot except two that went into his breast. It is considered a dangerous wound. He was crossing a log when the hammer of the gun came in contact with it, causing the accident.

In reply to an article in the Nugget of last week in reference to Col. Howard Thompson and Scott Stringer the latter gentleman says that he did not give the Solicitor any money to quash the bill that was returned against him nor didn't even tell any one that he did for nothing was said about it except that he told the Solicitor how it was and desired to have the case settled without any exposure. After such explanation the Solicitor told him, he says, that he would have the grand jury to reconsider the matter but not a word was said about the election or his race. Mr. Stringer says that the disappearance of the bill is still a mystery to him.

Perhaps you have made up your mind to take

Scott's Emulsion

this summer.

Then look for this picture on the wrapper, a man with a big fish on his back.

Do not let anyone talk to you of something "just as good."

When you want cod liver oil and the hypophosphites you want the very best. You will find them in only one place, Scott's Emulsion.

There is no other emulsion like it; none other does the same work; and no other has the same record of cures.

All Druggists, and Scott & Bowne, Chemists, N. Y.

There will be several applicants before the city council Monday night for marshal.

Last Tuesday Mrs. B. H. Baker entertained all the lady visitors to the entertainment at her house. Nice refreshments were served and the pleasant occasion will long be remembered by those present.

Judge Gaston, Gainesville's wide awake mayor spent last Sunday in Dahlonega, who was accompanied by four of his children. Dahlonega is the Judge's old home and he has a host of friends here that are always glad to see him.

Miss Annie Stilwell, one of the lady teachers of the college left for her home at Anniston, Ala., last Tuesday morning. Miss Annie has been elected to a position in a college at Missouira and may not return. Miss Stilwell is an excellent teacher who has given entire satisfaction while here and it will be very much regretted by the trustees, faculty and her many friends in Dahlonega if she does not return to her position in our college.

Some nights ago as Web Reeves, who resides down below Auraria, was returning home he had a terrible encounter with something which appeared before him that looked like a man. Web spoke but it didn't move nor make any reply. Many thoughts passed through his head as he stood there gazing at the strange object wondering what it could be. Web had been in the revenue business and the thought struck him that it might be some enemy waiting for him. In an instant he had out his pistol and fired five shots but the enemy didn't move except it got larger. He ran up and struck it three or four licks with his fist and then moved direct home through the woods at a high rate of speed. When he reached home and got so he could talk he told the old man his trouble. The mood was dripping from his bruised fist while his clothes hung in strings about his body. His father got a light and went out to see what had been fighting his son. What do you suppose it was? A stump showing that the five bullets had struck their aim, while here and there could be found pieces of Web's clothing hanging on bushes that had been caught while the fleeing man was making his escape through the woods from the ugly looking object.

A NEW TRIUMPH.

The Dreaded Consumption Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist. Will send to sufferers, Three Free Bottles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Slocum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest disease, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away; and to make its great merit known, will send three free bottles of his newly discovered remedies to any afflicted reader of the NUGGET.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it not only his professional, but his religious duty—a duty to which he owes to suffering humanity—to donate his infallible cure.

He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has in file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world.

Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Slocum, M. C., 98 Pine Street, New York, giving address and postal address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the NUGGET, Jan. 23.

Dr. Stow of Mineral Bluff, was near to see his parents this week.

County officers can have their names announced in this paper for \$3. No more not no less.

F. J. Williams, who is a candidate for sheriff of Union county, paid as a beneficial call this week.

There was a white hat and a pound of beef or mutton could be purchased in Dahlonega.

All of the household and kitchen furniture belonging to the Besser House was auctioned off this week.

Eleven hands are now at work at the Calhoun mine under the supervision of John Huff. Whorton, the owner, has decided to rebuild the dam and put in a pump sufficient to force the water on any portion of the property so as to enable them to work the many rich deposit mines on the lots. Wm. Armstrong and Wes Hulsey will likely take the contract to build the dam.

The wife of James London, Jr., attempted to commit suicide last Tuesday by taking laudanum, down at her home at the Briar Patch. Some one had endeavored to stain her character, so we are informed, and as soon as she heard of it she seized a bottle of laudanum and drained it of its contents. Dr. Wheelchel was sent for who soon had the lady out of danger by the proper use of the necessary medicine.

ANNOUNCEMENTS.

FOR THE LEGISLATURE.

We are authorized to announce the name of J. V. Harbison as a candidate to represent Lumpkin county in the House of the next legislature.

To the voters of Lumpkin county: Having been solicited by many friends, I hereby announce myself a candidate for the legislature, and if elected promise the people to make them a faithful and efficient member, asking the support of the voters.

S. M. GRIZZLE.

I respectfully announce myself a candidate to represent Lumpkin county in the next legislature of this state and will appreciate the votes of my friends and if elected will do all I can for the county's best interests.

I am respectfully,

F. M. WILLIAMS.

FOR CLERK.

I respectfully announce myself as a candidate for clerk of the superior court of Lumpkin county and ask the support of all voters regardless of their race or political preferences if elected to serve them to the best of my ability.

G. C. WALLACE.

FOR TAX RECEIVER.

We are authorized to announce the name of A. Anderson for tax Receiver of Lumpkin county at the ensuing election in October.

FOR SHERIFF.

To the voters of Lumpkin: I announce myself as a candidate for Sheriff of Lumpkin county and respectfully ask the voters to give me their support. If elected I will faithfully perform the duties of such office to the best of my ability.

Respectfully,

J. M. DAVIS.

To the Voters of Lumpkin County: At the solicitation of many friends, throughout the county I have decided to make the race for Sheriff and respectfully solicit the support of all the voters.

Respectfully,

M. G. HEAD.

FOR COUNTY TREASURER.

To the voters of Lumpkin, county: I take this method of announcing my candidacy for re-election to the office of county treasurer and hope to receive a hearty support from you. Thanking you for past favors and hoping for a continuance of the same, I am yours respectfully.

E. F. JACKSON.

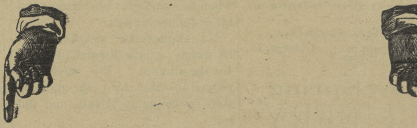

FOR TAX COLLECTOR.

To the voters of Lumpkin County. I announce myself as a candidate for re-election to the office of tax collector. Thanking you for past favors and hoping my efforts to serve you for the past year will meet your approval, and if so I feel sure I will have your support in the coming election.

Yours Truly,

J. F. SARGENT.

We are requested to announce the name of George W. Walker, Jr., as a candidate for tax collector of Lumpkin county who promises to discharge the duties of such office to the best of his ability and to the satisfaction of all if elected.

THE NUGGET.

DAHLONEGA, GA., JUNE 10, 1898.

Lige Beck will soon have his new residence completed near the jail.

Mayor Price will hold court tomorrow and dispose of several cases that are on the docket.

Mrs. T. S. Waters, daughter of Capt. J. W. Woodward, was up from Gainesville this week taking in the commencement.

The tax receiver informs us that the taxable property of Lumpkin county will fall short several thousand dollars this year.

Squire Edge, of Crumby's, discovered a snow bird on his farm last Friday which is something unusual at this season of the year.

From the way the people are seeking the sheriff's office in Lumpkin county nearly every other man will be a candidate before the election comes off.

We would be glad to give the names of the many visitors that were in Dahlonega this week but it would take a paper much larger than the NUGGET to do so.

Mr. Whorton, who is interested in the Calhoun mine, has spent several days in Dahlonega during the past week, looking over the various mines in this locality.

The bud worms have been destroying much corn in Lumpkin county which is giving the farmers a good deal of trouble as there seems to be no way to stop their work.

The Richardson Bros., formerly of Dawsonville but now of Gainesville furnished excellent music for the commencement exercises. It has an engagement again to play at Ducktown, Tenn., on the 4th of July. This band has traveled all over Georgia within the past year or so and never fails to give entire satisfaction to all who enjoy good music.

Solicitor General Maddox, who resides in Dalton, spent several days in our town last week. The Colonel has a son attending the N. G. A. College here and is highly pleased with the institution. Col. Maddox was the prosecuting attorney in the Dalton car robber gang which he succeeded in breaking up and sending its leaders to the coal banks.

Tom Ray, superintendent at the Yahoola informs us that he has struck a very large and rich vein down at his works. Besides this he is within a few feet of the valuable vein which was worked by Mr. W. H. McAfee many years ago, that was covered up by a large cave causing them to have to abandon it then on account of not having a sufficient amount of water to clear it away.

Turner Quillian, of Land, Hall county, was with his relatives here last Sunday in company with his wife. Mr. Quillian passed quite a compliment on the NUGGET while in conversation with Judge Gaston. He said that it "is the best paper published in Northeast Georgia." The Judge was satisfied that he was correct and had his name added to our list.

If you want a sewing machine, bicycle, watch or clock repaired or organ or piano worked on call on G. H. McGuire, the jeweler, Dahlonega. Then if you want to buy a clock or your eye sight is failing you just let him know it and he will sell you one of the best clocks in town and fit up your eyes with a pair of glasses that will make you think that you are only sweet sixteen.

Grant Woody, the newly appointed post master at Quebec, Union county, passed through our town last Friday on his way to Gainesville with a load of chickens. Grant is the son of John Woody, once a citizen of Lumpkin county whose funeral will be preached at Zion church on the 4th Sunday of the present month by Revs. S. H. Waters, and Jonathan Gilreath.

Quite a lot of local matter is crowded out of this issue.

Seven guests arrived at Porter Springs last Tuesday being the first for the season.

Win. Worley, Jr., entered a plea for disorderly conduct Monday night but has not been fined yet.

Henry Sparks found his way into the calaboose last Tuesday night caused by being under the influence of liquor.

Last Monday our streets were alive with people from all parts of the country and a bigger day is not seen often in Dahlonega.

Col. J. W. H. Underwood, recently nominated for the Senate, was in Dahlonega this week shaking hands with his many friends.

Judge Kinsey passed upon the validity of the bonds to be issued by the council last Saturday and now the trustees are ready to proceed with the preparation of our city schools.

Mr. Richey, of Chattanooga, Tenn., who married the daughter of Mrs. Bird in Dahlonega some time ago, spent several days with relatives here this week in company with his wife.

We were glad to see the faces of many old students in Dahlonega this week. Some of them had not been here for years. They are always glad to come back and view the place of their boyhood days.

Last Tuesday afternoon City Marshal Davis was suspended by Mayor Price, charged with neglect of duty, and J. B. Anderson appointed to fill his place until the council meets next Monday evening.

Tuesday afternoon soon after the change in town marshals was made a fellow was heard to ask another man to take a drink. "No," says he, "if I got to drinking Jim Anderson will have me in the calaboose before night."

We got acquainted with G. W. Cochran, a prosperous farmer living near Randa, last Tuesday, who has the appearance of being a very clever man. He linked the ties of friendship with us by handing in a dollar for the NUGGET.

Some of the boys "spiked" Geo. Sissums lemonade with liquor last Tuesday night and it went like hot cakes. George didn't understand why it was going so fast until some of his customers became mellow and very rich.

Last Tuesday night a country visitor not having a bottle to put his liquor in carried it around in a jug. Men followed him about in large numbers like little boys after the bear man. This fellow could have led them off to Cuba with that jug very easily. This would be a very good way to secure volunteers for the army.

The champion debate at the college Tuesday night between the two societies attracted a good deal of interest and some bitter feeling among some of the students. While a crowd was rejoicing after the speaking, in which was Mr. Shultz, one of the speakers who won the prize, some one threw a bottle at the young man which struck him on the head cutting a small gash.

The announcement of M. G. Head who is a candidate for sheriff, appears in this issue. Mr. Head was born and raised in the county and his qualifications for office are too well known to the voters to receive any comment from us. He has a large number of relatives and friends that will use their utmost endeavors to elect him.

U. S. Deputy Marshal Grizzle and Ben Whitmore had a little hitch on the drill field last Tuesday about something Dennis should have said to his little boy. No bones were broken. Reeves Whitmore swore out a warrant for Dennis but afterwards made the ease up. It seems from what the prosecutor says that the trouble arose about another matter and not about the little boy. This he learned after the settlement had been made otherwise it would not have been settled.

A lot of new subscribers have been added to our list this week. Thanks.

The stamp mill at the Kentucky mine was started up again this week after being idle for some time.

Bob Howell, who had recovered sufficiently to walk about a little, had to take his bed again last week and is bad off.

A bright eyed little boy made his appearance at Frank McDonalds last Tuesday morning and his pa has named it Carter Tate.

A Sunday School was organized some time ago at Hightower church with J. S. Chester as Superintendent. The school is progressing.

Last Monday afternoon the interior of the NUGGET office was made bright by the beautiful and happy faces of six young ladies. Call again.

On Monday night Marion Chester and Jim Ash had a falling out about the election during which one drew his pistol and the other his knife but were separated and the trouble ended.

The first rattle snake that we have heard of in this section this season was killed by Hughes Anderson, last week up in Crumby's district. It was four feet long and as big as a lean man's neck.

Last Monday night Jack Townsend and his wife had a difficulty which resulted in Jack beating her over the head pretty severely and at the same striking her sister, Mrs. Martha Townsend several times.

Lawson and John Teal, two brothers, got into a row in the lower edge of the county last week when the father stepped up and knocked Lawson down which put a quietus to the racket in short order.

There will be another sensation soon if things don't change. Keep your eye on the NUGGET. It will make the announcement at the proper time. When you see a married woman that can't keep her eyes off of a woman lover the time of exposure is near at hand.

There has been a good deal of drinking this week by some of the large crowd that have been taking in the commencement exercises and the temperance society and the churches seem to have but little effect. This is a bad year for either to make much progress.

George Moore by mistake lost his vote last Monday. He had his ticket prepared and in his pocket which he thought he handed to the managers but when they counted out it was discovered that the voter had handed in a statement from Dinkins & Co. for some belting.

Ned Moose, the son of Virgil Moose, who went down to Atlanta recently for the purpose of enlisting in the army to fight the Spaniards, was told by an official after his examination that he was so bow legged that he would be unable to head them and they would all get away.

Bill Dotson was arrested Tuesday by Marshal Davis for cutting up Docia Becks bed and some other household goods and given a room in the lockup until he got sober. Then he was brought out and made to pay \$5 for his fun. Bill says that he lost Monday in going down to Steel's bridge, 14 or 15 miles after the liquor that caused him to get in the 'boose. Quite an expensive jug of liquor.

Some very valuable property changed hands last Tuesday at Sheriff's sales. The Besser House was bid off by Capt. E. W. Hall for \$1,120—the other house across the street was advertised but not sold. Col. J. W. H. Underwood got the Mayne property for \$100, and the property at Randa sold as that of New Satterfield was bid off by Col. Charters for \$140. And the property of Mrs. Amanda Murphy near the cemetery, sold at Commissioners sale brought \$50, Col. W. A. Charters being the bidder.

Commencement N. G. A. College.

Toward the close of last week the students put forth diligent efforts in the preparation of their declamations and recitations. They were given ample assistance by Prof. Stewart and Palmour and by Miss Stillwell. Mr. E. A. Lambert decided that as the professors were so busy he would prepare his own declamation. So he went down to the Baptist church Friday night and after going over his speech several times fell asleep. The next morning he was awakened by the crowing of a rooster nearby. Thus was passed one night in a holy place.

Saturday morning the literary societies met and after transacting all necessary business many of the members made very touching speeches and bade the societies adieu.

The committee that was to come from the legislature to inspect the affairs of the college failed to arrive from the fact that all of them have considerable interest in politics and could not leave home so near the time for the primary election.

Saturday night the real commencement exercises began with the "B" class prize declamations. Twelve students—six girls and six boys—entered this contest. All the speeches had been so thoroughly learned that they were delivered in an interesting and forcible manner. Great numbers of bouquets were sent up to the speakers as tokens of the speaker's merit. A committee of three judges presided to determine what boy and what girl should carry away the declamation prizes. After the declamations had all been delivered a number of the cadets in duck pants and sweaters went through with the setting up exercises. The exercises of the night were complete with the exception of music. The music committee made arrangements to secure the Fort McPherson Band but just before time for it to start to Dahlonega Uncle Sam said the band must go to Cuba.

Sunday a large crowd assembled in the chapel to hear the commencement sermon. A well organized choir furnished all the music necessary. Rev. J. W. Quillian, of Marietta, then arose and announced his text which is to be found in the 15th verse of the second chapter of Second Timothy. It reads as follows: "Study to show thyself approved unto God, a work that needeth not to be ashamed." The sermon was perfectly logical and very eloquent. It abounded in passages of grandeur from beginning to end and although it was upon an educational line each passage was beautifully linked to the rest by the divine thread. Under the three heads: "What are true conceptions?" "What constitutes success?" and "How may success be achieved?" the divine gave simple and sound advice as to what the young student should do before entering upon the duties of life. In speaking to the young men he said, "The reason so many young men fail in life they enter it without due preparation. They seem to think all the good positions will be taken up before they get there. One who is well prepared for life can do more in ten years than the unprepared man can in twenty years. Get ready for life and you will always find room at the top." His talk to the young ladies was mostly in reference to the wisdom they should exercise in marrying. He referred to the well known fact that many a girl refuses an honorable offer of marriage and takes a blank because he has, or seems to have, money or property, and when it is all too late she learns to her sorrow that she has little money, less property and still less character and manhood. He said, "Much of the distress of our land results from children's and maidens' placing themselves on the carpet for marriage before they are prepared for the duties of home and motherhood. Young ladies, go to school, com-

plete your education, go back home and spend a year or two under the careful instruction of your dear old mother. Then exercise the very best judgement in selecting your life companion. I have only one precious girl and I had rather give her over in marriage to a man who is prepared for life and has nothing but a good name and unblemished character than to give her to a millionaire without these attainments." The different thoughts presented in the sermon were "like apples of gold in pictures of silver."

Sunday night the Rev. Mr. Quillian preached another interesting sermon from Ephesians 6 chapter and 10 verse. He had no time to discuss modes of baptism or to argue whether "protestantism" or "falling from grace" was right but spent the time in pointing out the helpful gospel truths.

Monday morning the speakers "A" class—six girls and eight boys—entered the prize declamation contest. The speeches were all very good and were so nearly equal that several of the speakers could have had good hopes of winning the prize.

Monday evening the sham battle was fought. The artillery was stationed at the base of Findley ridge and attacked by the infantry. After about twenty minutes fighting the artillery squad was routed and the cannon captured by the infantry.

Monday night the Corona Society entertainment took place. More people went than the chapel would hold and it was so crowded as to be very unpleasant for those who did get room but in spite of this disadvantage the entertainment was enjoyed. A silent drill by the cadets closed the program of that night.

The Richardson Brothers' Band which arrived Sunday evening furnished music on the field and at the chapel. This band well serves the purpose of the Fort McPherson Band.

Tuesday morning the Freshman Class displayed its powers of oratory in the prize contest. All of the nine speeches were excellent.

At the meeting of the Alumni Association the orator, Mr. Palmour, was absent and only a very few members were present. Miss Lizzie Chapman was elected as the Alumni essayist for next year, with Mrs. Crusselle as alternate.

After the exercises were over Prof. Stewart made reference to Col. Lewis' portrait which now hangs upon the college walls. This picture was sent to the college by Mr. and Mrs. Crusselle, of Atlanta. Col. Lewis was the first president of the college and a noble man. At the mention of his name protracted cheers and shouts went up to the audience.

Tuesday evening the prize drill took place between "B" company and "A" company. The banner was given "A" company but the "victory" was the direct result of a "mistake" which the first Lieutenant of "B" company made. The different commands were written out on two sheets of paper and were supposed to be unknown to the Captains but the captain of "A" company folded up his paper and gave the commands, from memory.

The champion debate was held Tuesday night. Capt. J. L. Bell was president and D. C. Stow secretary. I. W. Waddell, Dr. C. H. Jones of Dahlonega and Mr. Ritchie of Chattanooga, Tenn. as judges. The subject "Resolved, That Hawaii should be annexed to the U. S." was debated on the affirmative by B. P. Gaillard and H. L. Peacock, Decora and on the negative by C. Shultz and L. N. Shahan, Phi Mu. The debate was superlative. Decision was rendered in favor of the negative.

Wednesday morning the Sophomore class went upon the stage in the declamation contest. The literary address was not delivered on account of Hon. F. C. Tate's failure to get here.

Wednesday evening a number of the former students of the college met and organized an "Old Students Association." Col. R. H.

Baker was elected president, Prof. E. B. Vickery, secretary and Mr. H. D. Gurley, treasurer. Besides the students that were present to advocate the cause many wrote letters and requested that they be enrolled as members.

After this meeting there was an inspection and review of the battalion of cadets. The companies then marched to the college and deposited their implements in the armory.

The "Blue List" was issued. It gives "the names of all the students receiving an average of 90 or more in the year in a department, also those not absent or tardy during the year." Thirty-eight students made 90 or above in some of the departments but only four—Miss Eva McKee, Lee Soseby, Paul Soseby and J. W. West—made 90 or above in all of the departments. Eleven students were not absent or tardy during the year.

Wednesday night the Junior orators took their places upon the stage. All three of them made excellent original speeches. The Senior exercises came next and Miss Hattie Rodgers, of Emanuel college, Ga., read a beautiful essay. She then delivered a very touching farewell address to all of her teachers, schoolmates and the people of Dahlonega.

Prof. Stewart then conferred the degree of Bachelor of Arts upon Miss Rogers and delivered her diploma. Miss Maggie Crissom delivered the diploma awarded Miss Rogers by the Corona Society.

Then came the delivery of medals and teachers' licenses. Those receiving the different medals are as follows:

Clark Mathematic medal—Miss Eya McKee of Dawson county.

Rice Latin medal—B. G. Parks of Hall county.

Tate Science medal—Miss Hattie Rogers of Emanuel county.

Gurley Essay medal—H. L. Peacock of Pulaski county.

Target medal—A. Byers of Hall county.

Company medal—"A" company.

Music medal—Miss Anna Palmour of Dawson county.

"B" Declamation Medal for girls—Miss Berta Castleberry of Dawson county.

"B" Declamation Medal for boys—N. W. Grant of Habersham county.

"A" Declamation Medal for girls Miss Ethel Harris of Lumpkin county.

"A" Declamation Medal for boys—L. O. Parker of Screven county.

Freshman Declamation Medal—Carl Shultz of Gordon county.

Sophomore Declamation Medal—H. L. Peacock.

The following list shows who received teachers' licenses and what grade they received. First Grade: J. R. Allen, Miss Amanda Cain, A. W. Cain, D. L. Cook, N. W. Grant, S. A. Harris, Miss Eva McKee, T. C. McKibben, Lee Soseby, Carl Shultz, J. D. Twitty and J. W. West.

Second grade: O. H. Hamrick, Miss Mattie Harris, V. R. Hicks, Miss Lula Higgins, Miss Mattie Higgins, W. G. Keith, E. A. Lambert, R. D. Love, W. L. Robinson, W. J. Shahan, R. E. Smith, D. S. Starr, J. C. Tate, J. H. Taylor, A. J. Wheelchel and T. R. White.

Third grade: Utah Anderson, Miss Cora Byers, J. F. Cagle, Joseph Smith, Nannie Smith, E. C. Townsend, Miss Anna Sutton.

After announcing that Mr. J. W. West had been elected by the faculty as general overseer of the dormitory, and that the new catalogues would be out the first of July the benediction was pronounced and after bidding each other good-by every body departed in peace.

Our friend John Wheelchel, of Anniston, Ala., came up to visit his relatives last week, accompanied by his sister, Mrs. Milton Smith. Mrs. Smith will be here several weeks but John has to return right away to resume his duties in assisting in the delivery of the mail in that enterprising city.

THE ODELL
TYPE WRITER.

will buy the ODELL TYPE
\$20 WRITER with 78 characters;
warranted to do as good work as any
machine made.

It combines simplicity with durability,
speed and ease of operation. Wears
longer without cost of repairs than any
other machine. Has no ink ribbon to
bother the operator. It is neat, sub-
stantial, nickel-plated, perfect, and
adapted to all kinds of type writing.
Like a printing press, it produces
sharp, clear, legible manuscripts. Two
or ten copies can be made at one writing.
Any intelligent person can become
an operator in two days.

Reliable agents and salesmen wanted.

New Spring
MILLINERY.

My elegant stock of
New and HANDSOME Spring
MILLINERY

is now ready and I invite my friends to call
and inspect it.

I have as usual the
Very Newest Styles

in every department and it is always my
aim to please my patrons. My prices are
very reasonable and as low as any. The ser-
vices of Miss Loden, a lady of many years
experience in the millinery business, who
has been secured again this season, who will
take great pleasure in waiting on you.

Very Respectfully,

MRS. E. W. STRICKLAND.

HACK LINE.

HAVING recently purchased
the entire daily hack line from
Dahlonega to Gainesville enables me
to be more prompt in carrying ex-
press packages and passengers, than
heretofore on fast time at same old
prices. None but safe and sober
drivers will be put in charge of the
mail and passengers. Prompt at-
tention given to all business entrusted
to my care.

may 13 JOHN HATHFIELD.

G. H. McGuire,
JEWELER,
Dahlonega, Ga.

Having permanently located in Dahlonega I am now ready to do all kinds
of work in my line at prices to suit the
times. Bring along your clocks,
watches and sewing machines. All
work guaranteed for twelve months.
Shop next door to A. F. Norton's old
stand. G. H. MCGUIRE.

Therapies of the Throat and Stomach.
No one need suffer with throat, throat
disease is quickly and permanently cured
by Brown's Iron Bitters. Every disease of
the blood, nerves and stomach, chronic
or otherwise, succumbs to Brown's Iron
Bitters. Known and used for nearly a
century of a century, it stands today fore-
most among our most valued remedies.
Brown's Iron Bitters is sold by all dealers.

Old Students' Association.

The following persons have been
students of the N. G. A. College
and were enrolled as members of
the "Old Students' Association"
which was organized on Wednes-
day of Commencement:

Col. R. H. Baker, Dahlonega.
Mrs. R. H. Baker, Dahlonega.
Miss Ida Gilbert, Georgetown.
H. D. Gurley, Dahlonega.
John Chapman, Dahlonega.
Miss Lizzie Chapman, Dahlonega.

Miss Maud Chapman, Dahlonega.

E. S. Copeland, Nelson.

Mrs. E. S. Copeland, Nelson.

Miss Mary Crawford, McKee.

Mrs. B. P. Gaillard, Dahlonega.

Miss Ida Gilbert, Georgetown.

H. D. Gurley, Dahlonega.

Mrs. H. D. Gurley, Dahlonega.

C. C. Head, Dahlonega.

Miss Mattie Huff, Half Way.

W. S. Huff, Dahlonega.

W. H. Jones, Dahlonega.

Miss Ethel Jones, Jay.

G. McGuire, Dahlonega.

Miss Bird Meaders, Dahlonega.

Clyde Meaders, Dahlonega.

F. M. Meaders, Dahlonega.

Miss Mattie Moore, Dahlonega.

John Palmour, Landrum.

Oscar Palmour, Dahlonega.

Miss May Reese, Dahlonega.

Miss Alice Roberts, Dahlonega.

Claud Simpson, Gainesville.

Miss Maud Simpson, Gainesville.

Dr. M. N. Stow, Mineral Bluff.

Miss Emily Thomas, Dahlonega.

Col. J. W. H. Underwood, Cleveland.

Prof. E. B. Vickery, Dahlonega.

Miss Lola Weaver, Dahlonega.

Miss Alice Wheelchel, Price.

Miss Louisa Wheelchel, Dahlonega.

Col. R. H. Baker, the president
of the "Old Students' Association",
is the first one that was enrolled as
a student of the N. G. A. College.

Few Words.

Captain Sigbee tells a story of
a man-of-war's man from the
Maine who was called before the
board of enquiry to testify
concerning his experience at the time
of the disaster. The old sea dog
was solemnly sworn and was then
questioned by Captain Sampson not
to indulge in any hasty state-
ments, but to continue himself ab-
solutely to what he saw and knew.
After these impressive prelimina-
ries Captain Sampson said: "Now,
tell us what you know of the ex-
plosion of the Maine." Jacky
hitched his quid of tobacco from
the left to the right cheek, hitched
his trousers and said: "I was
a-corking in me 'ammick and 'erd
a noise and waked up in the 'ospial
at. That's all I know about it,
sir."

Manufacturers estimate that
more than \$10,000,000 American
flags have been made and sold in
the United States in the past sixty
days. There is nothing particu-
larly bewildering in the above
statement, but as usual, some fool
has had to figure out that sup-
posing flags were an average length
of three feet, this would give a
total length of 5,682 miles of stars
and stripes if placed end to end,
which would reach across the con-
tinent from New York to San
Francisco and extend over to
Honolulu, with several miles to
spare; or if made into one big flag
it would cover an area of 14,363
square miles nearly one third of
the state of Ohio.

Don't Neglect Your Liver.

Liver troubles quickly result in serious
complications, and the man who neglects his
liver has little regard for health. A bottle
of Brown's Iron Bitters taken now and then
will keep the liver in perfect order. If the
disease has developed, Brown's Iron Bitters
will cure it permanently. Strength and
vitality will always follow its use.
Brown's Iron Bitters is sold by all dealers.

Do Not Want Married Men
in the War.

The qualifications of the recruits
as issued are as follows:

"War Department, Adjutant
General's Office. Washington,
June 3, 1898.—Volunteer Recruit-
ing Service. Qualifications for
Recruits: Applicants for enlist-
ment must be between the ages of
eighteen and forty-five years, of
good character and habits, able-
bodied, free from disease, and must
be able to speak the English lan-
guage.

"Married men will be enlisted
only upon the approval of a reg-
imental commander.

"Minors must not be enlisted
without the written consent of
father, only surviving parent, or
legally appointed guardian.

"Enlistments will be confined to
persons who are citizens of the
United States or who have made
legal declaration of their intention
to become citizens thereof.

"Applicants will be required to
satisfy the recruiting officer re-
garding age and character, and
be prepared to furnish the nec-
essary evidence. They must
defray their own expenses to the
place of enlistment; their fitness
for the military service can be de-
termined only upon examination
at a recruiting station.

"The term of service is two
years.

"For infantry and artillery the
height should not be less than five
feet four inches, and weight not
less than 120 pounds and not more
than 190 pounds.

"For cavalry the height should
be not less than five feet four inches
and not more than five feet ten
inches, and weight is prescribed
for cavalry, but the chest measures
must be satisfactory.

"Recruiting officers are, how-
ever, authorized in their discretion
to accept desirable applicants who
are ten pounds or less overweight
or underweight, or who vary not
more than a fraction of an inch
from the required height or chest
measures, if they meet all other
requirements. In every such case
the variation from the normal
standard should be carefully noted
on the enlistment paper. By order
of the secretary of war.

H. C. COBURN,
"Adjutant General."

The Georgia Supreme Court has
decided that when a sentence is
imposed upon a prisoner and sus-
pended by the judge, it cannot be
re-enforced. The case in point
was one in which the sentence in-
cluded imprisonment and fine and
costs, and the trial judge ordered
that the sentence be suspended and
the prisoner be discharged upon
the payment of fine and costs.
Some time afterwards the dis-
charged prisoner was indicted for a
repetition of the offence upon
which he had been formerly
convicted and sentenced, and the
judge ordered that the original
sentence of imprisonment be car-
ried out. The order was resisted,
and the Supreme Court has upheld
the resistance.

Nervous prostration is a term
commonly used to indicate a weak-
ened and debilitated state of the
nervous system and a vitiated condi-
tion of the blood. Its symptoms are
anxiety, nervousness, great irritability,
and incapacity for physical or men-
tal labor, and it is caused by errors
in diet or hygiene. Dr. J. H. Mc-
Lean's Strengthening Cordial and
Blood Purifier is recognized every-
where, even by the medical profes-
sion, as a superior remedy to coun-
teract weakness of this character.
Price 50c and \$1.00 a bottle at
Moore & McGuire.

All Hail the Immortal Eight.

History furnishes no more super-
b example of manly valor than that
displayed by Lieut. Hobson and
his seven associates who vol-
unteered to sink the collier Merri-
mac in the channel leading into the
harbor of Santiago. The immortal
six hundred who rode into the
valley of death at Balaklava, did
not face destruction with more
positive certainty than did the eight
American seamen who were willing
to sacrifice themselves for their
country at Santiago. The Spartan
band with Leonidas at Thermopylae
that has been talked of for ages by
the world's orators, and has been
the theme of poets throughout the
ages, displayed no greater fortitude
than the immortal Hobson and his
seven heroes, whose brave act will
be read of by millions. There is
nothing recorded in history
concerning Roman valor, a valor
that has stood as the highest
standard for twenty centuries, that
surpasses, if it equals that exhibited
by these eight Americans at Santi-
ago bay. It was an act that immor-
talizes the men who acted, and the
place where the heroic deed was
done. Cowardice is contagious and
so is courage. Thousands of men
in the American army and in
American navy are ready to emu-
late the illustrious example of Lieut.
Hobson and his seven men. An
army and navy inspired by such
examples of the loftiest courage of
which the human mind can conceive
is bound to be invincible. It is idle
to think for a moment of conquering
such an army. Let the world take
notice. All hail the immortal eight;
let their names be inscribed in
indelible characters on fame's
overlasting scroll! All hail the
republic whose wise government
produces such heroes!—Knoxville
Journal

White County Dots.

At the democratic primary the
following named gentlemen re-
ceived majorities as follows: For
Governor, Candler 475. For
congress, F. C. Tate 150. For sepa-
rate 32nd Senatorial district, J. W.
H. Underwood 112. For Representa-
tive White county, Mr. Fain 75.
There was some drinking but no
boisterousness. One John Turner
received a blow on the head from
a rock thrown by one Gibson. Too
much whiskey supposed to be the
cause.

Tuesday the 7th gold mining
property in White known as the
Calloway Co's was sold at public
outcry for \$12,250, pump, piping,

\$93, and was bid off by Mr. Jones.
Also land belonging to Georgia
Gold Mining Co. Was bid off by
Col. H. H. Perry at \$2,250.

GEORGIAN.

A persistent pain in the back is
indicative of disorder in the kidneys.
Diseases in these organs are so rapid
and deadly in their progress they
should not be neglected for a single
instant. Dr. J. H. McLean's Liver
and Kidney Balm has an established
reputation among medical men for
curing these diseases. It has in
many cases brought about relief and
cure after the attending physician
has exhausted his resources. Price
\$1.00 a bottle at Moore & McGuire.

Whether any particular day
shall bring you more happiness or
suffering is largely beyond your
power to determine. Whether
each day of your life shall give
happiness or suffering rests with
yourself.

An Uncertain Disease.

There is no disease more uncertain in its
onset than dyspepsia. Physicians say that
the symptoms of no two cases are alike. It
is therefore most difficult to make a correct
diagnosis. No matter how severe, or under
what disguise dyspepsia attacks you, Brown's
Iron Bitters will cure it. Invalids in all
diseases of the stomach, blood and nerves,
Brown's Iron Bitters is sold by all dealers.

The Bright Side.

In nearly all the accounts written
from the camps of the soldiers
for publication only the bright
side of camp life is presented.
Occasionally a glimpse of the other
side is given by some soldier,
but he is soon set upon by his
comrades and caused to keep quiet.
We know from experience that
when a regiment first goes into
camp there are many hardships
and disappointments to be en-
dured, and there is work and drill-
ing to be done, and the average
soldier has surrendered entirely
his independence of action and
will to his superiors, and is no
more his own man. Then there
is a lack of food often, and what
is received is often rough and un-
palatable. But the reason these
things are endured often without
murmurs on the part of the sol-
diers is because they do not wish
to render their people at home un-
easy about how they are faring in
camp. The young man who con-
templates volunteering should
know just what the conditions are
that confront him before he en-
lists. It is usually the novelty
of becoming a soldier, the desire
to witness new scenes and adven-
tures and experiences, more than
patriotism that causes young men
to enlist in the service. They are
totally blind to the privations and
hardships of camp life and the dan-
gers to which they may be ex-
posed both in camp and on battle
field. Knowing all these things,
if patriotism is sufficient to make
the sacrifice required, then the
volunteer will doubtless make a
model soldier. These things should
be fully understood before enlist-
ing, then there would not be so
great a disappointment when the
volunteer comes to experience
what a soldier's life is in reality.

In this connection we quote from
a letter written by R. B. Glenn a
few days ago to the Washington
Post.
"Although the war has been de-
clared over a month, a visit to
Camp Russell, where are encamp-
ed the Second regiment of North
Carolina volunteers, will make the
stoutest heart grow sick and the
most enthusiastic volunteers think
twice before joining. Most of the
boys are clad in the same old dirty
clothes which they had on when
they left home. Others are almost
without shoes on their feet, but
few have any uniforms, while only
one company when I was in camp
had arms, and they of very inferior
or make. A great many complain-
ing of their rations and one sent
out warning when he said to a friend:
'Tell the boys, Jim, they
had better stay away from here,
for if this is the way they treat us
in camp, what will be our fate
when we are on the march?'"

It is true that the brave soldier
submits to all the privations, toils
and hardships of camp life brave-
ly without complaint when he
knows that many of them are
available, and that the govern-
ment can not supply all needs
promptly, but the insolence, abuse
and oppression that often come
from superior officers whose posi-
tion and authority make fools of
them are almost unbearable. For-
tunately the number of these is not
very great, but one must take the
risk of them however.—Franklin
(N. C.) Press.

No humane person will expect a
horse to work against a sore shoul-
der, nor to rest quietly under galling
harness or saddle. When these
troubles appear the proper method
is to remove the cause of the sore
and apply Dr. J. H. McLean's Vol-
canic Oil Liniment. It is a superior
remedy for galls and sores, chafes
and burns on animal flesh. Price
25c and \$1.00 a bottle at Moore &
McGuire.

Social Gayeties.

To be entertaining
when one ought to be
asleep. To eat sweets
and salads with a
stomach craves the
simplest food or none
at all. To laugh
when one wants to
cry. All this and
much more
society de-
mands of her
followers.
What's
strain
on the
nerves
of deli-
cate
wo-
men!

Bradfield's Female Regulator.

is the standard remedy for the weaknesses
and irregularities peculiar to women.
Bradfield's Regulator is not a mysterious
mixture of mythical origin, but a stand-
ard and remedy compounded in accordance
with scientific principles from approved
vegetable medical materials. Bradfield's
Regulator is endorsed by physicians who
have examined it, and has been in suc-
cessful use over a quarter of a century.
It is sold by druggists at one dollar a bottle.
"Perfect Health for Women" mailed
free upon application.

THE ATLANTA (GA.) JOURNAL

Daily and Weekly.

Daily \$5 a Year—Weekly 50 Cents

a Year.

The Weekly Journal is a large paper, con-
taining ten pages of seven columns each.
It is filled with the LATEST NEWS, or
the day, both domestic and foreign. Owing
to its own leased telegraphic wires, which
are used for no other purpose but to bring
the latest news to its Atlanta office, the
Journal is prepared to get all the news up to
the latest moment.

In addition to the news, it contains more
special features than any other southern
weekly. Among other things it has a weekly
letter or sermon from Rev. Sam. Jones, a
contribution from Hon. John Temple
Graves, letters of travel, biographies of dis-
tinguished men, and many other attractive
features.

The Weekly Journal is beautifully illus-
trated by its own artist. In fact neither
energy nor money is spared to make it the
GREAT SOUTHERN WEEKLY.

Rich Mineral Lands

For Sale.

Situated in the heart of the mineral belt

close to the celebrated Lead property in

White county, containing 450 acres, pros-
pected with tunnels and shafts. Are yield-
ing from four to fifteen dwts. per ton, veins
averaging from 6 to 28 inches thick. Creek
running through 500 acres sufficient water
to run all machinery for crushing ore on
said property. Also mineral lots in Lump-
kin county No. 610, 601, 612,
220 and 100, containing 40 acres, more or
less. Those wishing to examine any of
said property with the view of purchasing
should address,
W. H. McLean,
Dahlonega, Ga.

An Old Idea.

Every day strengthens the belief of em-
inent physicians that impure blood is the
cause of the majority of our diseases.
Twenty-five years ago this theory was used
as a basis for the formula of Brown's Iron
Bitters. The many remarkable cures effected
by this famous remedy are ample evidence
sufficient to prove that the theory is correct.
Brown's Iron Bitters is sold by all dealers.

THE NUGGET.

DAHLONEGA, GA., JUNE 17, 1898.

Entered at the Postoffice at Dahlonega, Ga. P. O. as Second Class Matter.

In Fannin county Atkinson got one vote and Berner two.

There were 1245 votes polled in Hall county for Congress and Thompson got a majority of 639.

Seven cases of yellow fever were reported at McHenry, Miss., by the state board of health on the 9th inst.

The Congressional convention convenes in Gainesville 28th inst., and the gubernatorial in Atlanta on the 29th inst.

Congressman Tate has returned to Congress and the growers will have to hunt up something else to grumble about now.

The board of education of Hall county met last week and re-adopted the text books that have been used in that county for many years.

Marcus H. Woodward, one of the best known young men in Atlanta, committed suicide last week by sending a bullet through his brains. Caused by strong drink and ill health.

It is believed now that the populists of White county will nominate Mr. W. H. Courtney as their standard bearer for state senator, then the fun will begin in earnest and the campaign will be one full of interest.

The Gainesville Georgia Cracker devours its crow pretty well after such a defeat in the Congressional election but Bro. Craig of the Eagle takes it with a grin and remarks that he will patch up and support Mr. Tate, the nominee.

Col. J. W. H. Underwood, the democratic nominee for Senator, spent several days in Dahlonega last week meeting his friends. The Colonel went to college here 25 years ago and is well known in this county and will be hard to beat.

The republican executive committee has been named by Walter Johnson, one of which is Col. H. P. Farrow, of Gainesville, which committee is empowered to fuse with the populists, put out a ticket in opposition to the democrats or let the election go by default, as it sees fit.

Senator Clay demands an investigation of charges against Methodist book concern. He declares that the church people have been deceived. Mrs. Felton's expose of the matter has made a national issue. The lady claims that Major Stahlman received nearly, if not quite \$100,000 for lobbying the bill which was supplemented by highly corroborative evidence.

There are three already announced candidates for the legislature in Lumpkin county—two democrats and one republican—and one or two other democrats spoken of which leaves the democratic party of the county in bad shape and with little hopes of success unless a change takes place. If all the other democrats continue in the field the republican will be elected. And if the democrats have a primary and debar all voters from casting their ballots except men of their faith and order the populists are apt to get mad and vote for the republican.

The last legislature passed a law making it a misdemeanor for the Justices of the Peace to settle state cases. The next body should do likewise with the judges and solicitors. There are too many cases not pressed and the law made a mawk of. The judges will give the grand jury the law and charge them to find bills against violators of the same and when the bills are returned by the body, sometimes at a very heavy expense to the county, the judges will allow them settled by the payment of costs and the county is the loser while the solicitor and officers of court are the only ones benefitted.

Brief War Notes Taken From Each Paper Daily.

FRIDAY.

Caimanera has not been taken yet but three of our vessels out the cable there but no attempt was made to take the town.

Shafter's expedition went to Santiago regardless of rumors of Spanish vessels. The campaign at Porto Rico will be pushed as soon as Santiago is disposed of.

SATURDAY.

Sixty-five sick soldiers were brought from Tampa on the 10th inst., to be placed in the hospital in Atlanta. The number of patients at the hospital exceed 100.

Many delicacies are being sent to the volunteers from Gainesville and other places.

Yesterday at Caimanera the first landing in force by Americans was made on Cuban soil, when 600 marines from the transport Panther came ashore and took possession. The landing was made without its being necessary to fire a single shot, despite the Spanish boasts that they would defend Caimanera to the last gasp.

SUNDAY.

It is asserted at Madrid that the yellow fever is killing Sampson's men.

The government of Spain declares that it has no intention of suing for peace.

About 9 o'clock this morning while First Lieutenant William W. Hart, an engineer officer in charge of the work of placing the mines at the mouth of the St. Johns river, was detaching a letter in the mining room office, J. J. O'Rourke, employed as expert electrician, unaccountably connected a battery wire with the firing plug instead of the testing plug, causing a terrific explosion. O'Rourke was killed instantly, and his assistant, Houston, literally torn to pieces. Lieut. Hars was struck in the back and head with pieces of a torpedo and injured severely. Burham, the stenographer, and a colored man, name not learned, were wounded painfully.

MONDAY.

The first division of the army of invasion left Key West last night for Santiago under the command of Gen. Shafter, conveyed by sixteen warships.

The French cable at Guantanamo is to be repaired and connection established with Washington. The Americans hold the harbor.

Bar rooms and gambling dens are run at Chickamauga in defiance of the laws of Georgia, and, as a result, a soldier was shot and a saloon was wrecked by his com rades.

Huntington's marines at Guantanamo engaged the Spanish infantry for thirteen hours losing four killed and one wounded. The American picket line is missing, including two lieutenants. The enemy's loss is unknown. The bodies of the American slain were horribly mutilated with machetes, after being stripped of clothes and accoutrements.

Blanco is short of army supplies and the Spanish government is rushing orders to supply him.

TUESDAY.

The attack on the marines at Guantanamo was fierce, but the Spaniards were repulsed. Americans have moved their camp and are now under protection of the gunboats.

The Spanish premier's secretary says Spain will accept any peace proposal not made by America.

The president has signed the war revenue measure and it becomes a law, and Secretary Gage calls for bids for \$200,000,000 of 3 per cent.

WEDNESDAY.

Sampson's men are disheartened on account of the tardiness of the arrival of troops. A second land engagement has occurred with no loss to Americans but 15 or more Spaniards. The enemy out numbered our men and fight hard. Insurgents joined Americans but are poor fighters. Our troops are under constant fire from the enemy and would have to retreat were it not for the assistance of the American fleet. Santiago Cuba's batteries have been bombarded again.

THURSDAY.

The little band of Americans are now safe at Guantanamo as the Cuban forces have come to the relief of the marines. With a clever Americans rush and 40 Spaniards bite elust. The Spaniards retreated.

At Camp McCalla, the Americans capture eighteen prisoners.

Two Run Jottings.

The farmers of Hightower are very irregular with their crops. Some are ready to begin laying bye while others have just finished planting. Mr. Sain just had a working the other day and finished clearing up his ground and we suppose he is about done planting by this time. Crops on an average are very good.

The writer has recently had the high privilege of dining with some of the most prosperous and hospitable farmers of Hightower district and the good things they set before us made us wish that we could linger there throughout the summer. They would have vegetable more abundant if it were not for the dry weather.

Mr. Harrison Satterfield of that district has recently become the father of a son which he says is the only Dewey on American soil as the other Dewey is at sea. Mr. Asbury McDougald, also of Hightower district and a neighbor of Mr. Satterfield, was made happy last Saturday on the arrival of a girl at his house. We suppose there would have been two Deweys in Lumpkin county had it been a boy. His grandfather says that he supposes its name will be Queen Victoria.

Call For a Mass Meeting.

In pursuance of a resolution of the Democratic Executive Committee of Lumpkin county a mass meeting of the Democratic party of the county is hereby called to convene at the court house in Dahlonega on the 23rd day of June at 11 o'clock a. m.

Said mass meeting is called for the purpose of providing for the selection of delegates to the judicial convention held in Atlanta to select candidates for Supreme Court Judges. Said mass meeting will also select a new executive committee for the county, and will transact such other business as may come before the meeting.

JOSEPH ALLEN,
Chm'n.

Did You Take Scott's Emulsion

through the winter? If so, we are sure it quieted your cough, healed the rawness in your throat, increased your weight, gave you more color, and made you feel better in every way. But perhaps your cough has come back again, or you are getting a little thin and pale.

Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold.

Its persistent use will certainly give you a better appetite and a stronger digestion.

It will cure your weak throat and heal your inflamed lungs. It will cure every case of consumption, when a cure is possible.

Don't be persuaded to take something they say is just as good.

All Druggists, etc., and
Scott's & Bowne's, Chemists, N. Y.

Rich Mineral Lands For Sale.

Situated in the heart of the mineral belt close to the celebrated Lead property in White county, consisting of 750 acres, (one of which is 18 inches thick). Are yielding from four to fifteen cents per ton, veins averaging from 6 to 18 inches thick. Great running through 500 acres sufficient water to run all machinery for crushing ore and smelting. Also mineral lots in Lumpkin county Nos. 100, 651, 812, 1212 and 1213, containing 10 acres, more or less. Those wishing to examine any of said property with the view of purchasing should address, W. H. McGehee, Dahlonega, Ga.

It seems to be a very hard matter in Dahlonega for the council to "unseat" a marshal when there are charges of too much drinking or anything unbecoming an officer brought against him. If the voters would always select a town council that would not use any liquor themselves and each and every member in favor of keeping the tenth commandment, then when their marshal is charged with drinking or carrying messages of love from a married man to a woman no embarrassment would be felt by any of them casting the first stone at him.

Last week after the commencement exercises closed and the most of the instructors of the college were out fishing and hunting Prof. Gaillard made a trip over to the Big Joe Mine in company with Mr. J. F. Moore, one of the owners of this valuable property. The Professor was very much pleased with the trip who informed us that he saw much valuable ore. They brought back a surface rock about the size of a saucer speckled all over with the precious metal and said that they left much more in sight just as good.

The friends of the N. G. A. College will be glad to learn that Dr. Boggs, Chancellor of the State University has resigned, for he paid no more attention to our college than if it had no connection with the University whatever. We like to see parties who neglect their duties step down and out or be thrown over-board. Prof. James B. Hummick has been dropped by the trustees.

The miners will all find it to their interest to thoroughly clean their gold before putting it on the market. A merchant one day this week informed us that his firm had just been allowed 83 1-2 cents for a lot of gold that been shipped being less than they paid for it. He said the merchants would have to quit buying it if the gold diggers didn't take to cleaning it better.

Uncle John A. Berry died in Nimbrell district yesterday aged 82.

Robt. Howell is very sick and is not apt to live long unless a change takes place.

Mrs. James Sutton, of Pleasant Retreat, is down on a visit.

Several mining inspectors have been in Dahlonega this week.

A NEW TRIUMPH.

The Dreaded Consumption Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist. Will Send to Sufferers, Free of Charge, Copies of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be finer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Slocum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest disease, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away; and to make its great merits known, will send three free bottles of his newly discovered remedies to any afflicted reader of the NUGGET.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it not only his professional, but his religious duty—a duty to which he owes to suffering humanity—to donate his infallible cure.

He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has on file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world.

Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Slocum, M. C., 98 Pine Street, New York, giving express and postoffice address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the NUGGET. Jan. 28.

Death of a Former Resident of Dahlonega.

News has just reached Col. W. P. Price of the death of his sister, Mrs. Mary P. Keller, who died in Marion, Iowa, on Sunday June 5th, from the effects of a stroke of paralysis. Mrs. Keller was born in Gainesville, Ga., in 1829, and moved to Dahlonega when she was a small child. She married Mr. A. Jackson Keller in 1848 and moved with him to Iowa in 1856 where, with six children she resided for more than 40 years. When a young woman she united with the Baptist church in Dahlonega in which faith she remained throughout until her death.

In a letter to Col. Price his niece wrote: "Her trust was in God, and she was ready to go. Never a murmur against her suffering. She often spoke of her home in Georgia and you all. She was conscious until the last day, and then seemed like she was with her mother and talking with her."

NOTICE TO TEACHERS.

The Teachers Institute for Lumpkin county will be held in Dahlonega, Ga., commencing on June 27th inst. The law requires all teachers holding license, who have not permanently retired from teaching, to attend said Institute. Teachers will govern themselves accordingly.

J. J. SEABOLT, C. S. C.
June 15, 1898.

ANNOUNCEMENTS.

FOR COUNTY SURVEYOR.
I hereby announce myself a candidate for the office of Surveyor of Lumpkin county and will appreciate any assistance which the voters will give me in the coming October election.
A. W. CARL.

FOR THE LEGISLATURE.
We are authorized to announce the name of J. V. Harbison as a candidate to represent Lumpkin county in the House of the next legislature.

To the voters of Lumpkin county:
Having been solicited by many friends, I hereby announce myself a candidate for the legislature, and if elected promise the people to make them a faithful and efficient member, asking the support of the voters.
S. M. GRIZZLE.

I respectfully announce myself a candidate to represent Lumpkin county in the next legislature of this state and will appreciate the votes of my friends and if elected will do all I can for the county's best interests.
I am respectfully,
F. M. WILLIAMS.

FOR CLERK.

I respectfully announce myself as a candidate for clerk of the superior court of Lumpkin county and ask the support of all voters regardless of their race or politics and promise if elected to serve them to the best of my ability.
G. C. WALLACE.

FOR TAX RECEIVER.

We are authorized to announce the name of J. A. Anderson for tax Receiver of Lumpkin county at the ensuing election in October.

FOR SHERIFF.

To the voters of Lumpkin: I announce myself as a candidate for Sheriff of Lumpkin county and respectfully ask the voters to give me their support. If elected I will faithfully perform the duties of such office to the best of my ability.
Respectfully,
J. M. DAVIS.

To the Voters of Lumpkin County:
At the solicitation of many friends throughout the county I have desired to make the race for Sheriff and respectfully solicit the support of all the voters.
Respectfully,
M. G. HEND.

FOR COUNTY TREASURER.

To the voters of Lumpkin county: I take this method of announcing my candidacy for re-election to the office of county treasurer and hope to receive a hearty support from you. Thanking you for past favors and hoping for a continuance of the same, I am yours respectfully,
E. F. JACKSON.

FOR TAX COLLECTOR.

To the voters of Lumpkin County. I announce myself as a candidate for re-election to the office of tax collector. Thanking you for past favors and hoping my efforts to serve you for the past year will meet your approval, and if so I feel sure I will have your support in the coming election.
Yours Truly,
J. F. SARGENT.

We are requested to announce the name of George W. Walker Jr., as a candidate for tax collector of Lumpkin county who promises to discharge the duties of such office to the best of his ability and to the satisfaction of all if elected.

SUMMER GOODS

CHEAP as the CHEAPEST at

MOORE & McGUIRES

THE Commissary,

Public Square, Thomas House.

—DEALER IN—
General Merchandise.
Mining Supplies
A Specialty.

Cash Paid for Country Produce,
may 28 C. W. SATTERFIELD, Gen. Man.

THE NUGGET.

DAHLONEGA, GA., JUNE 17, 1892.

Miss Croffie Stow is visiting her brother, Dr. Stow, at Mineral Bluff.

Miss Bird Meaders, who has been teaching at Worth, Ga., is at home to spend the summer.

S. M. Whorton and Mr. Teasdale are on a visit to the Franklin mine in Cherokee county this week.

John Adams, of Martin's Ford district, was bound over by Com. Baker last Monday for working in an illicit distillery, being one of the number that was interested in the settlement still over there about seven of which have already been bound over.

The town council has all the ordinances on record according to law now and are ready for business. Hereafter all the property taxes will be paid over to the town treasurer and not to the marshal as has always been the custom here since the incorporation of the town.

C. Will Fisher, the photographer from Demorest, who makes an annual visit to Dahlonega during the summer, left for his home last Tuesday accompanied by one of his daughters, who assists him in his business. He is a gentleman who makes many friends wherever he goes. We always love to see him come.

We are reliably informed that a man who some times occupies the pulpit, residing in the upper portion of the county, went to a certain place of worship some nights ago with a load of bottles filled with liquor, which he sold out to the boys before services commenced. When he got through he went and preached and after concluding hunted up the empty bottles where he had hid them and left for home. Of course he had a good sized congregation and always will on such occasions.

If all reports are true the childrens meeting up at Cleveland last Sunday by the colored people was more like an old time corn shucking than a religious gathering. Most of those that went from Dahlonega got mixed up with White county liquor that caused them to say and do things that may receive the attention of the next grand jury of that county. It is stated that Will Stephens and Alyenia Coffee got to jowling near the church and exposed their weapons while another party from Dahlonega partially disrobed himself. Members of the church and all drank alike and were all about 41 o'clock, that night getting in to town. Ed. Austin was about the only one that came back sober after night. His mouth was so big that they could find no vessel to fit it and he had to do without.

Last Monday night the council met for the purpose of investigating the charges that had been made against Marshal Davis who had been suspended during last week by Mayor Price. Councilman Wallace was absent in Gainesville which left the unpleasant duty to be performed by the Mayor and the other councilmen. After some testimony had been produced to endeavor to show that the marshal had failed to perform certain duties during commencement, the balloting commenced by the three councilmen, which resulted as follows: Harbison to dismiss him, Williams to retain him and Strickland voted to retain him until the first of July, giving him a chance to collect fines already imposed, in other words to give Mr. Davis \$15 more to collect fines which he had already been paid to do months ago, one being unpaid ever since the first of January. Several ballots were taken with the same result, then after some time Harbison voted with the next and the hedge was placed on Marshal Davis with a ceremony we suppose like the laying of a corner stone to some public building and told to wear it until the first of July. When Mr. Davis' resignation takes effect.

Read the NUGGET if you want to keep posted.

Miss Sallie Gaillard has been on the sick list for several days.

The NUGGET is not only read by home people but makes its weekly visits to Central America.

Mayor Price's Court last Saturday caused everything to be more quiet the following night.

From all parts of the county comes the joyful tidings that the wheat crop was never better.

The long protracted dry spell was broken last Sunday afternoon by a refreshing shower to the delight of all.

J. E. Howell and Miss Alice Keys were wedded last Friday evening by Rev. J. M. Forest. We extend to them our best wishes.

J. T. Richey left for his home in Chattanooga Tuesday morning last. Mrs. Richey will remain some time in Dahlonega the guest of her mother, Mrs. Lizzie Bird.

There were nine visitors at Porter Springs up to last Saturday. They have commenced arriving quite early this season and a large crowd is expected before the summer ends. A number of others have arrived this week.

Mr. B. R. Meaders, of Dahlonega, says that he has an idea of rebuilding his merchant mill in Hall county which was destroyed by fire by some enemies of his partner some months ago.

All who attended meeting last Sunday at Macedonia church a few miles above Dahlonega, enjoyed themselves. There was not a drop of liquor "on the hill" and no disturbance whatever.

Judge Tate informs us that he has already found that as many as eight companies of soldiers went from Lumpkin county to the late war, representatives of which are still alive and reside in the county.

A little ten months-old child of Wm. McDonald, residing in Shoal Creek district, died very suddenly last Sunday. It had been puny for some time but was not considered dangerously ill and of course its death was a surprise to the family and all the neighbors.

Mr. W. P. Brown, traveling salesman and advertising agent of Chamberlain Medicine Co., Des Moines, Iowa, gave us a pleasant call Wednesday morning last and made a contract for the advertisement of this well known medicine which has such a wide spread reputation throughout the land as being an excellent medicine, to appear in the NUGGET.

We understand that A. L. Wimpy and J. W. Hutchinson have failed to take up their commissions as members of the board of education and the time allowed by law for them to be taken up has already expired. Now the law requires the ordinary to return their commissions to the governor and at the same time to notify the County School Commissioners of said vacancies whose duty it is to appoint men to fill their places until court convenes. The law requires that the board meet on the first Tuesday in June. This it didn't do, which shows the interest that is being taken in the matter.

We frequently receive letters from a distance from parties desiring the NUGGET saying that they will send the money later on. We will state that if you wish to read this paper you had better send the money with the order. When we first commenced business we did this for a dozen or more parties who we considered good men, as some of them sit on the Amen seats and two of them frequently occupy the pulpit, but their subscriptions have long since expired and we have received nothing but promises. This is the reason that we do not know who to trust provided we were able. Men that do this cannot get to heaven and owe the printer. If these parties do not pay as soon we will publish their names so as to show the people who are debarred from entering heaven for false statements made to the printer.

Miss Estelle Harris is with kinpeople down in Dawson county.

Miss Ethel Harris is on a visit to relatives down in Jackson county.

Miss Maggie Crisson went home last week with Miss Eva McKee of Dawson county.

Miss Maud Fincher, of Atlanta, has been spending some weeks in Dahlonega with her friend Miss Maud McGuire.

Miss Mattie Story, of Jefferson, is again spending the summer in Dahlonega, stopping with her relative, Mrs. Lina Boyd.

Col. G. G. Lilly left for Atlanta last Sunday where he went to look after some three or four cases he and his partner have in the Supreme court—one from this county and the other from White. After reaching Gainesville he found it unnecessary to go farther.

John Wheelchel after spending a few days with his parents here, returned to Anniston on last Saturday. He handed us a dollar to keep him posted all about his Dahlonega home.

By reading notice on the first page of this issue you will observe that married men are not wanted in the army. This will be a great relief to some and they will stand about as good a chance to draw a pension as those that go to the front.

Our old friend R. C. Wood, after being here for some weeks, left for Leroy, Kan., last Monday. The clever old gentleman doesn't drink coffee, chew tobacco nor drink liquor but is a weekly reader of the NUGGET and he can't help from being happy.

Mrs. John Forest, residing across the Findley Ridge was badly injured by a fall last Friday afternoon. While passing through the yard at her residence she stepped on a rolling rock which threw the lady, causing her to burst the knee cap of the already stiff joint at the same time breaking one of her wrists.

Prof. Stewart, Dr. Cartledge, B. R. Meaders and a number of others went up to the Garnet mine fishing last Friday night. Mr. Meaders hadn't been off engaged in that kind of sport in ten years and it will probably be longer than that before he goes again as he only hooked one fish on this occasion and it found its way back into the water.

If you want a sewing machine, bicycle, watch or clock repaired or organ or piano worked on call on G. H. McGuire, the jeweler, Dahlonega. Then if you want to buy a clock or your eye sight is failing you just let him know it and he will sell you one of the best clocks in town and fit up your eyes with a pair of glasses that will make you think that you are only sweet sixteen.

Under the proper heading you will find the announcement of A. W. Cain for the office of County Surveyor, who is at this time filling the office under an appointment of the ordinary. Mr. Cain was born and raised in Lumpkin county and his business qualifications are well known to all. He is a rising young man that has made himself and we doubt very much whether he has any opponent, for the people love to support and encourage a young man that has always been on the right track to the topmost round of the ladder.

Last Sunday soon after the first bell of the Sunday School rung a wedding was performed near Besser Springs by Esq. Al Jen. The contracting parties were Miss May, daughter of J. H. Worley and Marion Brookshire. The parents of the lady were opposed to the wedding and she stole a "march on them" by getting her books and starting to Sunday School as usual. But when she reached the church she did not stop but fastened on and the next heard of she was wedded to the young man who she had learned to love. May theirs be a long, happy and prosperous life, as we wish all young people that subscribe for the NUGGET the next day after they marry.

Miss Ida May Gilbert, of Georgetown, Ga., is visiting Miss Alice Roberts.

C. M. Moore has just completed burning a fine lot of brick and is now putting up another kiln.

Miss Gussie Groves, of Marietta, after spending several days in Dahlonega, returned home on yesterday.

Rev. Mr. Cooper has been absent from Dahlonega for several days assisting in carrying on a protracted meeting at Demorest but returned Wednesday.

For the past few days Col. Price's health has been improving rapidly permitting him to come up to town and attend to business.

It will be observed by looking at the railroad schedule that the mail is due 26 minutes earlier from Gainesville now than last week.

Prof. Witherspoon and Dr. Waddell left out for the creek at sunrise Tuesday morning and returned later on with a nice string of the finny tribe.

Mr. Flournoy, who worked in the Signal office, four years ago is here and will remain over for a few days. He is a printer, a painter and a jolly good-fellow.

Since the war department has decided to take no married men there will be more marriages and less divorces in Lumpkin county as well as elsewhere.

Dr. Cartledge returned to Atlanta yesterday after spending a week with his relatives here. He had his name enrolled on the NUGGETS subscription list and will know what is going on here during his absence.

Charlie Harris, who was up from Jefferson last week on a few days trip returned Friday after subscribing for the NUGGET like nearly every one else who likes to read the happenings of our town and county.

Charlie Findley, of Gainesville who started to the war recently and backed out after he got to Atlanta, has been up several days on a fishing expedition. There is more pleasure in this kind of sport than killing Spaniards.

The colored people enjoyed another supper at their Methodist Church last Friday night. It looks very much like the minister over there intends to turn the house of worship into a dining room. Anything for money.

Luther Hightower and wife of Cleveland, spent a day or two with relatives here this week. Luther did like most of the young men who select a wife and start out in life, subscribed for the NUGGET which wishes him a happy and prosperous journey.

Mr. Wm. Coistein, wife and father, of Savannah, arrived in town last week and are stopping at the private residence of M. E. Wheelchel, where they expect to spend a portion of the summer. The old gentleman is 77 years of age but is very stout considering the many summers he has seen.

Will Ash of Yahoola, was down Monday and increased our already large subscription list at that office. The NUGGET is the second paper ever subscribed for. All good farmers not already subscribers should follow the example of Mr. Ash and spend the rest of their days in pleasure and happiness.

Jas. Sutton, one of the most enterprising citizens of White county, was down this week. Mr. Sutton, besides making hog and hominy has a saw mill of the latest improved machinery which enables him to turn out all kinds of lumber either dressed, undressed, matched or unmatched at prices to suit the times. Give him an order.

James B. Witt, who has been doing business for the Hirschberg Paper Co. in Atlanta for a number of years, is moving back to Dahlonega. Mrs. Witt is already here and Jim will be on hand in about a couple of weeks. He accepts a position in the Hall Mose Co's store as book-keeper. The many friends of Mr. Witt and his wife welcome them back to Dahlonega.

Tax Receiver Grizzle closed his books here last Monday.

Col. J. H. Moore, wife, and daughter have returned from Canton.

Miss Fannie Gaillard is out of the city on a visit to Mrs. Turner Quillian at Land, Ga.

Prof. Vickery and family leave for Hartwell today where they will spend some time with relatives.

Frank West, son of the Rev. J. W. West, died in Chastaco district last Tuesday of typhoid fever.

Dr. Wheelchel has a little summer visitor down at his house. It's a girl and made its appearance last Tuesday.

Prof. O. Palmour, of the N. G. A. College, is now in Gainesville where he will spend a portion of the vacation.

Teachers Institute for Lumpkin county convenes on the 27th inst. See official notice elsewhere from the County School Commissioner.

Miss Delia, a sister of H. C. Chatten, of Davis' district, died last Tuesday evening at the residence of "Bud" Odum a few miles west of Dahlonega.

It has cost the town \$125 up to the first of June to get the street lamps lit, the tax on ten dogs collected and have a new tin cup placed at one of the public pumps. Now how much will it cost the tax payer to educate his children at the proposed graded school in Dahlonega?

Mrs. Pacia Wehnt died out in the western portion of the county last Wednesday aged 70 years. Rev. J. E. Blackburn performed the funeral services. The good old lady died in the faith and said awhile before she died that she was going to meet her husband and children in heaven.

The town property adjoining the Methodist Church belonging to the Presbyterians, has been contracted to the Methodist church for the sum of \$250, but if its officials are willing Wm. Price, Jr., will purchase it and build a residence on the same. Then the church will give \$100 for the Gurley lot in the rear of the church and build a parsonage. Then the old parsonage will be sold to Mr. McGuire.

James Edmonson who resides down about the Briar Patch was in town the other day with his face all bruised up like it had been fastened in an old fashioned cane mill. It seems that Jim got drunk one day or night last week and undertook to whip his wife. The wifes little brother and mother joined in and they came near beating him to death before he could escape. The little boy floored him with a flint so that the women could work on his head while he scoured a bar of iron and went to work on him like digging post holes. After the battle was over Jim collected together like a joint snake and moved away from the enemy.

The editor of the Dahlonega District Messenger, who is the presiding elder of this district, refers in his last issue to what we said some time ago about Mr. Butler stating while preaching here, that if he knew that his wife was down sick at home he would not travel on Sunday to go to see her but would ask the Lord to spare her life until he could get there the next day. The editor does not mention our name nor paper but shoots at random like he does sometimes when in the pulpit, but says that he will have more to say in the future. We trust he will and hope that he will mention names next time. This remark of Mr. Butler disgusted the devil and his speaking of asking the Lord to change his program so as to suit his convenience is ridiculous. Such remarks as this kills all the good things a preacher may say, and if a person has to believe this kind of doctrine in order to get to heaven but few will reach that beautiful shore and the golden harp that is said to be fitted up for the benefit of the good people who may reach that place will be a useless piece of furniture.

Mayor's Court.

Last Saturday was Mayors Court and Col. Price came up looking bright and fresh who found quite a number of cases on the docket against those that had been taking in the commencement which he disposed of in a city like manner. We understand that Mayor Price will not allow defendants to step behind the door hereafter and enter a plea of guilty and save being exposed, as has been frequently done heretofore, but will require all—high or low rich or poor—to come into the court room and have their cases investigated. This is a move in the right direction and will meet the hearty approval of all law abiding citizens. It will put a stop to a good deal of the "fanny conduct" that has been carried on within the corporate limits for some time. If the example was followed by Judge Kinsey in the Superior Court it would put an end to much bad conduct and less on the expenses of the county and be much better for all defendants in the end.

The following are the names of the parties that were caused to appear before the mayor and their cases disposed of as follows:

Wm. Worley, two cases for disorderly conduct at the college and elsewhere. Fined \$2.50 in each case and cost.

Dennis Grizzle and Ben Whitmire, fighting. Fined each two dollars and cost.

L. Cayender and Will Douglas, too much vocal music at a late hour on the streets without having any tunes to their songs. \$1 each and cost.

Piercan Edmonson, for having gotten in a condition that rendered him unable to sing in any manner. \$1 and cost.

Mrs. Marthe Townsend, disorderly conduct. Dismissed on account of not having sufficient proof to convict.

Henry Sparks had been taking on too much overjoyful and was required to deposit \$2 and trappings.

This wound up the business for the time being. Several other parties that danced will have to help pay the fiddler when they make their appearance in town again.

Jack Townsend had a case booked against him charged with whipping his wife. It's said that he came across his wife beyond Crane's Hill Monday night during commencement with a lot of gentlemen escorts, and while endeavoring to get her home received some black jaw from the woman which caused him to strike her a few heavy blows, causing the crowd to disperse and the matter to close for the evening. The defendant appeared in town Saturday for the purpose of entering a plea of guilty, but after reaching the court house reconsidered the matter and remained off a day or two. He ought to engage in prayer from now on asking that the devil catch or perform his duty without delay. One and cost was the damage.

On Monday morning Mayor Price again picked up the scales of justice and began his official duties. Annie Jones, a woman of bad character had been arrested by Marshal Anderson, charged with disorderly conduct, who pled guilty. She was fined \$5 and cost and given until Wednesday following to leave the town else be bound over to Lumpkin Superior Court. This unfortunate woman appeared in our town several weeks ago from Gainesville going from place to place, being dismissed from each house as soon as her character was known. She is a very good looking woman and has won the affections of several men, both married and single, since being in our midst. Before and after her arrest she gave the names of several of her admirers from whom she had received messages of love. Some of them are business men and one an official. All these names would have been given to Mayor Price but she was persuaded to hold her tongue. She said that she received a message from one married man requesting her to call on him in a second story building on the square where they could sit and exchange words of love and look out of the windows down on the "wicked" people below.

INFORMATION ON FARMING.

State Agricultural Department Replies to a Number of Inquiries.

QUESTIONS.—Please advise me about composting. For several years I have composted my stable manure with cottonseed, chemicals, rich earth, etc., but it is a heavy job and requires so much extra work in handling that I have been delaying in my own mind whether some other plan would not pay better. Recently my attention has been called to articles in agricultural journals on this subject, in which the way is said to pay. Do you agree with this view, or what would you advise?

ANSWER.—It is not advisable to handle a heavy article like manure any more than is absolutely necessary, and where it is possible to haul the manure directly to the land, we have found that it pays better than the more costly plan of composting. But often the hauling cannot be done, when in the busy season every mule and farm hand is engaged in the different crops. Under such circumstances, rather than allow the manure to accumulate in the stables, to the manifest injury of the animals, or to waste it by throwing it in loose piles in the stable yards, we would select wet days, when it is not possible to work in the fields, and put the manure in compact heaps, where its valuable constituents will be held until such time as we can utilize them. Where a farmer has a large number of cattle, which he is feeding for market, which practice is becoming quite extended since the most need and health afford such a cheap and certain means of fattening beefs, it is a good plan, except in severe weather, to put the cattle directly on the land to be improved. Near Atlanta there are 25 acres of most magnificent corn, sown the first of May, nearly ready for cutting, which is a striking and wonderful object lesson as to the wisdom of this policy. The manure from feeding the hogs and meal contains elements of fertility in the highest degree beneficial to both land and crop. The following on this subject from Professor Massey is both pertinent and practical, and outlines an economical plan not only for utilizing farm manures, but for obtaining at a comparative small cost, a part, at least, of that expensive element, nitrogen, which is an absolute essential to successful farming. Of course we cannot expect to feed cattle enough to enrich the entire farm each year, but by pursuing this plan, even on a limited area, one will be surprised at the results, in the increased yield of crops.

"No matter how carefully the manure is handled while in the stable or barnyard there will be a constant loss, and there is less of loss when it is spread on the land than anywhere else. Let one hauling do for the homestead manure and let that be to get it out and spread it broadcast on the land where the corn crop is to be planted. Then if the corn is followed by a crop of winter oats, as it should be in the cotton belt, there will be found enough to carry the oat crop through to success. Then after the oats are cut give all the land a liberal dose of the mineral plant foods that the pea delights in—acid phosphate and potash in the form of muriate of potash. Spread this also broadcast, for the broadcast use of manures and fertilizers is what tends to the improvement of the land, and its building up in improved crops. Then sow the land in peas, and by the use of the previous dressing of 300 to 400 pounds of the phosphate and potash mixture you should get a crop of hay that will enable you to feed more stock than ever and thus raise more manure to put out broadcast.

"But what we especially wanted to oppose was the laborious hauling of earth, manure, cottonseed and all sorts of rubbish to make a pile, and to turn and mix and pile and repile the mixture, thinking that by this process the whole will become stable manure, is a great waste of labor. If there are valuable accumulations of wood and mould handy, haul it and spread it on the land and haul and spread the stable manure and put your cottonseed down in a furrow deep between the cotton rows, where after it has rotted the cotton roots will find it just when they need it most—at fruiting time.

"Acid phosphate and potash, spread broadcast on the land for a big crop of peas, will leave nitrogen enough in the land for the cotton that is to follow, and you will need to buy, if anything, only the same mineral fertilizers, while the great crop of peavine hay will enable you to feed more stock and to add a profitable industry for the winter in selling beaver or milk and butter."

State Agricultural Department.

Potash

is a necessary and important ingredient of complete fertilizers. Crops of all kinds require a properly balanced manure. The best

Fertilizers

contain a high percentage of Potash.

All about Potash—the results of its use by actual experiment on the best farms in the United States—is told in a little book which we publish and will gladly mail free to any farmer in America who will write for it.

GERMAN KALI WORKS, 99 Nassau St., New York

DR. HATHAWAY & CO., SPECIALISTS (Regular Graduates.)

Are the leading and most successful specialists and will give you help.

Young and middle aged men. Remarkable results have followed our treatment. Many years of varied and intense experience. We have discovered a new and effective method of treating all the diseases of the male system, whether old or new, and we are now offering it to the public at a low price. We have cured many cases of the following diseases: Gonorrhea, Syphilis, Eczema, Scabies, etc. We have also cured many cases of the following diseases: Catarrh of the bladder, Prostatitis, etc. We have also cured many cases of the following diseases: Hemorrhoids, etc. We have also cured many cases of the following diseases: etc.

WOMEN! Don't you want to get cured of that terrible disease, Gonorrhea, which is so common among women? Our wonderful treatment will cure you of it. We have cured many cases of the following diseases: Catarrh of the bladder, Prostatitis, etc. We have also cured many cases of the following diseases: Hemorrhoids, etc. We have also cured many cases of the following diseases: etc.

STYLLIS.—The most rapid, safe and effective remedy. A complete Cure Guaranteed. We have cured many cases of the following diseases: Catarrh of the bladder, Prostatitis, etc. We have also cured many cases of the following diseases: Hemorrhoids, etc. We have also cured many cases of the following diseases: etc.

TRUTH AND FACTS. We have cured cases of Chronic Diseases that have failed to get cured at the hands of other specialists and medical institutions. We have cured many cases of the following diseases: Catarrh of the bladder, Prostatitis, etc. We have also cured many cases of the following diseases: Hemorrhoids, etc. We have also cured many cases of the following diseases: etc.

THE ODELL
TYPE WRITER.

\$20 will buy the ODELL TYPE
WRITER with 75 characters;
warranted to do as good work as any
machine made.
It combines simplicity with durability,
speed and ease of operation. Wears
longer without cost of repairs than any
other machine. Has no ink ribbon to
bother the operator. It is neat, sat-
isfying, nickel-plated, perfect, and
adapted to all kinds of type writing.
Like a printing press, it produces
sharp, clean, legible manuscripts. Two
or ten copies can be made at one writ-
ing. Any intelligent person can be-
come an operator in two days.
Reliable agents and salesmen want-
ed.
For pamphlet giving endorsements,
etc., address

New Spring
MILLINERY.
My elegant stock of
New and HANDSOME Spring
MILLINERY
is now ready and I invite my friends to call
and inspect.

I have as usual the
Very Newest Styles
in every department and it is always my
aim to please my patrons. My prices are
very reasonable and as low as any. The
services of Miss Loden, a lady of many years
experience in the millinery business, have
been secured again this season, who will
take great pleasure in waiting on you.
Very Respectfully,
MRS. E. W. STRICKLAND

HACK LINE.

HAVING recently purchased
the entire daily hack line from
Dahlonega to Gainesville enables me to
be more prompt in carrying ex-
press packages and passengers than
heretofore at fast time at same old
prices. None but safe and sober
drivers will be put in charge of the
mail and passengers. Prompt at-
tention given to all business entrus-
ted to my care.
may 13 JOHN HATHFIELD.

G. H. McGuire,
JEWELER,
Dahlonega, Ga.

Having permanently located in Dahlonega I am now ready to do all kinds
of work in my line at prices to suit
the times. Bring along your clocks,
watches and sewing machines. All
work guaranteed for twelve months.
Shop next door to A. F. Norton's old
stand.
G. H. MCGUIRE,
April 23 if

Diseases of the Blood and Nerves.
No one need suffer from these. This
disease is quickly and permanently cured
by Brown's Iron Bitters. Every disease of
the blood, nerves and stomach, chronic
or otherwise, according to Brown's Iron
Bitters. Known and used for nearly a
quarter of a century, it stands today fore-
most among our most valued remedies.
Brown's Iron Bitters is sold by all dealers.

The Happenings in Cleveland.

CLEVELAND, June, 1898.
MR. EDITOR:—
On Saturday the 11th inst., the
Confederate veterans of White
county organized by electing R.
R. Asbury, Captain Commander;
W. J. Payne, 1st Lieutenant; J.
E. McAfee, 2nd Lieutenant; J. N.
Freeman, 3rd Lieutenant; J. C.
Bell, 4th Lieutenant; W. B. Bell,
Secretary and Adjutant.

A meeting was appointed 1st
Tuesday in July. The object of
which is to ascertain how many
will go to the Veterans grand gather-
ing in Atlanta, and to make such
arrangements as may be thought
proper for the occasion, &c.

Sunday the 12th, was a big day
at the colored M. E. Church—a
children's day. Four Sunday
Schools were represented. The
service consisted of songs, recita-
tions and addresses, so says our in-
formant. Not being on the ground
we cannot give a definite account
but judge from the way the col-
ored people came in from every
point of the compass that they had
a large attendance and a good
time. Have heard of no distur-
bances so far. One white man was
seen staggering but that may be
his natural way of walking. Dahlonega
was represented by Eula
Jefferson, Ed. Austin and perhaps
others. Eula was as polite as a
dancing master, and Ed smiling all
over his face. Some of them drove
out a little reckless as they departed
homeward, but as the parties
are unknown to us we leave them
to reflect and reform.

Harvesting is the day now and
wheat is fairly good. Mr. Hen-
derson has a piece of less than one
acre of land right in town, which
he had cut and shocked up Monday
13th, and although rust had in-
jured it some, it will doubtless make
20 or more bushels. Can any other
North Georgia town beat that
for wheat? If so, say so, and then
we can tell you something more
about wheat later. GEORGIAN.

Nervous prostration is a term
commonly used to indicate a weaken-
ed and debilitated state of the ner-
vous system and a vitiated condition
of the blood. Its symptoms are un-
usual nervousness, great irritability,
and incapacity for physical or men-
tal labor, and it is caused by errors
in diet or hygiene. Dr. J. H. Mc-
Lean's Strengthening Cordial and
Blood Purifier is recognized every-
where, even by the medical profes-
sion, as a superior remedy to coun-
teract weakness of this character.
Price 50c and \$1.00 a bottle at
Moore & McGuire.

Here is the truth to which many
can testify from the Washington
Post: "It sometimes requires
more and better courage to stay at
home than to go to the war. Many
a man, who, if duty would permit
him to volunteer, would be glad to
go, is compelled by the most
solemn and binding obligations to
stay at home. It is not humanity,
a wise or heroic thing for a citizen
to leave his wife, children, sisters
or parents in want in order to go
where he is not needed. So long
as there is a surplus of men who
want to enlist and whose presence
at home is not essential to the sup-
port of families, no man whose
presence is thus required has a
moral right to enlist."

Prof. Earnest Neal, who used to
reside in Lumpkin county, has re-
cently been elected principal of the
Martin Institute at Jefferson.

Don't Neglect Your Liver.
Liver troubles quickly result in serious
complications, and the man who neglects his
liver has little regard for health. A bottle
of Brown's Iron Bitters taken now and then
will keep the liver in perfect order. If the
disease has developed, Brown's Iron Bitters
will cure it permanently. Strength and
vitality will always follow its use.
Brown's Iron Bitters is sold by all dealers.

From W. J. T. Hutcheson.

AURARIA, Ga. June 18, 1898
EDITOR NUGGET:—
I see from your paper that the
new appointed members to serve
on the Board of Education of
Lumpkin county have allowed the
time for being sworn in to expire
and that there will be others ap-
pointed, I being one of them.
My reason for not attending to
the matter was that my mother
was very sick and expected to die
and I could not afford to leave her
for any position. But I did write
the ordinary what hindered me and
asked to know if there was danger
of being left. I received no reply
and took it for granted that the
other members were acting with-
out my assistance, as it used to be
the case when I served as one of
that body for several years with-
out any compensation whatever.
I wish to say that it was not the
want in the schools that kept me
away.

I do think that Judge Tate
ought to have written me how mat-
ter was. Yours Respectfully,
W. J. T. HUTCHESON.

A Busy New York Corner.

At that busy corner, Grand
street and the Bowery, there may
be seen cars propelled by five dif-
ferent methods of propulsion—by
steam, by cable, by underground
trolley, by storage battery and by
horses.

Overhead, running up and down
the Bowery, are the cars of the
elevated railroad, drawn by steam
locomotives. Running up and
down the Bowery on the surface
are the cars of the Third Avenue
railroad, drawn by cable. The
Madison avenue cars, which turn
into the Bowery at this point,
coming along Grand street from
the west, are run by the under-
ground trolley system. The cars
on the Second Avenue railroad,
which come up the Bowery and
turn into Grand street going west,
returning around the same corner
going down, are still drawn by
horses, as are also nearly all the
cars of the Grand street cross-town
line, which crosses the Bowery go-
ing east and west. But there are
four cars now running on this
cross-town line that are run by
power from a storage battery.—
New York Sun.

No humane person will expect a
horse to work against a sore shoul-
der, nor to rest quietly under galling
harness or saddle. When these
troubles appear the proper method
is to remove the cause of the sore
and apply Dr. J. H. McLean's Vol-
canic Oil Liniment. It is a superior
remedy for galls and sores, chafes
and burns on animal flesh. Price
25c, and \$1.00 a bottle at Moore &
McGuire.

The soldiers report that they
will not be paid the full \$15.60 per
month which the government has
promised the privates in the army,
but will receive each month only
\$13 the \$2.60 to be held back for
them. The government has its
reasons for this, but as yet the
soldiers do not understand what
they are. It is presumed by them
that the plan is to keep them from
spending all they have, and being
turned loose strapped after the war
closes.

It is always necessary to pass
around the collection plate in
order to get the cents of the meet-
ing.

An Uncertain Disease.
There is no disease more uncertain in its
nature than dyspepsia. Physicians say
that the symptoms of no two cases agree. It is
therefore most difficult to make a correct
diagnosis. No matter how severe, or un-
der what disquieting hypochondria, Brown's
Iron Bitters will cure it. Invaluable in all
diseases of the stomach, blood and nerves.
Brown's Iron Bitters is sold by all dealers.

Candidates Should Not Use
Liquor.

A candidate said the other day
that he was willing to sign an obli-
gation that he would not use any
liquor in the coming election if his
opponents would. The best plan
for those that wish to do right is to
run on a dry ticket and not violate
the laws of the country. Then let
the law abiding citizens cast their
ballots against the man that tries
to win the race by the use of li-
quor and ask that the constitution
be changed so as to deprive any man
from casting a ballot who is willing
to sell his vote for a drink of li-
quor. It has got so that an elec-
tion can't pass in Lumpkin county
but what some one will resort to
the use of liquor. At the last pri-
mary it was done in Dahlonega not-
withstanding the friends of Tate
and Thompson here both agreed,
so we understand, not to use it. Up
in the day one of the Tate men who
was working for his man on the
slay saw parties going to and from
two different places like bees to a
bailed place, which caused him to
make an investigation, when lo and
behold he found free liquor for the
man whose duty it is to prosecute
persons using liquor on election
days.

Confederate Veterans Meet.

The Confederate Veterans—
Camp Martin No. 1—of Lumpkin
county convened in the court house
last Saturday, during which time
the following resolution was read
and adopted, which had been pre-
pared by W. H. McAfee, W. H.
Cook and M. G. Boyd:

Whereas, Dr. B. F. Chapman,
William Stringer and W. M.
Palmour have departed this life
during the present year, and
whereas, they were true and tried
soldiers and members of this camp,
therefore be it resolved: That in
the death of Dr. B. F. Chapman,
William Stringer and W. M.
Palmour we have lost three faith-
ful veterans.

Resolved second: That a copy
of these resolutions be furnished
the families of our deceased com-
rades and that the same be placed
upon our minutes.

On motion the secretary was di-
rected to prepare a roster and place
on the minutes of this Association
all the members of this Camp.
Adjourned to meet on Saturday
July 9th, 1898, at 11 o'clock, a.
m. At which time all members
are requested to be present, es-
pecially all who expect to attend
the reunion at Atlanta July 20th to
23rd.

Four moonshiners that had been
confined in Fulton county jail for
some time had their preference
last week either to remain in jail
until their sentences expired or go
to the army. They preferred the
latter and went off with Captain
Yancey Carter. The four were
Isaac Owens, from Murray county;
G. W. Stewart, from Heard county;
John Barksdale, from Mur-
ray county; and W. R. Hender-
son, from Pickens county.

Many heavy additional taxes
have been imposed for war pur-
poses. Liquor and tobacco are in
the list again.

A persistent pain in the back is
indicative of disorder in the kidneys.
Diseases in these organs are so rapid
and deadly in their progress they
should not be neglected for a single
instant. Dr. J. H. McLean's Liver
and Kidney Balm has an established
reputation among medical men for
curing these diseases. It has in
many cases brought about relief and
cure after the attending physician
has exhausted his resources. Price
\$1.00 a bottle at Moore & McGuire.

War Heroes.

Under the heading "Two He-
roes" a Washington newspaper
had a beautiful editorial the other
day. Those two heroes were Ad-
miral Dewey, the hero of Manila,
and Worth Bagley, the brave
young ensign who was killed off
Caudenas. One to-day stands
with all the trappings of victory
about him, a great reception
awaiting him whenever he returns,
from thankful hearts of millions
of his countrymen, a great island
sleeping at his feet gained by the
 prowess of his arms; the other
resting in a cemetery, with his
story written forever. Vast
thronged him when he came
home—but he never saw them;
beautiful tributes were paid to him
by eloquent tongues—but he never
heard them. In the last sleep he
is sleeping, never to know anything
of the fame which came to him by
his death. A great theme for an
editorial it was—these two heroes
and well did the paper handle the
theme. But to us came the thought
as we read it that there were more
heroes than two in these two
engagements, heroes whose names
we never will know, whose fame
will hardly go beyond the poor
little homes where sad eyes weep
for them in vain, and where the
story of their prowess hardly goes
beyond the fireside—the privates
who died with Bagley on the
Winslow, the privates who risked
their lives with Dewey might be
a hero.

We would not detract one iota
from the fame of these "Two
Heroes." Men could not be braver
or more worthy. But the unknown
privates who died with Bagley
were just as brave as he, and the
men who manned the guns which
sunk the Spanish ships at Manila
were just as brave and patriotic as
Dewey. But fame rarely comes to
the private, he ever so brave the
glory of his deeds are blended in
the glory of the deeds of his
superior officer. It is always the
way of the world through all time.
But it might be well for the Amer-
ican people to remember that there
are more than two heroes, and
when they build their monument
to brave Worth Bagley, put upon
it the names of the brave privates
who gave for their country as much
as he gave—their lives; when they
build a monument to Dewey, build
it also to his brave seamen to whose
courage and heroism is equally due
the credit of the victory.—La
Grange Graphic.

Hon. Webster Davis, assistant
secretary of the interior, at Get-
tysburg on memorial day, a close
personal friend of the president,
with Mr. McKinley's sanction, in
referring to the future of the re-
public said: "I believe the hour
has struck on the clock of ages
when this wonderful land shall
take on newer and higher types of
nationality." He said that we
should annex Hawaii, protect the
Philippines, free Cuba and look
after her welfare, open the Nica-
raguan canal and make ourselves
masters of the trade of the Pacific.

Frank McDonald, the youngest
son of the late Hon. William Mc-
Donald, of Waycross, while dig-
ging bait near the old homestead
unearthed a pot of gold. It con-
tained eighty-five \$5 gold pieces,
and had evidently been buried
many years. The money showed
dates from 1844 to 1845 and was
probably hidden away by some of
the old settlers.

Fort Valley alone is preparing
to ship 800 car loads of peaches,
besides plums and melons. Marsh-
hallville, a few miles distant, will
ship 600 cars of peaches and over
100 cars of plums.

MOTHER! There is no word so full
of meaning
and about which such tender and
happy recollections cluster as that
of "Mother."—she who watched
over our helpless infancy and guided
our first tottering step. Yet the
life of every Expectant Mother
is beset with danger and all ef-
fort should be made to avoid it,
so assists nature
in the change taking place that
the Expectant Mother is en-
abled to look forward without
dread, suffering or gloomy fore-
bodings, to the hour when she
experiences the joy of Motherhood.
Its use insures safety to the lives
of both Mother and Child, and she
feels stronger after than before her
confinement—in short, it "makes
Childbirth natural and easy," as
so many have said. Don't be
persuaded to use anything but

MOTHER'S
Friend

dread, suffering or gloomy fore-
bodings, to the hour when she

THE ATLANTA (GA.) JOURNAL
Daily and Weekly.
Daily \$5 a Year—Weekly 50 Cents
a Year.

The Weekly Journal is a large paper, con-
taining ten pages of seven columns each.
It is filled with the LATEST NEWS, of
the day, both domestic and foreign. Own-
ing its own leased telegraphic wires, which
are used for no other purpose but to bring
the latest news to the editorial rooms. The
Journal is prepared to get all the news up to
the latest moment.

In addition to the news, it contains more
special features than any other southern
weekly. Amongst them is a weekly
letter or sermon from Rev. Sam Jones, a
contribution from Hon. John Temple
Graves, a weekly "fact" biography of dis-
tinguished men, and many other attractive
features.

The Weekly Journal is beautifully illus-
trated by its own artist. In fact neither
color nor money is spared to make it the
GREAT SOUTHERN WEEKLY.

Calendar Free.

Dahlonega, Ga.

An Old Idea.

Every day strengthens the belief of emi-

nent physicians that impure blood is the

cause of the majority of our diseases.

Twenty-five years ago this theory was used

as a basis for the famous "Blood Purifier"

of Dr. Brown. Its success in curing every

of this famous old household remedy are

sufficient to prove that the theory is correct.

Brown's Iron Bitters is sold by all dealers.

Talk up your town.

Take the **NUGGET** and we will help you.

McHenry, Miss., has two more new cases of yellow fever.

Flour in Havana is 50 cents per pound while the supplies of rice, maize, potatoes and eggs are exhausted.

We understand that the friends of Col. M. G. Boyd have been urging him to make the race for the legislature.

The Spaniards will not exchange Hobson and his men until the Americans bag bigger game, says an exchange.

Mr. Geo. P. Erwin, son of Hon. W. S. Erwin, our old Solicitor General, is a candidate for secretary of the senate.

Hon. Mel Branch, of Columbia county, is going to send up a car load of his rattlesnake melons to the old vets, at their reunion in Atlanta.

An angry mob at Wetumpka, Ala., battered down the doors of the jail the other night and lynched four negroes who had murdered five citizens.

About 60 negro republicans of the state met at Birmingham, Ala., last week and nominated a full ticket. Wamer is the first negro ever nominated in Alabama for Governor.

Mrs. Clark Howell, Jr., wife of the editor of the Atlanta Constitution died last Sunday night from inflammation of the stomach. We deeply sympathize with the husband in the loss of his beloved companion.

Col. R. T. Nesbitt, of Cobb county, present Commissioner of agriculture has been nominated as a candidate for senator of the 35th senatorial district after a deadlock of a week and after over 3,000 ballots were cast.

With the two hundred million dollars from the sale of bonds in hand, and the other millions that that will be raised by the new revenue bill, there is no reason why Uncle Sam's soldiers may not be promptly paid off in the future. —Enquirer-Sun.

Bohannon, Dalton's, train robber, gave a negro convict \$10 to smuggle him in a coal car and haul him to liberty. After he gave the negro the money he betrayed Bohannon by informing the warden of the matter so that he might be ready and catch him as he passed out. But the negro kept the money and Bohannon is still a prisoner.

Private Stewart, of Atlanta, who is at Tampa, Fla., got on the war path the other day and could not wait until he reached the Spaniards to fight but lit in on his comrades with various kinds of weapons. He attacked his own sergeant and attempted to stab him with a bayonet. Company D, of the Second Georgia, was required to overcome the irate soldier.

On the 19th inst. Adjt-General Corban at Washington made known the names of 193 young men who have been selected as second lieutenants in the regular army to fill vacancies created by the act of congress adopting the three battalion organization for the infantry arm of the service, one of whom is Fred S. L. Price, honor graduate of the N. G. A. College. Each has to be a thorough test of his mental and physical qualifications for the army service. Mr. Price will be notified to appear at Fortress Monroe July 1st where the Georgians are to be examined. It is a good position and we hope that he will stand the test. This makes several of the old Dahlonega college boys that have been recognized by the government in the make up of its officers.

The Democrats Met.

According to previous notice the democratic party of Lumpkin county met in the court house yesterday at 11 o'clock for the purpose of selecting delegates to the judicial convention which meets in Atlanta on the 29th of July. It was very much like Mr. Hughes' first mess of potatoes he once said he had, a small affair, and reminded us of some of the "big populist rallies" we used to have, but it transacted all the necessary business before it and did things that may be of much benefit to the party in the end. Forty-two ballots were cast for Associate Justice of the Supreme Court—36 for Judge Gober and six for Judge Fish. The other candidates having no opposition received the full vote. Delegates selected to cast the vote of the county for the candidates chosen: Capt. E. M. Williams and Col. M. G. Boyd.

Dr. H. C. Whelchel was elected chairman of the executive committee and the following are the names of each member: Auraria, J. T. Miller; Chestnut, Thomas Henson; Cane Creek, M. L. Jones; Crumby's, S. D. Grindle; Dahlonega, Joseph Allen; Davis', W. W. Scott; Frogtown, J. T. Grindle; Hightower, E. D. Gaddis; Jones' Creek, Joseph Swancy; Mill Creek, W. J. Burt; Martin's Ford, W. H. Early; Nimbalew, L. W. Cochran; Porter Springs, Timon Davis; Shoal Creek, J. H. Redmond; Wahoo, J. B. Huff; Yahoola, Geo. W. Walker, Jr.

A resolution was passed calling a mass meeting of the democratic party and all those wishing to affiliate with it, to meet in convention at Dahlonega on Saturday July 9th, to determine whether primaries will be held to select a democratic candidate for the legislature as well as for all county officers.

Brief War Notes Taken From Each Paper Daily.

FRIDAY.

The Texas, Marblehead and the gunboat Suwannee which were ordered to destroy the fort which protects the village of Caimanero ran over a row of mines safely and blew the fort to atoms. A Spanish detachment rallied out from the fort and began firing on the vessel in the bay, but a few shells from the Texas killed some of them and the balance fled. A Spanish soldier so weak from lack of food that he could scarcely walk, came into camp and surrendered. He said he was starving as were all other Spanish soldiers and hundreds were like him, ready to surrender and would do so, only they feared that Americans would kill them. He was in Tuesday's fight, in which 150 Spaniards were killed. The only food Spanish soldiers now have is fat pork and sweet potatoes.

A Spanish steamer has left Kingston with supplies for Blanco. Sampson is on the alert.

Sampson bombarded all the defenses at Sanantonio again for three hours, except the Morro castle, where Hobson and his fellow prisoners are believed to be confined. The dynamite guns were given a chance and fired three loads of gun cotton of 250 pounds each doing great damage. When the signal of "cease firing," was given the enemy had been completely silenced. Spaniards admit that 63 privates and four officers were killed in the different battles.

The insurgents are steadily gaining. They have captured Las Pinas and Pananaki and since that time the fighting has continued incessantly. Both food and ammunition is scarce with the Spaniards. The wounded are being crowded into the churches.

Three thousand horses and unbroken mules, confined in a corral at Tampa Fla., stampeded last night and broke through the corral. Most of the soldiers were asleep and before they could get up the horses were tearing through the camp and trampling soldiers under foot, doing much damage before they could be stopped.

The construction of three large battleships under the provision of the annual naval appropriation bill is to be undertaken without further delay.

SATURDAY.

A special from Manila says that Spaniards are suffering for food. Those defending Manila are starving while the officers are feasting at cafes and loafing in beer saloons. They go 36 hours without food. The insurgents are gaining every where and are now firing into Manila.

Twenty-five hundred Spaniard prisoners have been taken. Spanish vessels destroyed are two protected cruisers, five unprotected cruisers, one transport, one serving vessel, both armed. Those captured are: The transport Manila and the gunboat Callay.

SUNDAY.

Governor Atkinson issues his proclamation for another regiment of volunteers which is to contain 1,326 men.

Spanish resources are exhausted and Spain is notified by her commander at Santiago that he can fight no longer.

A telegram from Washington says that the President may make a third call for volunteers soon on account of the heavy demand for troops. It is believed he will call for 100,000 more.

A Spaniard on board of the United States City of Pekin had a fist attacked to the magazine and was in the act of blowing it up when he was discovered and arrested.

Sampson is still throwing shells into the Cuban town from the Guantanamo bay and much destruction is caused. Bombardment is now the order of the day and every engagement results in great advantage to United States.

MONDAY.

A careful inspection of the fortifications along the crest of the hills at Sanantonio since the bombardment show that many of the batteries were totally destroyed and havoc and ruin everywhere.

A dispatch from Guantanamo says that the starving and famine stricken Spaniards are preparing to leave their homes in ashes and seek safety in the mountains of the north.

Three large cargo of supplies are known to have been smuggled into Havana.

The rebels have entirely surrounded Manila and three thousand Spaniards have fallen into their hands.

President McKinley has sent Admiral Cervera and Gen. Pando a message saying that he will hold them responsible for the lives of Lieut. Hobson and his men.

The relief ship "State of Texas," under orders of the government left New York April 23rd with 1000 tons of supplies for Cuban sufferers and is expected to reach her destination every day.

There are two battalions of colored troops in Virginia with colored officers ready to be mustered into service.

HOW are the children this summer? Are they doing well? Do they get all the benefit they should from their food? Are their cheeks and lips of good color? And are they hearty and robust in every way?

If not, then give them **Scott's Emulsion** of cod liver oil with hypophosphates.

It never fails to build up delicate boys and girls. It gives them more flesh and better blood.

It is just as good for the baby also. A little Scott's Emulsion, three or four times a day, will make the thin baby plump and prosperous. It furnishes the young body with just the material necessary for growing bones and nerves.

All Druggists, etc., and Scott & Bower, Chemists, N. Y.

The war taxes will effect nearly all citizens one way or another. About \$4,000,000, a year will be realized on beer in New York alone. The government expects to realize annually about \$20,000,000 on tea.

The Spaniards threaten to burn the town of Caimanera when they are forced to evacuate the place. Inflammable material has already been placed and torches are ready to apply.

Several attempts to land landing places near Santiago were met by fusillades from Spanish infantry. Two launches entered the bay and had a sharp brush with the enemy. Transports were expected Saturday.

TUESDAY.

Lieut. Hobson and his men are now believed to have been taken up to Santiago.

The First and Second regiments of Georgia volunteers are to accompany Gen. Miles to Porto Rico.

A dispatch from Sanantonio says that the Spaniards are now on high rations and have only enough to last during the month.

Spain's cabinet decides that she must have her colonies or war and will give up nothing. This is the kind of peace she demands.

Blanco has notified Americans that he will recognize no truce flag hereafter, adding that every vessel within six miles range will be fired upon whether flying the stars and stripes or a white flag.

WEDNESDAY.

Gen. Shafter has reached Sanantonio with 16,000 men and was most heartily welcomed by Admiral Sampson, but has made no effort to land them yet and may not for two or three days to come. No doubt much blood will be shed when the effort is made as the Spaniards are there ready in large numbers.

It is claimed that France is preparing to secure peace between America and Spain.

An American warship which was sent by Dewey to secure provisions and other necessities for the fleet, has been ordered out of Chinese waters.

Blanco has sent six battalion of troops to Sanantonio to protect the coast.

THURSDAY.

The Americans are now successfully landing on the soil of Cuba. The vessels of the fleet shell Fort Cabanas in vigorous fashion, to divert Spaniards attention while the army successfully lands elsewhere. Spaniards offer but little resistance. One man killed on the Texas during the fight yesterday.

The invasion of Porto Rico has been indefinitely postponed. No other war news today. All eyes are on Shafter and Sampson.

A. M. Hyden, of New Bridge, was considerably injured one day last week by the overturning of a wagon. When found he was unconscious and remained so far some time.

Plums are now ripe and the physicians are benefitted. Every plum eaten by any one is worth two dollars to a physician.

Wm. Tolbert is now running the upper mail line from Dahlonega to Gainesville.

Senator Castleberry was up from Dawson last Saturday.

Ordinary Tate and lady visited Gainesville this week.

A NEW TRIUMPH

The Dreaded Consumption Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist. Will Send to Sufferers, Three Free Bottles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Slocum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest diseases, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away; and to make its great merits known, will send three free bottles of his newly discovered remedies to any afflicted reader of the **NUGGET**.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it not only his professional, but his religious duty—a duty to which he owes to suffering humanity—to donate his infallible cure.

He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has on file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world.

Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Slocum, M. C., 98 Pine street, New York, giving express and postoffice address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the **NUGGET**. Jan. 28.

NOTICE TO TEACHERS.

The Teachers Institute for Lumpkin county will be held in Dahlonega, Ga., commencing on June 27th inst. The law requires all teachers holding license, who have not permanently retired from teaching, to attend said institute. Teachers will govern themselves accordingly.

J. J. SEABOLT, C. S. C.
June 15, 1898.

ANNOUNCEMENTS.

FOR COUNTY SURVEYOR.

I hereby announce myself a candidate for the office of Surveyor of Lumpkin county and will appreciate any assistance which the voters will give me in the coming October election.

A. W. GRIZZLE.

FOR THE LEGISLATURE.

We are authorized to announce the name of J. V. Harrison as a candidate to represent Lumpkin county in the House of the next legislature.

To the voters of Lumpkin county:

Having been solicited by many friends, I hereby announce myself a candidate for the legislature, and if elected promise the people to make them a faithful and efficient member, asking the support of the voters.

S. M. GRIZZLE.

I respectfully announce myself a candidate to represent Lumpkin county in the next legislature of this state and will appreciate the votes of my friends and if elected will do all I can for the county's best interests.

I am, respectfully,

F. M. WILLIAMS.

FOR CLERK.

I respectfully announce myself as a candidate for clerk of the superior court of Lumpkin county and ask the support of all voters regardless of their race or politics and promise if elected, to serve them to the best of my ability.

G. C. WALLACE.

FOR TAX RECEIVER.

We are authorized to announce the name of J. A. Anderson for tax receiver of Lumpkin county at the ensuing election in October.

FOR SHERIFF.

To the voters of Lumpkin: I announce myself as a candidate for Sheriff of Lumpkin county and respectfully ask the voters to give me their support. If elected I will faithfully perform the duties of such office to the best of my ability.

Respectfully,

J. M. DAVIS.

To the Voters of Lumpkin County:

At the solicitation of many friends throughout the county I have decided to make the race for Sheriff and respectfully solicit the support of all the voters.

Respectfully

M. G. HEARN.

FOR COUNTY TREASURER.

To the voters of Lumpkin county: I take this method of announcing my candidacy for re-election to the office of county treasurer and hope to receive a hearty support from you. Thanking you for past favors and hoping for a continuance of the same, I am yours respectfully,

E. F. JACKSON.

FOR TAX COLLECTOR.

To the voters of Lumpkin County, I announce myself as a candidate for re-election to the office of tax collector. Thanking you for past favors and hoping my efforts to serve you for the past year will meet your approval, and if so I feel sure I will have your support in the coming election.

Yours Truly,

J. F. SARGENT.

We are requested to announce the name of George W. Walker, Jr., as a candidate for tax collector of Lumpkin county who promises to discharge the duties of such office to the best of his ability and to the satisfaction of all if elected.

THE NUGGET.

DAYLONEGA, GA., JUNE 24, 1898.

Frank Harris, of Dahlonega, is now in Washington City.

Five blooded pigs for \$1.00 each. B. R. MEADERS & SONS.

Miss Margie Crison has returned home from a visit to McKee, Ga.

Mrs. Mary Marlow, after a spell of sickness for some days, is recovering.

Miss Mattie Pitner, of Gaddistown, is in the city visiting her grandfather, Capt. F. M. Williams.

Go to B. R. Meaders & Sons if you need any frames for enlarged pictures. They are pretty and cheap.

Mrs. Wm. Rices spent a portion of last Saturday and Sunday over at the Big Joe with her sister, Mrs. Frank Moore.

We understand that Miss Lila Cain will take charge of a school at the Long Tubes and Miss Amanda will teach at Keystone.

You will find a large lot of overalls and working pants at Moore & McGuire's, besides negligee and dress shirts nice, cheap and good.

Mrs. D. T. Harris went down to the Big Joe Mine last week where she spent a few days with her husband who is superintendent of the works.

Mrs. Easter Hatfield, mother of Benj. Hatfield, who went from this county down to Monticello first of the year, died at her sons house last Saturday.

Col. Price has already written for Mr. Hutson, brick mason at Gainesville, and the work of completing the new Baptist church will begin soon.

Mrs. J. M. Brooksher is sick with typhoid fever, but we trust that it will be of short duration and that she will soon be enjoying her usual good health.

Ned Parks, who went from Dahlonega to the west a short time ago, has got enough of it already he says, and is now in Atlanta on his way back to Dahlonega.

W. H. Courtney of White county, spent last Tuesday night at the Hall House, who was on his way to Forsyth county to inspect some mining property down there, in company with Mr. Teazley. At the first sight of Mr. Courtney we thought that he might have a Senatorial bee in his cap and had moved down this way so that the voters might hear it sing but if it was there we failed to hear it.

It seems that the stock law in Yahoola district is more expensive than profit. Last Tuesday the bailiff came down with an advertisement to post up on the court house door of an "estrays" notice of one sow and four pigs valued at \$2.50 which had done \$4.00 damages, as the property of one of the Ravens of Chestate district, the damaged party having given the ages of the sow and her pigs to a day. How they make an "estrays" out of property the owner of which is known and how the bailiff will get \$4.00 damages out of \$2.50 worth of property is a matter we are unable to solve, saying nothing of the officers costs.

We notice quite an interesting interview in the Anniston, (Ala.) Hot Blast which one of its reporters had with John H. Jenkins, of Dahlonega, concerning the Clerborne mine in that state, where Mr. Jenkins has been for some time. We guess that it is getting too hot and unpleasant for John down that way as the paper stated that he was on his way back to his mountain home, where he can enjoy a cool pleasant breeze at any time. Later—Mr. Jenkins has returned. He has been down in Alabama prospecting for gold and found it. But the water courses dried up and even to the spring from which he used water and he decided to come back as he couldn't do much mining without some water.

Missouri, a daughter of Frank Green died last Friday, three miles out in the country.

Mr. Burch has moved his mining boat down the river to the lower end of the Briar Patch.

Miss Jennie Waters, of Randa, is down on a visit to her sick sister Mrs. J. M. Brooksher.

We are glad to state that Robt. Howell is improving and is likely to recover if he gets no back set.

Miss Fincher after spending some time in Dahlonega returned to her home in Atlanta last week.

Only ten persons appeared last Friday to stand the examination for teachers license and two of them withdrew.

Ladies' shoes 64c and up, children's shoes 25c and up, and they are better than the price would indicate. B. R. MEADERS & SONS.

Jake Crumley and Wm. Jarrell, of White county, found their way into the jail here this week for having been handling blockade liquor some time ago.

Miss Mattie Harris will not assist John Chapman with his school in Forsyth county. Smith Harris will take her place and she will teach at Pleasant Hill in Lumpkin county.

The other day Sam Elrod's horse failed to put in its appearance and the owner went out in the woods and found his animal standing up with one of its shoulders resting against a sapling as dead as a door nail.

As councilman Strickland is going away soon it is quite likely that he will send in his resignation to the council at its next regular meeting in July. Then that body will have to select some other man to share the honor and cursing for the next six months—all for nothing, although we understand that there are parties that are anxious for the appointment.

Jess Ray and Dave and John Howard, two brothers, all of whom "shanty" down at the Hand mine, fell out last Saturday during their cooking and fought all the way from the "shack" to the mill, however, without the loss of any limbs or broken bones. Peace has since been restored and they all now eat out of the same pot with the same spoon like Indians used to.

Miss Joe Deck and Mrs. Callie Mitchell, both of Dalton, Ga., and sisters of Mrs. Robert Howell, of Dahlonega, after spending three days here, left for their homes last Monday morning. They moved with their parents to Dalton a number of years ago and this is the first visit they have made to the home of their childhood in a long time. Mrs. Mitchell was here sixteen years ago and Miss Joe 13 years ago. Many changes have taken place since then. All their young schoolmates have become men and women, and the most of them moved away or dead, and the few that are left could hardly be recognized by them.

The Signal made the announcement last week that from now on it would be a populist and temperance sheet. The junior editor has sworn off from the use of anything stronger than buttermilk and writes a long article advising others to do the same, and now if the editor of the Dahlonega District Messenger would move his paper here we would have three temperance papers in Dahlonega. The young writer also makes the startling announcement that the Signal will not contain any "trashy" matter like other newspaper, and judging from the tone of the article in addition to keeping its readers posted on political matters that he will divide his attention and again give us an occasional editorial concerning "Old Spot" so that all may know just how his favorite cow is progressing, which will make the paper of interest to the dairyman as well as to the politician and prohibitionist. Then if a change of reading is desired the reader can look in the other papers for "trashy" matter.

Chalmas Stow has been visiting his brother at Blue Ridge for the past week.

Logan Campbell and lady went up to White county last week on a visit to relatives.

If you wish to enjoy a delightful breeze and drink pure cool water, come to Dahlonega.

The Nugget is a complete record of the happenings of Dahlonega and Lumpkin county.

A few nights ago some one relieved J. V. Harbison of three or four chairs that were left out on his porch.

T. A. Shelly, of Gainesville, after spending several days with the family of J. N. DuPre, returned home last Monday.

Dr. N. F. Howard spent last Sunday in the country preaching for the people in the neighborhood of J. B. Duckets.

Miss Loden, who has been engaged in the millinery business for some time with Mrs. Strickland, left for her home last week.

W. J. T. Hutcheson has something to say on our first page why he didn't appear and be sworn in as one of the members of the board of education.

The funeral services of "Uncle" John A. Berry last Friday in Nimbelsville was largely attended. Mr. Berry was a good clever man and every body liked him.

R. N. Mays, of Wahoo, was in town Wednesday and said that he thought of making the race for sheriff. If he does his announcement will appear in the Nugget. Watch for it.

The neighbors all assisted Walt Waters, who lost his blacksmith shop out in Nimbelsville district by fire recently, and rebuilt it this week with his refitted it up with a new set of tools and is now ready for business.

A new watch "tinkler" came into town the other day and the first work given him was by little George Sissum, being a pistol and a watch. The man tore them up and at last accounts could not get them together right.

Col. Lilly left for eastern Texas this week where he goes to look after the estate of old man Callison, a relative of "Back" Lonely, of Lumpkin county. The Colonel will be gone any where from one to three months.

Col. Charters and merchant Gurley spent a couple of days last week on the creek banks fishing, while Col. Boyd and Dr. Wheeler only devoted half that time in hooking the finny tribe and brought in more than their friends did.

We learn that Ed. Moore and Henry Duncan, both of Lumpkin county, are now in Hall county jail charged with stealing two turkeys. While in that county a few days ago it is said that they secured them from a farmer without his knowledge or consent and carried them to Gainesville a distance of ten miles and sold them to the depot agent Terrell for thirty cents.

Near six o'clock last Sunday afternoon Dahlonega was visited by one of the heaviest storms known here for years. It was almost a cyclone. The cloud arose in the Northwest, and it was not long until the rain was almost pouring, the wind blowing at the rate of many miles an hour, the lightning flashing and the thunder roaring and our streets presented the appearance of darkness when not lit up by the brilliant flashes of electricity. Both shade and fruit trees were uprooted and broken off while strong houses shook from top to bottom. The roof of one wing of the college was slightly damaged and one end of the dormitory was wrenched and moved some eight inches from its foundation, while the well shelter of Capt. Bill Worley was picked up by the strong wind, carried a short distance and dropped over in his garden. The storm seemed to be heavier in Dahlonega than anywhere else in the county.

Mrs. John H. Moore has been down to Dawson county this week on a visit to her parents.

A little child of A. Q. Adams was buried over at Saint Paul church cemetery last Saturday.

The Colored Odd Fellows, will give an ice cream festival at the colored Baptist Church to-night. Everybody invited.

Mrs. Brittain went down into Dawson county this week in company with J. V. Harbison, to see her sick sister, Mrs. Townsend.

Will Price, Jr., has become the owner of the Presbyterian church lot this week, where he expects to build him a beautiful and comfortable residence at an early day.

James B. Witt will be here to take charge of the books at the Hall Mide Co's first of next month and Homer Strickland, the present book keeper, will rest up till the first of September, at which time he will go to Swainsboro and engage in business there.

Six thousand circulars have already been sent out from Porter Springs notifying health seekers that the hotel at this famous summer resort is now open to visitors. Notwithstanding it is early in the season twenty guests had already arrived up to the first of the present week.

Mr. Collins, an Englishman registered this week at the Hall House from Colorado, and had his eye on the mining industry of this county. Mr. Collins secured several hands here to do some underground work on Dukes Creek in White county where he has recently become interested.

Since the storm of last Sunday destroyed a portion of the beautiful mulberry shade tree at the court house the "Sons of Rest" have been very much flustered. Hundreds of idle days have been spent by both old and young beneath its branches and the nice cool shade it made will be greatly missed by those that enjoyed it.

Since John Green, col., learned from last week's papers that married men would not have to go to the war he has been using every effort possible to win a bride, but thus far has been unsuccessful. The other day he sent a message to a damsel of his color living on the outskirts of our town stating, "If you loves me like I duz you we will be married before night." But the woman had to decline to say what her affections were toward him on account of being tied up in the Superior Court by a divorce suit brought by her husband some time ago, and if the wife seacher cannot manage to look prettier than he does now and throw that old stinking pipe away he will soon have to shoulder his musket and march down to Cuba and face the cannon ball.

The Besser House is no more. It is not burned nor torn down but has recently become the property of Capt. F. W. Hall, who commenced to repair this old land mark last Monday morning. The sign of the "Besser House" has been torn down and it will be known as a hotel no more, so we are informed by its owner. It will be put in good shape by what we do not know, only that it will not be a hotel any longer. This building is among the first constructed in Dahlonega and has been used for a hotel ever since Harrison W. Riley opened it many years ago. It calls to memory many instances of the past. The first owner—Riley—came near losing his life at this hotel twice. Once by being shot in the back by Joseph Davis, now deceased, and at another time while being engaged in a battle with the Sponcer boys they shot between his legs and killed his favorite dog which stood at its masters heels. Many shots were fired at the old General leaving their sign on the walls of the building which could be observed by all until they were smoothed over with putty by a painter who too has long since passed away.

We have heard of several nice little nuggets of gold being picked up on our streets that were exposed by the recent heavy rains.

Merchant J. E. Moore visited the Big Joe Mine this week to look after the mine and the store over there in which he is interested. The shaft at this mine has already reached a depth of 90 feet, and will continue to be driven as far as the water will admit before any ore will be taken out from the several rich veins that have been struck while going down.

We are informed that a wagon load of visitors who went to hear the preacher talk at Mt. Pisgah church, in the upper part of the county last Sunday, were treated so badly that they left before the services were over. They were made sport of and had one of their wagon cushions thrown away. It is said that while about ten male members and fifteen or maybe more females were in the church taking the sacrament some boys and girls were out behind the building courting.

As there seems to be such a temperance move and a cry against the use of liquor who will join us and pledge themselves not to vote for a candidate who uses it for the benefit of his election. Send in your names so we can publish them and show the people that you are really in earnest and mean to help in decreasing the liquor traffic. Now is the time to let your light shine that everybody may see your good works. It will accomplish more good than all the temperance societies. Who will make the first step?

The place of meeting of the Georgia Teachers' Association has been changed from Cumberland Island to Indian Springs, Ga. The dates remain the same, June 29 to July 2; the railroad rate will be one fare for the round trip; rate at the Wigwam will be \$1.50 per day, at the other hotels \$1.00 per day. Prof. W. S. Stewart, of Dahlonega, will read a report outlining a graded course of study for all the common schools of the state, with a view to systematizing the rural schools as the city schools are graded.

We understand that the bicycle ordinance will be changed soon so as to permit the boys to ride on the sidewalks again. The only thing required of them different to when they rode on them before is the rider must jump off and tip his hat when he meets a lady. Several children were run over and hurt before and when the little boys and big buck negroes are given the use of the side walks again it will cause trouble. Mark our prediction. It may be that Gainesville and other places allow it but they have a good police force and when the law is violated the guilty one is taken up and fined which is collected and not taken in promises as is often the case in Dahlonega.

Last Sunday was meeting day at Yahoola and a large congregation gathered together to hear the minister tell about the wonderful things in the Bible but Bro. Gilreath, the pastor, didn't come and the people returned home very much disappointed. They had a church trial the day previous and the preacher was on hand but why he didn't return is not known. Several members were charged with various offenses, among them were three men who had taken on too much ten on the day of the primary election. Two of these members made acknowledgements and said that they were sorry which, according to the rules of the church, made them as pure and as good christians as ever. But the third one didn't say that he was sorry. He acknowledged to being drunk and told how sick it made him. The "jury" after thinking of how sick he was when vomiting cast a sympathetic look at the man and threw the cloak of the church around him and he too was restored. Doubtless some of those trying him had felt the same sting of pain and were governed by the Golden Rule.

Shubird Flew.

Last Monday John Shubird came to town pretty well loaded down both externally and internally with pure mountain dew. John went to several citizens trying to sell them some of it which he had hid out somewhere close by. Among those he visited was merchant McMuire who is a strict member of the church and a prohibitionist. Doubtless the man believed that he would find a ready sale for a portion of his liquor here but he missed it. The liquid seemed to be a dull sale. He didn't want to take it back and we suppose that he decided to drink it up himself for it wasn't long until he was in a weaving way and a fit subject for the calaboose. Marshal Davis, who is not quite seven feet from top to bottom, grabbed him and started off to the "boose" like a cat carrying her kitten. The man was friendly and full of fun. He wanted to dance. The marshal let him down and he gave a free concert by putting the pigeon's wing to the delight of all present. Then the journey to the lockup was resumed and it was not long before he was safe behind the big iron door. After the man looked around at the interior of the prison while his tune soon changed and he cared to shake his limbs legs no more.

While the marshal was gone to tell the mayor what he had done and to plead for the young man, telling him that he had learned that he was both fatherless and motherless and that his only brother—a twin—was dead, the prisoner began to pray, asking the Lord to send some one with water to cool his parched lips and to cause the door to swing wide open so that he might gain his freedom and enjoy a cool breeze once more.

Soon afterwards he was supplied with the necessary water and carried before the mayor who asked the prisoner at the bar if he had been drunk. The young man was scared so that he said he didn't know. The Mayor was probably an eye witness to the street concert and fined him one cent and cost for being in a condition to give it. The excited prisoner asked "Mr. Judge if he could stop out and see some friends," when Mayor Price replied that he was in charge of the marshal. Marshal Davis permitted him to go and talk with a man and it was not long before he gave a forthcoming instead of a forthcoming bond, by taking off his hat and making rapid steps towards the home of his father, wife and two children which it was learned afterwards that he had. He outran a white man and two negroes.

No doubt the man has offered up thanks to the Lord many times since for having had his lips cooled with water and causing the prison door to swing ajar. This little experience in Dahlonega may be the means of saving the poor mans soul.

The Calhoun Mine.

Mr. S. M. Whorton, who has contracted the Calhoun from the Trustees of the N. G. A. College, stated to a representative of the Nugget that he was much pleased with the prospect on this famous mine and had decided to take the property at the price heretofore agreed upon. Mr. Whorton now has engaged about twenty hands making preparations to rebuild the dam across the Chestate river and to place the pump and mill in running order. The pump will be first started and then 20 stamps of the mill will be put in mining order for the Peachtree belt and 20 stamps for the hard ore from the old Calhoun vein and the Dunnigan lead. In a few more days the old Calhoun property will present a scene of activity and hils fair to become, under its present management, one of the best paying mines in the Georgia fields.

Dr. Thos. L. Watson, Assistant State Geologist, came up this week to get some samples of ore from the Kentucky, Findley and other mines.

What Should Farmers Do to Raise Cotton at a Profit?

QUESTION.—I have seen the unjust criticisms which have been spread abroad in regard to the experiment carried on at the Georgia Experiment Station as to the cost of raising cotton. I remember the manner in which your words were at the time perceived, and also the effort which has all along been made to get political capital out of what was really a most sound piece of advice to farmers. This was six years ago, and if this advice had been generally heeded much of the subsequent hardship consequent on the low price of cotton would have been avoided—indeed I, with many others, believe that the price of cotton would have been maintained at a reasonable figure, because, under your system, it would have been impossible to so overwork the markets as to make our staple crop almost valueless, as it has been, except to cotton buyers and speculators, the farmer not being "in it." Reviewing the past six years, and all that has been said, pro and con, as to the low price of cotton, cost of production, etc., what is your present opinion as to how we shall meet and combat conditions, which so far have proven too much for us?

ANSWER.—My position on this question is the same today that it was six years ago, namely, that when a farmer has made ample arrangements to raise a full supply of bread and meat for his family and food for his cattle, mules, and other farm stock, then he is at liberty, and must entail them, to cultivate in cotton all the land which he can successfully manage. And just here I would emphasize the fact that at present low prices no cotton crop can be a success where it takes 3 acres of land to make one bale of cotton. We must, by a system of terracing, to hold the fertility of our lands, by deep plowing to hold the moisture and to utilize heretofore unsuspected elements of plant food, by planting renovating crops, by rotation and by manuring, intelligently managed, change the results from acres to the bale to bales to the acre. I am aware that many, who have not studied this question, will maintain that this system is not justified by the extremely low prices which have ruled during the past season, but it is just here that the mistake comes in. If by this careful and judicious management the yield can be doubled or trebled, I am satisfied, from observation and personal experience, that instead of being a loss the farmer will be a gainer and that instead of being extravagant it is the most economical, as well as the most intelligent, method that can be followed. The almost universal practice of forcing a few more pounds of cotton from our hard run fields by the simple application of 100 or 200 pounds of commercial fertilizer is bringing our lands to poverty and our farmers to want—State Agricultural Department.

Ayer's Pills

THE BEST Family Medicine

CURE Sick Headache, CONSTIPATION, Dyspepsia, Liver Troubles.

Easy to Take. Purely Vegetable.

The delicate sugar-coating of Ayer's Pills dissolves immediately on reaching the stomach, and permits the full strength of each ingredient to be speedily assimilated.

As a cathartic, either for travellers or as a family medicine, Ayer's Pills are the best in the world.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Every Dose Effective.

"Blight"

costs cotton planters more than five million dollars annually. This is an enormous waste, and can be prevented.

Practical experiments at Alabama Experiment Station show conclusively that the use of

"Kainit"

will prevent that dreaded plant disease.

Our pamphlets are not advertising circulars containing special fertilizers, but are practical works, containing the results of latest experiments in this line. Every cotton farmer should have a copy. They are sent free for the asking.

Potash

is a necessary and important ingredient of complete fertilizers. Crops of all kinds require a properly balanced manure. The best

Fertilizers

contain a high percentage of Potash.

All about Potash—the results of its use by normal experiment on the best farms in the United States is told in a little book which we publish, and will gladly mail free to any farmer in America who will write for it.

DR. HATHAWAY & CO., SPECIALISTS

(Regular Graduates.)

Are the leading and most successful specialists and will give you help.

Young and middle aged men.

Remarkable results have followed our treatment many years of experience.

Five periods that control all the disorders of men who have weak, undisciplined or diseased.

These are the men who are suffering from youth and excess.

and impotence.

and the disorders of their organs, of their systems, of their nerves, leads us to

restored, our own exclusive treatment will afford a cure.

WOMEN! Don't you want to get cured of that condition with a treatment you can use at home without instrument? Our wonderful treatment has cured others. Why not try it?

CATARRH, and diseases of the Skin, Blood, Bowels, Liver, Kidneys.

STYLLIA—The most rapid, safe and effective remedy for all kinds of skin diseases.

SKIN DISEASES of all kinds cured where many others have failed.

UNNATURAL DISCHARGES promptly cured in few days. Quick, sure and safe. This medicine cures and restores.

TRUTH AND FACTS.

We have cured cases of Chronic Diseases that have failed to get cured at the hands of other specialists and medical men.
